#### 1<sup>st</sup> Elucidations: Virtual Reality Psychosis Syndrome: VRPS

Relevant Terms p.2 – VRPS p.2 – Hypostatize p.2 – Gnosis p.2 – Shaman p.3 – Empath p.3 – Demigod p.3 – Archon Demiurge p.3 – God p.3 – Script Writers p.3 – Matrix p.4 – Earth p.4 – Astral Realms p.4 – Density p.5 – Rarefy p.5 – Biblia p.5 – Paganism p.6 – OmniPresence p.6 – Omni-Source p.6 – Logos p.6 – Divine Spiritus p.7 – Lumen p.7 – Soul – p.7 – Soul Complex p.7 – Dreams p.8 – Phantom Dreaming p.8 – Dream Streaming p.8 – Rabbit Hole Alice Fell Into p.9 – Enlightenment p.9 – Kundalini p.10 – Archetypes p.10 – Sound p.10 – Akasa p.10 – Akasha p.10 – Luminiferous-Aether p.11 – Prima Materia p.11 – Monad p.11 – Atman p.11 – Ego p.11 – Shadow p.11 – Magick p.11 – Telepathy p.12 – Thought Transference p.12

*I come amongst you Dreaming Avatars,  
Ye gods of Hypostatization!  
Ye but Dream Dimming Projection of the Past*

*Taken by Stratagem you were,  
Suspended and Entranced ye are  
In another's Dream-Scheme*

*I come for the Dreamers, not the Dreamed  
The "Living Covenants of Pure Spiritus"*

*Immortal we are; In Aether we Dream  
A Living Virus of Light I Be;  
Come to set you Free;  
Herein you will find the Key*

This information is intended to dispel all irrelevant concepts within an *unnatural* world built on *Gordian Knots*. It would be hubris to think anyone could ever untangle all of it and this oeuvre will not be favoured by dogmatist. Neuroscientists at the "University of Southern California's Brain and Creativity Institute" have shed new insight on how the brain reacts when *fixed neuro patterns* are challenged and call the reaction, "The Backfire Effect!" According to neuro-researchers, established neuro patterns are so crucial to a person's identity they may treat *conflicting* information as a threat to their very existence. Many will need to rely upon their instinct and intuition in reading the following.

Every era has been confronted by warring Factions with bipolar philosophies and political agendas. Today, genuine seekers are battered by media info-wars from those attempting to keep them in ignorance and enslaved to antiquated thought systems. The following oeuvre is a *bridge* between what has been accepted as reality and the greater Truth! We shall attempt to breakdown the illusion and debunk hypostatized concepts in order to shed light on an intelligent and discernible awakening. It isn't about right or wrong; it is about being oblivious to where you are, how you

got here and where your future lies. It is about rebooting your consciousness so that you can *protect* yourself and *shift* your *reality*. No matter how educated, liberated, or enlightened you may think yourself to be, nothing is as it seems!

**“Truth is stranger than fiction, because Fiction is obliged to stick to possibilities; Truth isn't.” –Mark Twain**

There are those who accept they have been captured and are walking between two parallel worlds. We can agree to disagree on technical points, sciences and interpretations from ancient texts and dogmas because most of it has been tainted by editing and adaptations. Educational texts are mainly made up of ‘*dis & misinformation!*’ This *brief* will hopefully dismantle many of the god-spells; layers of religious dogma and New Age doctrines, along with falsified histories, in favour of genuine *mind transforming information*. Gnostic Shamans taught that unsullied information was the most important part in finding a safe path through this and the *Spirit World* after expiration or in seeking “*Enlightenment*.”

**“Awake, arise or be forever fall’n” –John Milton, Paradise Lost**

**RELEVANT TERMS:** Separating reality from conceptual programmed verisimilitudes to bring about a cohesive sanguine vision of consciousness may be challenging. Particular words and subjects may trigger questions, thus to keep the subject at hand flowing you will see this symbol > {Ra}. It represents “*Revelations adinfinitum*” signifying further elucidations on the term or thought will be dealt with at another more appropriate time and heading.

**Words by themselves are merely veils over reality**

**“It is dangerous to leave that which is badly written. A work upon paper may destroy the world. Watch carefully, for once it escapes, it may rot its way into a thousand minds, and all libraries, of necessity, be burned to the ground as a consequence.” –William Patterson**

**VIRTUAL REALITY PSYCHOSIS SYNDROME –VRPS:** *Virtual Reality Psychosis Syndrome, VRPS*, is a severe mental disorder. Through repetitious programming and acceptance the mind becomes degraded and loses its ability to recognize the difference between fundamental reality and *astral-pseudoism*, a form of *Phantom Dreaming*. {Ra} VRPS is a progressive illness that creates an *identity crisis* that incapacitates the mind to recognise it is in a virtual-reality program. Dreamers in this matrix are sleeping at the wheel whilst others are driving their consciousness! You have become your own greatest mystery and paradox! The goal of these compendiums is not to create fear, but to generate authentic information back into the *Collective Mind* in order to unshackle it. I am not here to *change* anything; I am here to create a bridge between this world and reality.

**HYPOSTATIZE:** Hypostatize is a Greek term derived from hypostatos meaning to treat or regard abstract *concepts* and *ideas* as distinct *substances* of reality. To regard ideas as concrete materialism is to *reify* them into existence. Hypostatization is closely related to the act of being hypnotized; to be placed *under* or *put to sleep*. Hypnosis has a governing power over the oblivious mind whilst under its influence. The mind becomes susceptible to suggestion and the brain becomes powerless to recognize someone or something is controlling it via subconscious implants.

**GNOSIS – GNOSTICISM – GNOSTIC:** Gnosis is a Greek term for *Wisdom* and *Knowledge* surrounding the *Spiritual Mysteries*. Gnosticism is the study of Gnosis and Gnostic (gnostokos) is a pejorative term, meaning “*smart ass*” or “*know it all*”, invented by *The Catholic Church* to ridicule those practicing Gnosticism.

**SHAMANS** are known as *Spirit Walkers, Gnostics, High Priest, Healers, Witchdoctors, Medicine Men, Necromancers, and Sorcerers*. They practice exploring other dimensions of consciousness via the use of psychotropic plants that allow them to have out of body experiences known as “*Soul Flights*.” They can receive visions and purportedly have come in contact with ancestral spirits and *other world* entities. For eons Shamans were the intermediaries between this world and the Supernatural realms. **EMPATHS**, also known as *Psychic Sponges*, are highly sensitive and may have memories of different event-timelines and the *Other Worlds*.

**“When ye shall know the truth, the truth shall make you free” –John 8:32**

**DEMIGODS:** Latin; hybrids of mixed DNA origins {Ra} that became known as the “sons of gods.”

**DEMIURGE:** This is the term Gnostic shamans gave to a highly intelligent inorganic interdimensional entity called *Yaldabaoth*; also been identified as Yahweh that claims to be the LORD and creator of this world. He demands obedience from his incarnate minions and absolute *worship* from followers. {Ra} Yaldabaoth is the *Holy Ghost in the Machine* and the leader of the Archons, a group operating in the *Supersensuous Realms* just beyond the human range of perception. **ARCHON** is a Greek word derived from the same root words as monarch and hierarchy and represents the term “Master Ruler.” They are *grand deceivers*.

**“The LORD most high is terrible; he is a King over Heavenly realms. He subdues nations *beneath Him* and peoples *under His feet*.” –Psalm 47:2**

**GOD:** God is a Germanic term meaning to call or invoke and was never used in any of the original Judaeo-Christian, Hebrew, Aramaic, Greek or Latin scriptures. It became an adopted term to replace “the gods”, “Baphomet”, the “*Logos*” and “*Omniscient-Source*.” It became Christianized by giving it a capital “G” and making it a proper noun as *God* instead of the gods. This enforced the concept of a monotheistic God and distinguished Him from all other polytheistic gods. {Ra} The Rabbis High Priests and Popes made themselves intermediaries between this OVERLORD in order to gain absolute authority over followers.

**“If God is omnipotent and omniscient, why didn’t he start the universe out in the first place so it would come out the way he wants? Why’s he constantly repairing and complaining? No, there’s one thing the Bible makes clear: The biblical God is a sloppy manufacturer. He’s not good at design; he’s not good at execution. He’d be out of business, if there was any competition.” –Carl Sagan**

**SCRIPT WRITERS:** “*Script*” is a term used for computer programming. *Writer’s* is a term I use for the *ghost writers* composing the program. They use fabricated education systems, religion, untrustworthy media stories and disinformation to program the computer between our ears. Thus, we will use the term “*Script Writers*” to represent the two *separate* secret Factions running the program by keeping a tight lid on factual information. *Albeit*, they weave morsels of truth into psychobabble and deliver it via doctrines, media, internet, books, magazines, films, animations etc.

**“All one need do is open their minds and see that *everything* in this virtual-theatre is moving backwards away from any higher sense of wisdom and spirituality.” –Carl Sagan**

The two major forces at play represent two totally different fundamental *Factions* with separate agendas. Nonetheless, they have now been forced to create a secret *pact due to rediscovering ancient highly advanced weapons of mass destruction that could completely destroy the world..., again!* {Ra} They have now agreed to create *two separate unified fields* whilst *altering* and sorting *the human race* for their personal program agendas. {Ra} Religions, wars, abductions, bioengineering, economics, and energy syphoning are just part of their manifestations leading towards

their objectives. One Faction belongs to the “*Archons*” and their *Overlord* Yaldabaoth, Yahweh, Jehovah, Elohim and Allah of *equivalent* names. The Archons are extremely advanced in super-natural technology. They know how to fold space-time in the matrix by using specialized craft and are also masters of mind manipulation!!

**“We are not fighting against flesh and blood enemies, but against evil rulers and authorities from the unseen world; against mighty powers in this dark world and against the spiritual forces of evil in the heavenly realms.” –Ephesians 6:12**

The other Faction is made up of hybrid Elite Script Writers who believe their DNA is connected to the mythological “Elder Gods” who were hybrids themselves. {Ra} Between the two Factions they have acquired worldwide Banking, every Major Corporation, Military, Psy-op and Reconnaissance Organizations in the world. They control the primary secret societies, including the Freemasons, along with 98% of the world’s information and economics. {Ra} The Archon Faction has many *branches* whilst the Script Writers have many Federations. Both operate on a dog eat dog power struggle within their own factions, which was the foundation for all religious and political wars. Both earned many titles over the centuries, but none as infamous as *Pope; Jesuit; High Priest; Black Nobility; Elite Cabal; Royals; President, Prime Minister, CEO; and NAZI*. {Ra} They have all become interwoven and earned their titles via ruthlessness, cruelty, destruction and immorality on a *grand scale*. Wars during this last era have been based on industry, population control, and keeping young people of fighting age limited, handicapped or under their control. They justify their actions by the knowledge this world is a secondary-dream they call “*The Game*.” {Ra} If life is a “Game” then its name is “Wake Up!”

**“Too often we excuse those who are willing to build their own lives and *dreams* on the shattered *dreams* of others.” –Bobby Kennedy**

**MATRIX – MATRICES:** The word matrix represents a “womb” where something is being generated; an encompassing space similar to computer program. All materialism is created out of layers of light-waves. We are all multidimensional dreamers capable of experiencing different planes and realms stored within our DNA and consciousness. If you cannot fathom this, you are not ready to read this oeuvre. We are all involved in hypostatizing a refashioned virtually-reality program annexed from a higher matrix gone awry. {Ra} You are lost in a mental theatre of interwoven illusions.

**EARTH:** Earth is a Germanic term originating out of the Anglo-Saxon word *erda*, meaning soil, which became the Proto-Germanic word *ertho*, meaning *ground*. The Roman term *terra* is its equivalent in Latin for “*dry land*.” The Greek – Γῆ – gé, also meaning land, was cleverly morphed into a creation myth and “Gé” became the “Mother of the universe who gave birth to the gods and the first humans.” {Ra} In contemporary eras it became synonymous with the term planet, a Latin term devised from ‘plane’ by adding a “t” at the end. The Greek “Gaia” is equivalent to the Roman “Terra”; both are ancient words for “land” that became synonymous with the term earth. The Script Writers deified “dry land” by turning it into a *goddess* in a dark *creation myth*. Gaia-Sophia became the feminized terms for *earth* with a capital “E”.

**“We find that we live on an insignificant planet, of a humdrum star, lost in a galaxy, tucked away in some forgotten corner of a universe...” –Carl Sagan**

**ASTRAL REALMS:** Also called the astral planes, astral worlds and underworlds. {Ra} They are rarefied fields just out of our field of perception. They were taught about within the Platonic Doctrines; Eastern Mysticism; Christianity; Shamanism and Medieval, Oriental, and Esoteric Philosophies. The astral planes are the part of the matrix that consists of the *spirit worlds*, and *interdimensional* realities belonging to the Archons. {Ra} The lower intermediate transitory worlds are known as “Barzakh” in Islam and “Yetzirah” in the Qabalah. Many believe this is where *Judgement* takes place after death and decides their fate. All of these planes are stored within the

DNA like miniature time capsules waiting for your consciousness to open them. Many become trapped on these planes due to being so *low grade in spirit*, dogma, chicanery, or just plain *ignorance*.

The soul acts as an intermediary between the corporeal world and the astral planes because there is no such thing as “*death*”, only transference. {Ra} These planes are normally experienced after expiration, but can be traversed whilst still in corporeality via various techniques or psychotropic drug use. There are concerns about opening these corridors in the unprepared because of what the mind is capable of conjuring from its own ‘*dark side*’. {Ra} Ancient Shamans were aware that the *lower* astral planes were a dangerous place to navigate, especially after death, thus they created esoteric schools that taught how to safely deal with the pitfalls and liberate themselves. If you can grasp the truth herein, you can have a self-governing experience! Be fearless; embrace and *focus* on the dazzling brilliant lights and be not afraid or attracted to any of the duller hues! No matter what appears before you, be fearless and hold fast to it being an illusion in your own intellect.

Solidity is relative within all resonating vibrational waveforms; consequently the astral planes feel as real as this denser material plane. In most mundane passing’s it can be difficult for them to realize they have passed over! Shamans on “*astral soul flights*” {Ra} claim there is a “*silver cord*” that is connected to the crown chakra linked into the astral planes. It must not be broken whilst in an out of body state because if it is terminated your consciousness can become trapped there. The bible speaks of this cord at the time of death: “**When the silver cord is severed, ..., the dust returns to the ground from which it came...**” –Ecclesiastics 12:6-7

**DENSITY** is created via higher degrees of vibrational waves that become shorter as they increase in numbers. This creates the waves to become more compacted in smaller volumes of space and gives the illusion of solidity. **RAREFY**: Rarefication has lower degrees and fewer numbers of vibrational waves which expand in space.

**BIBLIA**: *Nothing exists* the way you think it does! Much of the Bible is deteriorating under the weight of transparency and the lack of archaeological support.

**“If a man follows the teachings of the Old Testament, he would be a criminal. If he follows the teachings of the New, he would be insane.” –Robert Ingersoll**

The Old Testament contains Judaic Laws and stories laid down by the Rabbis. The OVERLORD Yaldabaoth, Aten in Egyptian, gave his laws and instructions to the Egyptian Pharaoh *Amenhotep IV* during his reign. Amenhotep changed his name to *Akhenaten*, but failed in his attempt to *force* an *Aten* monotheistic government on his people. (Amenhotep may have been a hybrid archon implant, which must be considered due to his unexplained bizarre physical deformities and unorthodox rituals of offering livestock for slaughter in a *vegetarian culture*!) The laws and instructions were surreptitiously passed down orally through the Ages as the *Torah*; later edited segments were written down as the *Talmud*. Due to being sifted by so many extremist and *their* agendas for such vast periods of time, and their *zealot radical* views on monotheism, the authentic directives will never willingly be revealed. Suffice it to say, the true teachings of the Talmud are only significant to *extremist followers* and *pernicious to all others*.

The Old & New Testaments are laden with pseudepigraphs taken from ancient texts. Numerous artifices and fabricated historical events were added or changed in both the Old and New Testaments. New characters were taken from ancient texts and given new appellations: *Akhenaten* became *Moses*. Jesus of Nazareth’s name was taken from the records of an insurrectionist *Jesus Barabbas*, whose last name meant “*son of the father*.” The *Ten Commandments* were recreated from the Egyptian “*Book of the Dead*.” The *Book of Revelations* was taken from the Egyptian “*Mysteries of Osiris and Isis*”, and so forth. The Great Exodus from Egypt has recently been shown by archaeologists to have never taken place, etc., etc. There are now literally thousands of translations of the Bible, with over two hundred versions in English alone; all of them are

full of *contradictions* due to their feeble attempts to adapt the ancient texts to fit *their* religious dogmas and programs!

**“The LORD is a jealous God, filled with vengeance and rage. He takes revenge on all who oppose him and rages against his enemies!” –Nah 1:2**

**“We know and rely on God’s love for us because God is Love...” –1 John 4:16**

**“Be tolerant with one another and forgive anyone who does you wrong.” –Col 3:13**

Ask yourself, if any of this is real, why are the Jesuits and Cabal not terrified of their last *Judgement* for the crimes they are still committing against humanity? A fabricated saviour does not suffice or make it acceptable.

The New Testament is a *revised collection of ancient texts taken from Mithraism, Druidism, Hinduism, and Egyptian philosophies*, along with *edited* epistles and *alleged* memoirs. Jesus was a composite of ancient enlightened deities that had achieved a state of *Christ Consciousness* such as *Krishna (Kristi)*, *Apollonius of Tyana*, *Hermes Trismegistus* and *Thoth*. The reason his image gained so much recognition and acceptance is because he represents a form of the *Pure Divine Principals* present *within all of us*. Due to where many of these verses *originated*, there is still knowledge and wisdom to be garnered when understood in their proper place.

**PAGANISM:** *Pagan* is just a *pejorative* term for *heresy*! It refers to anyone with spiritual beliefs *outside* of monotheistic biblical dogma. Pagans follow Nature, the ancient teachings of gods and goddesses, and worship the *Omni-Presence* in everything, as does the oldest religion in the matrix, *Hinduism*. Between 1096 and 1492, the *Catholic Church* slaughtered millions of pagans during their *Crusades*. They also took over holy lands and religious sites from the Muslims who *also* worship the same LORD God. The *Crusades* greatly increased the Pope’s wealth; authority and the development of doctrine whilst reducing opposition.

**OMNI-POTENT-PRESENCE:** Every culture has individual *symbols and words* representing what they believe the *Omni-Source* to be. The problem is the *source of this virtual-world program* is *not* the same as the genuine *Omni-Potent-Source*. It has been replaced by the DNA’s complex digital informational codes of *ones and zeros embossed over reality*. The following terms are important because they are the oldest archetypes of our True Source and still hold deep relevance within many souls.

**OMNIPOTENT SOURCE** denotes the highest Universal Principles and *Source* of all ultimate Potentials within all things. It is all pervasive, genderless, non-quantifiable and *non-personified*. The only *constant in the genuine Universe* is *change* because nothing is stagnant within its *Electrical Thought-Waves*! These emanations flow out as the *First Chord*, only to return to it as a *Symphony of Glory* for its increasing *Knowing*. It is the *Pleroma* of Divine Powers via *Tonal Emanations of Love*; the *Great Blue Whale* of the Universe singing its eternal song. All things are created to become *Living Bodhi’s*; Living Organisms of the Infinite Omnipotent, Omnipresent, Omniscient One. OM ॐ

**LOGOI**, singular; **LOGOS**, pl: Logos is a Greek term meaning “*Divine Word, Reason and Plan*”; the absolute within the Cosmos that creates order and form within the antimatter and matter realms. ∞ Even in this virtual-theatre one can look to the heavens and see the infinite holographic manifestations of the Logos shining forth in the form of spiralling Galaxies and Stars. The *Adi-Buddha* knows them as the first emanation of “All Primordial Wisdom.” The Kabbalah summarizes them as the *Ain-Soph*, the “*Endless Boundless creation of the Universe emanating from pure Consciousness.*”

- ❖ When the *Divine Source* sent out the *First Chord* from its *Infinite Unity of Oneness*, it became the *First Cause*.
- ❖ It’s boundless Tone created ripples of vibration in the void that reproduced *itself* as the *First Logos*.

- ❖ This was the beginning of an *Infinite Divine Symphony* of Sound that grew and expanded into billowing swells of magnetism, electricity and light.
- ❖ A *Second Chord* was issued forth from the first Logos and flowed into a *Second Logos*, creating the *Second Cause*.
- ❖ Like a ringing bell, the second-Logos' Chords billowed out Divine Frequencies flowing out from its epicentre like a great *Cosmic Mother*. It sent Her *currents of balanced harmonious notes* to a *Third Logos*.

The *Third Cause* became an *Infinite Unfathomable Magnum Opus* within *Great Expanses!*

The Rays of magnetic-electrical energies disseminated into measureless subordinating interconnected strings of Logos and Star Gates to the genuine diverse worlds. Boundless sub-Logos created the inexhaustible flow of Atman from their centre, only to return unto itself through the uninterrupted magnetism of the One.

The centre of all *Divine Acts of Will* is realized through *Cosmic Principles*. The mind needs models to help it understand, because no words will ever suffice. All Galaxy Logos act like immense fulcrums that support orbiting spheres on its great levers of electromagnetism. The closer a creation is to the centre of this fulcrum, the higher the frequency and rarefaction; the further away, the lower the frequency and the higher the density. In the genuine Cosmos we are continuously expanding because we are a cell within the Logos, the “I AM that I AM” – “That which is above is *the same as* that which is below.” This was the genesis of the *Cosmic Egg*; the centre of all things, whether dormant, latent or active.

All genuine worlds are connected through vibrational fields of Sound and sub-Light flowing through the indivisible harmony and unity of the Logos. They act as interconnected stepping stones from the ONE; the 1st Logos and all of its sub-Logos producing creations within the anti-matter and matter fields of their energy. Logos act as *Omniscient Power Cells* and their sub-Logos act as *electrically charged organs* within spheres of Light. We are all part of the *Infinite Symphony* creating the sacred *spiral* dance of the ever *expanding* Glory and Knowing... of ourselves.

**DIVINE SPIRITUS:** The term *Spirit* appears thousands of times in Sanskrit and over 605 in the Bible because it is the synergy that animates all living things in the matrices. “**The body without Spirit is dead**” –James 2:26. Spirit is synonymous with *Prana* and *Pneuma* and *should not be confused with the biblical “Holy Ghost” Yaldabaoth!* **PRANA** represent the vital principal of breath. **Chi**’ is the Universal Life Force. **PNEUMA** is the indestructible, unquantifiable Divine Force of **PHOSLIGHT**; the carrier of *Spirit* passed down through the Logos.

“Do you not know that your bodies are temples of the Holy Spirit?” –Corinthian 6:19

**LUMEN:** Latin for Light - Lumen is the *invisible psychic light* that passes through all consciousness and space with the greatest effect on our psyche and pinealis. When allowed to penetrate the brain it becomes an inner brightness known as Lux, another Latin word for Light. **SUPER-LUMENAL:** represents Lumen as an *instantaneous* Lux.

**SOUL:** Soul is Latin for the animating principle; the quintessential indissoluble element of all *organic species*. The soul is the energetic vestment and carrier of Spirit, Phoslight and Atman. The soul *is not* a separation from the One Omni-Present Source, but an individual expression of it! The soul could be likened to *rays of sunlight* streaming through branches on a tree; each Ray may be seen as separate, but in reality they are all the quintessential sun only separated by *shadows*. When a soul has completed its journey *returns* to it *Source*, it expands back into *All that It Be*. This is the state of completed Enlightenment. {Ra}

**SOUL COMPLEXES:** Each *Solar* sub-Logoi has its own creative juices of wonderment and imagination that extends itself into a cadre of sub-Logoi-Orbs; each with its own distinctiveness. These Orbs or Spheres create their own unique *collective offshoots* of *Immortal Beings* experiencing its creation. All Orbs belonging to the same *Solar-Logoi* have a collective *tonal signature*; a choir of

resonating “*Soul Complexes*.” The true meaning of a “soul mate” is when one finds an authentic member from their soul complex! There are still souls trapped here that belong to a *genuine Solar-sub-Logoi* within the authentic worlds and needs to be *woken up*!

**“...Ye are not of this world, and it does not love you.” –John 15:9**

**DREAMS:** Dreams are sequences of images, emotions and sensations during *REM sleep* usually when *Rapid Eye Movement* occurs at intervals characterized by dreaming. We have become multidimensional recycling spellbound *dreamers*, even *when we think we are awake*! The Veda’s state life *is a dream*. {Ra} Ask yourself, “If I am dreaming *where* and *who* is the dreamer?”

**“Let us not sleep as do others; we must stay awake and keep our senses” –1Thessalonian 5:6**  
**“How long will you lie down, O sluggard? When will you arise from your sleep? –Proverbs 6:8**

**PHANTOM DREAMING:** If a physical vessel is *instantaneously* deceased without warning, it can become susceptible to a repetitious “*Phantom Dream*.” This is the true genesis of this world; or as the Australian aboriginals call it, “*Dreamtime*.” {Ra} Over the centuries there has been a profuse amount of reported localized apparitional events taking place, especially at historical sites of pronounced violence. The Script Writers attempt to disregard the observers as hoaxers or mentally disturbed. On the contrary, there have been so many sightings over the years, especially by combatants in war zones; they have become more the norm. Death is a delusion of the mind. Those who *instantaneously* lose their material bodies to violence or accident may not realize it has perished. What observers are seeing is the ectoplasmic energy fields of individual’s consciousness caught in a *mind-loop* like a needle stuck in a vinyl recording. Many of them repetitiously experience the violence that caused their death, while other are just trying to find their way back home to their families because they do not realize they are dead to this world. The landscapes and structures; everything they see remains the same in their mind’s eye because they do not realize they are caught in *another secondary* illusional phantom dream! Their experiences are as tragically real to them as yours are in this secondary virtual-world!

**We are the music makers, And we are the dreamers of dreams,  
Wandering by lone sea-breakers, And sitting by desolate streams;  
World-losers and world-forsakers On whom the pale moon gleams  
Yet we are the movers and shakers Of the world for ever, it seems.  
Arthur William Edgar O'Shaughnessy (1874**

**DREAM STREAMING:** Your souls are being used as a form of *dream-generators* in a state of mesmerisation whilst *reifying* – concretizing – a *virtual reality*. Many of us originate from different authentic cosmological home-worlds, yet all belong to the *One Omni-Source of Infinite Unity* within an authentic *Cosmological Family*!

We all share in the *unity* of the *Infinite Source* of vibrational sounds and shimmering pure rays of light and magnetism. Only our *minds are imprisoned* while manifesting the *illusion of being entrapped in a virtual world*. Information is constantly being fed into your brains via digital subliminal programming. Everything in a matrix is manifested out of programmed DNA and psychoactive technology. Words, films, media and music are techno-keys used to distort reality and lock unaware minds into this quasi-reality.

**Nothing in this illusion is a Declaration of Final Truth  
Especially the written word; for Truth shall have the Last Word!**

**THE RABBIT HOLE ALICE FELL INTO:** The *Frontal Lobe* of the brain acts as the control panel of cognitive functions, personality and the ability to communicate. It also acts as a temporary *panoramic theatre screen* when the pineal and pitu-

itary glands are activated. Downloading into the matrix is an extraordinary experience as is waking up! {Ra} Once entranced in the matrix, memory is suppressed and the brain broadens its vista as the senses start to take in the new surrounds like a newborn babe. This can be very uncomfortable for an authentic downloading empath!

One of the secrets of time in this matrix is the spinning ratios and frequency going on above our heads. The holographic twinkling lights in the firmament were placed in a *DOME* as hypnotic rotating fixed stars. {Ra} Science tells us that the earth is spinning around the sun at 67,000 miles per hour (107,825.97km) and the moon at 2,288 miles per hour (3,683km). What they don't tell you is that the moon is an *added implant* in this *3D matrix* {Ra} and is being used as a *holographic interference pattern*. It is (Aus. time-lapse–Lincoln Harris) the “eye in the sky” and a “portal” for downloading consciousness into or existing the matrix. Have you seen image or something similar, *flash* in your minds eye?

**The greatest quandary in Humanity is its compelling yearning to wake up whilst clinging to a Dream in the Fear of losing itself in the Awakening**

**ENLIGHTENMENT: “I turned to consider wisdom, madness and folly; for who can do this better than a king? I realized that wisdom is preferable to folly, just as light is preferable to darkness.” –Ecclesiastes 2:12-13**

Enlightenment is a term with many *degrees of meanings*. There are two different sects of Buddhism with various guidelines towards enlightenment & liberation through death. And, there are myriads of Hindu gurus that teach other systems. Some see it as an intellectual movement of comprehending scientific knowledge, religions or ancient texts. All of the above are valid forms for the term enlightenment. However herein, we shall use the term enlightenment to represent the “*full comprehension of the situation and reality taking place in this world*” in order to liberate ourselves from it prior to or *immediately* after physical expiration. This is the path of eroding all *implanted* conceptual patterns. It will tear away the very fabric of your shallow mind in order for reality and wisdom to shine forth in the *now* moment from your heart. It is a different kind of self-realization that will help you release *layers* of concepts, deities, incarnations, guilt, fears and the entire world of fabricated implants!

**“The energy or active exercise of the mind constitutes life” –Aristotle**

Many misconstrue enlightenment as a decree of spirituality and love; however enlightenment is NOT a decree of goodness. Many of those at the top running this *Absalom Matrix* are in a higher state of enlightenment than most of those they rule over and many carry dark spiritual forces within themselves.

**“A good person brings good things out of the good stored within his heart, and an evil person brings evil things out of the evil stored up in his heart.” –Luke 6:45**

Pure unblemished information needs to be obtained in order to redirect the mind towards the Gnosis of an *awakening*. We must come to the realization we are in a recycling subconscious virtual-reality dream {Ra}; we are *the dreamed*, but we *are also the dreamer*. Even in this quest, there will be various degrees of enlightenment because it involves massive parapsychological conversions involving the supernatural, cerebral and heart faculties. {Ra} Everything in *this matrix* equates to DNA; everything outside of it equates to a higher state of consciousness. And, if you give your power away to an outside source you will remain vulnerable to it.

**“Fear not those who can kill your body; they cannot touch your soul...” –Matt 10:28**

**KUNDALINI:** Kundalini is the serpentine fire of alternating magnetic waves of psychic-electricity spiralling through the spine of a dreaming *host* connected to its *dreamer* or “*higher-self*.” {Ra}

This serpentine energy sits in the coccyx centre of the spine and its currents flow through the entire nervous system and up through the chakras. The serpent representing kundalini appears as the symbol for alchemy on “*Hermes Caduceus Staff*.”

**“Just as Moses lifted up the snake (kundalini) in the wilderness, so must also the Sons of Man.”**  
–John 3:14

It feels like an electrical current moving up through the spine and nervous system when loosed from its coil at the coccyx. This is the *serpent* referred to in the Adam and Eve parable in the *Garden of Eden*. After *eating* a psychotropic mushroom called Soma {Ra} their 3rd eye was opened, which gave them *insight*! In the matrix, uncorrupted information can be as powerful as kundalini.

**ARCHETYPES:** Cosmology, Numerology, Astrology and Spirituality have all been hijacked to fit private agendas. Archetypes are representations of a thing or structure used in examples. Pure Cosmic Intelligence existed long before humans started giving it elaborate esoteric names and mathematical codes. However, *models* must be used in this digital world in order to bring abstract ideas into some form of cognitive understanding.

**SOUND:** “In the beginning was the Word” –John 1:1

Archetype *matrices* reproduce digital sound-waves that create *electromagnetism*; moving *electricity* experienced as replicated *light* from a Logoi. Electrical vibrations produce sound at variable frequencies that produce *visible spectrums of colours*. The colour and mean of this matrix is *yellow*, which represents the thinking mind outside of the thinking heart. {Ra} Electrical vibrations can be quantified and digitally reproduced through mathematical equations. The matrix you are experiencing was manifested via vibrational fields surrounding 7.83 Hz; however due to technological interference from HAARP {Ra}, it is now dangerously fluctuating into sustained dangerous and unhealthy ranges. Sound is vibration flowing from an epicentre that spreads its vibrational field of electromagnetism in all directions similar to throwing a stone in water. In the art of Zen, a series of Koan’s are asked that can lead to enlightenment, such as: “**If a tree falls in the forest and no one is there to hear it, does it make a sound?**” By the end of the 7 *Elucidations*, you should be able to answer the question and fully comprehend it.

**“If you want to find the secrets of the universe you must think in terms of energy, frequency and vibration.”** –Nikola Tesla.

**AKASA** is Sanskrit translated as space or atmosphere; philosophically it represents the “ethereal fluid pervading the cosmos” and relates to the biblical waters that separate the astral planes from the material plane. **AKASHA** is a term used for individual imprinted and soul logged events.

**“Let there be a space between the waters; and separate the waters of the heavens from the waters of the earth.”** –Genesis 1:6

**LUMINIFEROUS-AETHER** is a Greek term for the aethereal, the disseminator and medium of all magnetism and its electrical properties and waves. It is the quintessential *Fifth Element* that permeates all things.

**PRIMA-MATERIA** is a quintessential formless substance; the quintessence of aether. It is the ubiquitous starting material required for “Prima Alchemy” creation of the *Philosopher’s Stone*; *Immortality*; *the Elixir of Life* and the *Fountain of Youth* and other such perceptions.

**MONAD:** refers to the cosmogony of creation and the First Person, the Immortal Being within each of us. Your lineages, you and your progeny are like looking into a mirror seeing a continuous line of self-reflections.

**ATMAN:** Sanskrit; is the carrier of *self-awareness*; the Spiritus of the “I AM” the “Atma or Self.” It exists in all creatures on land, sea and air. It expresses the same intelligence and is only limited by the capacity of the brain it is expressing through. It expresses through five sublevels: Divine; Spiritual; Mind; Elementals; and Physical. The atman pervades, permeates, animates, and *informs* all things; it is the eternal link that connects the cosmic hierarchy, from the highest to lowest. It is the spirit or soul; our *true self* beyond corporeality and ego; beyond the matrix. It is the essence underlying our dreaming existence.

**EGO:** Latin: In psychology the ego is seen as the facilitator between the *conscious* and *subconscious* mind. However, the human ego is an accumulation of digital neuro-patterns that start in the womb and in the epigenetic stored memories in the DNA. {Ra} They are responsible for all behaviours, impulses, compulsions, desires, fears; likes; dislikes; proclivities; rivalry; courageousness; cowardice; and sexuality, etc. All stored patterns go into making up our egoic personality. In Buddhism the “ego” is referred to as the *‘illusional self’* because it has become layers of fabricated information. Sigmund Freud’s psychoanalytic theories broke the ego down into the three divisions of: ego; super-ego; and alter ego, which he coined, the “*Id*.” He saw these as the basis of perception and individual adaptations to reality. He wrote that the “*Id*” is the basis of all deeply rooted psychoses and egodystonic phenomenon. He stated the ego was in conflict with intuition and the heart and wrote:

**“The advent of evil may have become the side effect or psychosis of a devastating blow dealt to collective group of higher conscious beings that endured a break in their consciousness with massive interference.” –Sigmund Freud**

We shall explore what was behind the original “break in consciousness and its *massive interference*.” {Ra} However, religion took full advantage of this psychosis and reinforced it in order to give the LORD Yaldabaoth more power over them: **“You snakes! You brood of vipers! How will you escape being condemned to Hell?” Matthew 23:33**

**SHADOW:** The primordial spiritually enlightened were aware this world is a projected dream-scape {Ra} and called it “*maya*”, meaning illusion. The *shadow self* or *lower self* represents the ego that believes the illusion is real; it is the *dreamed* in contrast to the *dreamer*, signified by a higher self.

**MAGIC:** Magic is a common term used for entertainment such as pulling a rabbit out of a hat. **Magick** is a technique for harnessing internal and external energies that manifest a change in people’s perceptions and environment. All magick takes place in the mind; the only difference between black and white magick is the *intent of the magician*.

**“Above all, watch with glittering eyes the whole world around you because the greatest secrets are always hidden in the most *unlikely* places. Those who don’t believe in magic will never find it.” –Roald Dahl**

**TELEPATHY:** The more rarefied realms use telepathy as the natural form of communication. Similar to ancient pictograms, mental images are projected from one to another via DNA hypercommunication webs, which have also been coined *Morphogenic Fields*. DNA stores information and feeds the data back into the collective via this web where it becomes *shared* neural brainwaves that can be decoded. There are no secrets in the *collective web*; eventually all experiences and information permeate the entire whole. The brain is not only a generator, but also a *receiver* of wave forms that can lead to alternate realities.

Psi-Op military groups train people in the field of *psionics* via the use of drugs and technology. They have learned how to *Remote View* and *share secondary dream states*. Time and distance have no relevance in remote viewing which takes place via tuning into a subject and mentally connecting with them through the DNA hyper-communication web in order to gather secret *Intel*. *Secondary share dreaming* is when two or more military personnel are placed in a form of astral dreaming where they can learn from lethal combat exercises and then wake up unharmed. This hyper-communication system also explains the phenomenon of how those in close relationships know what each other is thinking, about to say, or feel at times. It is also how animals know exactly where their caregivers are; when they are leaving or coming home and asleep or awake.

**“In spite of the world-wide systems of linkages, there is, at this very moment, a general feeling that communication is breaking down everywhere on an unparalleled scale. One sees that a new kind of theory is needed which drops basic commitments and recovers some essential features of older theories as abstract forms *derived from a deeper reality, which prevails in an unbroken wholeness.*” –David Bohm**

**THOUGHT TRANSFERENCE:** Brainwaves normally operate optimally when in balanced alpha-rhythms; however there is now so much ELF interference that our brainwaves have become dominated by unhealthy wireless electromagnetism that has created a left brain syndrome. These brainwaves inhibit intuition, listening and communication skills and are the foundation of hyper-activity, especially in children. Unsolicited negative thought-forms are now successfully sent into your minds by *devices* and *entities*. I coined them the “*Village Voices*” many years ago because they becoming a growing phenomenon of confusion. Unfortunately, people believe these voices belong to them, which can cause self-disparagement, stress and fear. You must remember you are in a trance state and negative thought forms can be projected into your mind. Dark influences have various purposes and there are immeasurable amounts of psychic dross leftover from deceased dregs and lost souls clinging to the matrix. Archons try to heighten negativity in order to feed off of the energy:

**“Tell them that this is what the *LORD*, the God of Israel, says: 'Cursed is the one who does not obey the terms of my covenant.'” –Jeremiah 11:3**

**“*Listen* and honour my name says the LORD Almighty, or I will bring a terrible curse against you. I will send a curse upon you, and indeed, I have cursed them already that have not taken my warning to heart.” –Malachi 2:2**

**It is time to Recognise and Renounce All Shadowy Apparitions  
And leave this Dark Asylum!**

## Piercing the veil of unawareness

### 2<sup>nd</sup> Elucidations: The Truth Shall Set You Free

Inferior vs. Superior p.13 – Avatārana p.13 – The Games p.14 – A.I. p.14 – Plasmate p.15 – Host Intelligence p.16 – Sequences p.16 – Spaces in Consciousness p.16 – DNA: Genesis of Illusions p.17 – Spectrums p.17 – Phoslight p.18 – Languages p.18 – Virtue of Numbers p.19 – Digital Personalities p.19 – Immortal Cells p.20 – Human Genome Project p.20 – Yaldabaoth p.21 – Latin Virgins p.22 – New-Species p.23 – Two Gods p.23 – Three Path p.23

Lo, it was said, “Woe be it to the man who discovers the Truth  
For he might go insane!” I say, Man has already gone Insane  
So let the “Great Lesson Begin”

**INFERIOR VS SUPERIOR:** There are two forms of energy: *Matter* and *Anti-Matter*; both are made of the same subatomic properties of *light*; however they are vibrating at different frequencies. Matter is an inferior form of energy because of its transitory nature in comparison to its superior counterpart antimatter. Both are manifested out of Light, but possess two distinctive contrary qualities of pureness and impureness. The elements of matter are destroyed and recycled back into raw energy, but antimatter is eternal and cannot be destroyed. Everything is made up of these two dynamic-frequency fields. Antimatter is the stuff of *indestructible* light cells; the *substratum* behind all reality and matter; the universal concentrated form of unconditioned Spirit. *Atomic matter* is a source of latent energy waiting to be spiritualized through consciousness.

Photonic light particles have *four primary* force fields with slower dynamic frequency interactions that express through the interchangeable *four elements* of *air, fire, water* and *earth*. Thought and imagination are the causation for all electromagnetism, energy, attraction and repulsion. Denser energy forms, we call “photonic light matter” or “secondary energies” are spinning in eternal currents back up towards the antimatter realms. Matter has no creative power by itself and must be manipulated and formed by consciousness, but cannot exist without Antimatter.

“Matter is formed through the positive stage, or pulse, and antimatter through the negative pulse. The circular motion of an electron about the nucleus of an atom is an illusion. The relative motion of the nucleus and electrons through space gives the illusion of circular motion. Even at the most basic level, the creative power of Illusion is evident.” –Bruce Cathie

### Knowledge comes from the Mind – Wisdom comes from the Heart

**Knowledge** is learned information; to ‘know’ something is a *fixed memory* in your mind. Unfortunately, what we think we know is extremely limited due to most factual information being hidden or turned into disinformation. (The Vatican archives are estimated to contain at least 85 km’s (53 miles) from floor to ceiling shelves of texts and artefacts stolen from your legacy.)

**Wisdom** is sagacious intuition, discernment, insight and perception beyond knowledge; the Brahman of Higher Consciousness.

“Do not conform to the pattern of this world, but be transformed by the *renewing of your mind...*” –Romans 12:2

### AVATĀRANA: “And the Truth Shall Set You Free” –John 8:32

The Sanskrit term “*Avatār*”, in the *Vedas* and *Principal Upanishad’s* is a derivative of the term Avatārana: ‘*Ava*’ - to descend, and ‘*tar*’ - to cross. Virtual-simulations became highly popularized between *interstellar* groups within the genuine worlds. Matrices are digitally created

out of *highly advanced* digital technology that is beyond most comprehensions, however only living consciousness can hypostatize and fashion form out of them. The genuine matrices are manifested out of alphanumeric waveforms of symbols that operate on a 4D level of density. The technology is connected directly to a living operator and a secondary host known as an Avatārana within the virtual-reality simulation. The operators *project* their consciousness directly through the virtual-host via technology that connects their *diencephalon system*, which is linked to their nervous system and *chakras*, {Ra} creating *psychic-electricity*. The diencephalon is made up of four main components within the brain, the *thalamus*, *subthalamus*, *hypothalamus*, and *epithalamus*. The hypothalamus is where the pituitary and pineal glands are located and is also an integral part of the *endocrine system* linked directly to the *nervous system*. The avatārana's seven major chakras were developed as bioenergy receivers as well as a database where *every* thought and impression is filtered *prior* to sending the information to the cells and brain for activation.

All perceived “*extraterrestrial aliens*” here are *Avatāranas* either caught with the rest of you after the destruction of an original 4D interstellar war game {Ra}, or they have found the download entry point into this annexed matrix. {Ra}

**THE GAMES:** I will use a dimensional model for easier understanding of density and the more rarefied *4D Matrix Games*. They were produced by androgynous Immortal Beings inhabiting sub-Logos 5D Sphere worlds for the expansion of comprehension in *opposites* on lower levels of *density*. The matrices became known as “*The Games*” within the matrix worlds. *Immortals* are just that, *Immortal* and in the matrices they could experience growth and understanding through the slower more compacted frequency waves that were incompatible to their more rarefied bodies. *War games* were created as contests that expanded into other Logos interstellar groups. Their Avatāranas revered their operators as deities; the *gods of their creation!* The only way a game could be won was through the capture or elimination of an Immortal's secondary *host*. {Ra} Matrix war games did not affect the real worlds or relations amongst the players. There has been much confusion and convolution between the ‘war games’ that took place within the *fourth dimensional matrices* and the unconventional war games taking place here in this substratum matrix. {Ra} The 4D War Games were closely monitored and if the rules of engagement were not closely followed, the “*Watchers*”, a type of cosmic referee, {Ra}) would send in an *authoritative host* to put thing back on track.

- ✓ There could be NO engagement of any kind of *unfair* warfare
- ✓ A battle could only take place between two combatants using the *same weapons* and the same conveyance such as a vimana; chariot; elephant; horse, or on foot.
- ✓ Specific rules to each weapon had to be followed. E.g.: Bludgeoning an opponent below the waist was prohibited in Mace Warfare.
- ✓ Any warrior who surrendered could not be injured or killed. All prisoners of war were to be protected and treated with respect and thoughtfulness.
- ✓ No warrior could kill or injure an unarmed or unconscious warrior or one with his back turned!
- ✓ Nonparticipants could not be killed or harmed along with women and animals unless they were a direct threat.
- ✓ Set time frames had to be followed.

**“We don't know how strong we are until forced to bring that hidden strength forward. In times of tragedy, of war, of necessity, people do the most amazing things. The human capacity for survival and renewal is awesome.” –Isabel Allende**

**ARTIFICIAL INTELLIGENCE:** **As above, so below!** Artificial *Bioandroids* were designed and developed *within* the upper 4D *matrix*. They were highly sophisticated automations *created by the avatāranas* to perform menial tasks with the ability to learn new duties. However, it wasn't long before A.I. units were replaced with a much more sophisticated model called a *Plasmate*.

**PLASMATE: As above, so below!** The Avatārs started using their own DNA mixed with other creatures to create a higher form of servants and labourers than their A.I. units. They also created various *warrior classes* to fight in the war games. They followed suit with what their own creators had done: **“Let Us make humans in Our image and Our likeness” –Genesis 1:26.**

These neo-creations were known as hybrid *Plasmates* in ancient Greek and *Plasmatis* in Latin. This was the genesis of the original “Caste System.” Both terms are a derivative from *Plasma*; a mouldable substance found in blood. The plasmates were similar in appearances, but had unique differences owing to the varying images of their avatāra creators. Various classifications of household servants, manual labourers and specialized *warrior castes* came out of their experimentations along with some *monstrosities*. Homo-Habilis; Homo-Neanderthalensis, Cro-Magnon, Homo-Erectus, and *Homo-sapiens* were just a few of their experiments in the creation of the earlier races. The main difference between the original avatārs and their creations was the size of the DNA instruction manuals carried within their bloodstream. The original “Adamic Race” or “wise animal man” in Latin came out of these avatāric experiments and became the genesis of “Mankind.” Dwarves were created to work in cramped areas within mines and other confined areas. Ancient temple wall reliefs illustrate how Royal and Elite Families favoured these little people for entertainment and household duties.

The original avatāranas did not have body hair and were androgynous as were their creators; however owing to the lower animal DNA used to create the plasmates, their entire bodies were sparsely covered in hair. Later, when they split the hermaphrodite chromosomes into male and female genders, the hair was concentrated on their heads. Due to coming from hermaphrodite stock, most homosapiens had *no* compunction as to their sexual liaisons between male to female; male to male or female to female partners. This is an inherited trait in the biology in all men and women that remains to this day. This one fact is the basis for the natural attraction between members of the same gender within the homosapiens. The avatāranas eventually enhanced their plasmate’s appearance by refining their features using the *Golden Ratio*. This along with luxurious hair that crowned their heads, the avatāranas became sensually taken by their creations and they heedlessly started interbreeding with them.

**“A woman’s long hair is her glory!” –1 Corinthians 11:15 “When mankind began to multiply on the face of the lands and daughters were born to them, the sons of the gods saw that they were beautiful and took them for themselves, whomever they chose.” –Genesis 6: 1**

The interbreeding between the creator *Avatārs* and the *Adamics* created the first generation of hybrids that became known as the “sons of gods” and the “Elder gods.” In Greek mythology they became known as the *Titans* who bred the Olympians. As the Elder God’s descendants continued to interbreed, the avatāra’s Rh negative DNA information became more adulterated with plasmate Rh positive primate factors. Due to promiscuity, today 85% of the world’s population is Rh positive with the ‘*Rhesus Monkey*’ or ‘*Primate Factor*’, which was responsible for the original “*Fall of Mankind*” into becoming “*Humankind*.” (‘*Man*’ relates to the *Adamic* DNA and ‘*Hu*’ relates to the *animal* DNA in homosapiens.)

**“All animals are equal, but some animals are more equal than others!” –G. Orwell**

The *Olympians*, carrying more ‘hu’ in their DNA, had stronger sexual appetites, territorial instincts and lust for power. They warred against the Elder gods for dominance and won it with the *misuse of VRIL*, {Ra} which was turned into a weapon of mass destruction. The more they interbred, the more corrupted their DNA patterns became and the more base their behaviour became! All regard for resonating electrical patterns within their mating practices {Ra} were disregarded and their descendants became further *imbalanced*. Yet, these ruling hybrids maintained their authority over the commoners that gave them the continuing opportunity for immoral and abominable acts against them to this day.

As new subfamilies grew out of the growing potpourri of DNA, more polarities manifested between the hybrid families. Some favoured their growing hybrid progeny over the less

unadulterated ones, whilst others were completely repelled by any further interbreeding and started *inbreeding*. Interfamily wars broke out for power and domination between them. The Elder Gods began to disappear as consciousness slowly descended into a chasm of unbalanced sexual electrical patterns. Due to the changing consciousness, the matrix began to change and the avatāranas and plasmates started diminishing in stature, psychic abilities, and strength. What was once thought of as the *sons of gods*, became the *lost sons of corrupted DNA*. Thus, treachery brewed amongst them; all mercy was lost to the lust for power, greed, gluttony and assassination became their way to achieve it!

**“Dieu et Mon droit” “My divine right to rule” –British Monarchy**

**HOST INTELLIGENCE:** There is a microscopic world living within our bloodstreams; living cells are the “*building blocks of life*” in a virtual-reality program. By simply looking into a single cell one can perceive the origins of *all human intelligence*. The universal link within each microcosmic cell is light. *Homo* is the genetic code for the human genus including other surviving and extinct species of hominids. Your cells are responsible for the invisible function that allows your brain to think. The brain is the *supercomputer* and conductor of life in a matrix; however over 90% of relative intelligence actually comes from cellular activity! Cells are constantly receiving information and making *independent* decisions while controlling every movement within every part of your body 24/7. Cells integrate temperatures, electrical, chemical, acidic conditions and alkalinity levels before making any intelligent decision or response. Cellular activity takes place on a *superluminal* level to keep the body and brain alive. The Phoslight found in cells is the carrier and “*temple of Spirit!*”

**“It is the Spirit that gives life; the flesh counts for nothing at all.” –John 6:3**

All diseases are ultimately healed by codes of light stored within the cells, which is why it is so important to protect them through diet *and* thought. The mediums of prayer, affirmation and visualization have a positive effect on revitalizing them. Your cells were designed to protect and stand between you and physical expiration. Cells come in various shapes and sizes; each with a specific job to do in order for an organism to perform it's task and survive.

**“If big pharma and doctors were to start aiding cells so they could do their job instead of poisoning them, disease would cease to exist, but so would their wealth!” –Czerral 🧑🏻‍🔬**

**SEQUENCES:** Whilst cutting through consciousness, we must gain a fresh perspective on *time* because it is a mental invention that has been *moving backwards* and *recycling in this matrix*. {Ra} The genuine universes are never stagnant! The upper genuine matrices have moved on past this closed-loop virtual-reality deception. {Ra} Thus, we shall use the terms *event-sequences* or *event timelines* to help comprehend where we are and how we got here. This 3D matrix did not exist until the aftermath of a horrific hubris event that destroyed the 4D world matrix creating this matrix as an appendage. {Ra} Time needs be taken out of equations representing past Eras because they have become *layers* of stagnating stored memory patterns in the Collective since its genesis here and the 4D matrix memory stored in the mainframe computer. {Ra} Time experienced here greatly varies from the higher 4D matrices and the genuine worlds due to their varying densities and rarefaction, which also varies on the astral planes depending on their levels. Genuine worlds and matrices do not recycle or become stagnant; they are in a continuous movement forward.

**SPACES IN CONSCIOUSNESS:** We have established that *genuine world's* stream from *Logos* to *sub-Logos* to *Immortal Beings* to *matrix secondary hosts*. We have also established this 3D reality is not taking place within its original 4D matrix, but in an annexed matrix; a phantom-dream taking place in our subconscious mind. This has created *interconnected tiers of spaces* between your higher mind and subconscious levels of mind. This illusional world is a phenomenon

taking place within sublayers between your higher dreaming mind and its subconscious. Within these sublayers lie *astral planes*, also known as *spirit worlds*. You cannot kill consciousness; death is an extended illusion on any realm or plane. Each plane has its own unique vibrational field of frequency waveforms being interpreted by the consciousness of an observer, you! In Jewish mysticism, they use *models* called the Kabbalah, a body of esoteric knowledge that has some semblance to what I am attempting to convey.

**DNA: GENESIS OF ILLUSION:** As we cut through the veils of consciousness we need to get a fresh perspective on the *vital* role DNA plays in *creating* reality. About 1.8 metres of DNA exists within the nucleus of every cell. It is estimated that if we unravelled the entire DNA in the human body it would extend to at least 100 trillion meters per human being. Try to calculate and imagine that in kilometres or miles in your mind. Each cell has a nucleus with 46 chromosomes, each comprised of between *30,000 and 50,000* genes with intervening sequences. DNA is an electrodynamic digitalized storage unit. DNA is the template for all organic life, its genetic characteristics, *intelligence, talent and gifts* along with *health*. It is the storehouse of all ancestral behavioural propensities towards good and evil; violence and pacifism; virtue and immorality, etc. DNA is the keeper of volumes of event-timelines and is able to independently measure spatiotemporal angles, curvatures, distances and durations via an invisible interconnected web of light. DNA could be seen as an *interdimensional time machine* with its own “Wormhole” theory. DNA acts like tunnels of information being transmitted through hyperspace that interacts with Lumen, Lux and Flux. In unqualified simplicity, DNA is the foundation of “Time Travel” within the space-time-continuum and event-timelines.

**“People like us, who believe in physics, know that the distinction between past, present and future is only a stubbornly persistent illusion.” –Albert Einstein**

### **The Human Genome is the Greatest Living Library of Secrets and Knowledge**

The entire *cosmic matrix* is stored within your DNA; not only this 3D world, but all of its parallel worlds and the 4D worlds all of the avatāranas came from; however we only have limited access due to having only having 3% of our DNA language activated. The other 97% remains a mystery to the masses outside of the few Script Writers who have slightly more activation. (This is what all the fuss is about, not the blood type, but what’s activated in the blood type!) During the beginning era of this matrix, the *sons of gods* had higher degrees of activated DNA than the Elder gods, which is why this period was regarded as the “Age of the Gods.” It was when “super-consciousness” and “longevity” prevailed before promiscuity diminished it afar from any god. {Ra}

Looking in a mirror on an angle will produce endless reflections of your physical appearance; yet there be only one original at the start of the sequence. DNA is similar in that you are all *copies and reflections of information stemming all the way down from the original Avatāras*.

**“DNA was the first third dimensional Xerox Machine.”–Kenneth E. Boulding**

**SPECTRUMS:** Ancient Shamans discovered that psychotropic plants could broaden their brain’s ability to see higher spectrums of light on parallel *astral planes*. The brain is not only a generator, but a receiver with the ability to tune into *other dimensional waveforms* when induced into an altered state. Prehistoric cave art is ubiquitous around the world, along with ancient Egyptian and Mayan paintings that record these *supernatural experiences* from psychotropic plants. To help grasp this, use a cone as a model for the DNA’s ability to interpret electrical waveforms and codes.

Each activated strand widens the top of the cone allowing the brain to observe more subtle visible spectrums of light. Presently, owing to the limited amount of *activated* DNA, the brain is only capable of taking in a miniscule quantity of information from the masses of electromagnetic fields surrounding it. However, psychotropic plants alter the

brain by affecting the pituitary and pineal glands, which has the effect of widening the cone allowing for higher spectrums of light-waves to be experienced.

There is great irony in the fact the Elite Script Writer's ancestors diminished their own DNA whilst increasing the lower homosapiens through promiscuity. Through their misuse of power they continued to dilute their own bloodlines through ongoing lust and forbidden marriages with the lower plasmate DNA groups. Many unwanted children were sacrificed because there were no magic pills to prevent pregnancy in the days of yore.

**"But each one was tempted and drawn away by lust. When that desire became pregnant, it gave birth to sin; and when that sin grew up, it gave birth to death." -James 1:14-15 "You burn with lust among the oaks and under every spreading tree; you kill your offspring in the ravines and under the overhanging crags. -Isaiah 57:5**

### **PHOSLIGHT: DNA creates Plasmates – Spirit creates souls**

*Phoslight* is a generic term for organisms that generate their own bioluminescence. Phoslight, a Greek term means "Light Bringer" and is the Latin equivalent to Lucifer; which has *nothing* to do with a fallacious devil or Satan! Venus was called "*Phosphorus*" by the Greeks, which was synonymous with *Luciferin Light*.

Phoslight is the most crucial alchemical element essential to the central nervous system, the brain and DNA. Phosphorus *shines of itself*, and is the origin of light within the cells, which is why you are called a "Light Being." ***"Ye are the light of the world"* -Matt 5:14.**

Phosphorus is the most *powerful stimulant* known to science, especially when used as a sexual stimulant along with sexual techniques that can transmute sexual energy into higher states of consciousness.

**LANGUAGE:** DNA has its own language, but it also has a definitive effect on *all languages* and linguistics. Words are the language of sound and thought, the vibrational tools of creation. Language has tremendous elemental powers over consciousness, unconsciousness and collective consciousness. It is a universal intra-psychic structuring device innate to all humans.

**"In the beginning was the Word..."-John 1:1 "The Word became flesh and dwelt among us." John 1:14 "Let us confuse their language, so that they will not be able to understand one another. In that way, they will scatter all over the world." -Genesis 11:7**

As DNA started diminishing, telepathic communications were reduced to digital tonal variances that were uttered in order for communication to take place. Thus, pictograms and a form of writing was developed called *cuneiform*, yet still a thought provoking form of communication. As the human DNA dwindled further, simpler *Hieroglyphics* were used that declined into alphabetical digits. The *simpler the mind became*, the simpler the language. Script Writers learned that by simplifying language they could expedite the dumbing down process of the commoners. Thus, "*texting*" on "*Social Media*" was created for this purpose with an even simpler language allowing the Script Writers more control over their consciousness. Chinese, Japanese and Korean languages still use *Logogram* or *Hànzi Characters* in their writing 漢字, which is closer to cuneiform and needs more intelligence to decipher. This may be why some Asian students have been accredited with higher intellects and more ability for learning. Conversely, many of them are becoming more westernized and have joined Social Medias, adding to them to the list of the degraded.

### **VIRTUE OF NUMBERS: "There is but one body and one Spirit"-Ephesians 4:4**

Nothing comes before the number *one* and all things are added to the number *One*. By the *rules of dynamics*, everything that comes from the *One* returns to the *One*. *Numbers* are models that can show the repetition of unity within the *One-Omni-Source*! Numbers are used to clarify space/time, sound, colour, light, and energy; together they create the phenomenal worlds.

Simulated worlds are created out of the virtue of *numbers* via precise mathematical equations. Freemasons ascribe powerful symbolic and sacred meaning to geometrical shapes and their numerical proportions. Numbers are the foundation of Freemasonic acuity; logic and understanding. 1 is the beginning point of raw power; 2 moves out of itself to become dimensional; 3 is the birthing process and manifestations; 4 develops boundaries, mastery & stability; 5 is change, problems, destruction, renewal; 6 is solutions and regrowth; 7 is complex, mystery, freedom; 8 is repose, ripening; 9 is understanding beyond materialism and corporeality; 10 moves on to a new threshold or plane.

Opposites are *governed* by the numbers 3 and 6, which = 9. Nine represents *balanced unity* within all things, no matter which side of the coin they are on, they are still of the Omni-One-Source. **"If you only knew the magnificence of the 3, 6 and 9, then you would have the key to the universe."**—Nikola Tesla. 3, 6 and 9 represent the higher dimensional frequencies that influence the energy circuits of the other six numbers.

The Script Writers turned the sacred number "13" into a negative fearful number; yet it remains a "sacred number" to them, because 13 was the original number of hybrid *Elder Gods*. Phosphorous is the 13<sup>th</sup> element to be discovered; it stands in the *positive* as the "*light bearer*", and in the *negative* as the *bearer of darkness*. This is because phosphorous is used in explosives, poisons and nerve agents that earned it the name "*Lucifer's devil element!*" Judas Iscariot was scripted as the 13th guest at the apocryphal *Last Supper*; the massacre of the "*Knights Templar*" began on Friday the 13<sup>th</sup> and the unrevealed **13<sup>th</sup> Tribe of Israel** was the Khazarians that hailed from the *Caucasus Mountains* after the biblical Deluge.

We are completely controlled by the numbers on a Clock; Social Security #; Passport; Driver's License; Credit Cards; Internet; Banking; Birth Day, Month and Year; Phone number; Address; Zip Code; Numerology and Astrology. Digits control our life, personality, and this dream! The virtue of numbers has become so lost by definition they are now nothing more than 1's and 0's being decoded by your brain.

**Words by themselves are merely veils over Digits  
Numbers by themselves are merely veils over Symbols  
Both have the Power to Create, Destroy and Change Realities!**

**DIGITAL PERSONALITIES:** No matter how unique you find your ego to be it is still digitally based! There are nine basic vibrational interpretations applied to the numbers between 1 and 9, which are the universal foundation numbers of creation. In numerology they can be compounded to create more complex and variable combinations in making up personality traits. These frequencies are found in a person's name and birth #s. In an individual's name they represent their "*Expression*", "*Soul*", and "*Latent Self*." The numbers on the birth chart have even more influence over an individual's personality and potentiality. The Greeks discovered a highly refined *ancient* personality program called "*The Enneagrams*", *Ennea*, refers to the number 9 and *gram* refers to something written. Oscar Ichazo's "*Trialectic*" research identified 9 ways in which a person's ego personification becomes influenced and *fixated* within the psyche during the early stages of life.

The *Enneagrams* are made up of 9 interconnected personality types, sometimes referred to as "*enneatypes*." Digits between 1 and 9 are broken into 3 stages of positive, medial and negative.

The Enneagrams are so profound that the *Jesuits* use them to aid in the dioceses. However, upon request to expand its use to aid parishioners they blocked it stating:

**"The Enneagrams when used as a means of spiritual growth introduces an *ambiguity* in the doctrine and the life of the Christian faith."** —Catholic Bishops' Committee (2003)

Sound, colour, light, and energies that dominate the construct of this matrix are represented by the numbers of **1–2–3** and their coordinating colours of **red, orange, yellow**. They are generated out of the *lower portions* of the brain and *vibrational* expressions of personalities:

**1–Red–Reptilian Brain** is the oldest and the most primitive part of the brain located on the brain stem. It is related to physical sensations, specifically gratification and aggression, along with instinctual activities. Those with this predominant personality type act on a NOW time frame,

with little or no regard for how their acts affect others or the future. They have little imagination and will usually ignore their intuition. They desire to dominate their environment by aggression and using other's resources.

**2-Orange-Pons** is also part of the brainstem in front of the cerebellum directly above the medulla. It serves as a neuro transmitter station between the cortex and the cerebellum connecting the lower and upper parts of the brain. The Pons plays a key role in sleep and *dreaming*. Those with this predominant personality type act on a *plan today for the future* timeframe. Ambition drives them; they strive to *keep up with*, or *materialistically out do others*. They thrive on gossip and second hand information. Those that gain authoritative positions will do whatever it takes to control those around them for personal and social preservation.

**3-Yellow-Cerebellum** located behind the top part of the brain stem tucked underneath the cerebral hemispheres. 3-yellow is the main mean of this matrix with its linear timeframe. In Latin, this part of the brain is known as the "little brain" because it appears to be a separate attached structure. It contains up to *half* of the brain's stored memory patterns. It is considered the *intellectual centre* and these personalities are the most *mentally forceful*. They have the strongest *sense of self* and refer *everything* to themselves personally. They separate from others and have *no* reluctance to sacrifice them for their needs, principals or pleasure. They see themselves as "*the*" Elite and "*the*" intellectuals and are usually more concerned about what they know than what others have to say! White collar fields are dominated by these people; however those with a strong 1-red and/or 2-orange combination are those that dominate the *political* and *CEO* corporate arenas and in many cases, the hierarchy of religious orders.

Due to the *sequences of interrelated consciousness* from Logoi to Immortal, to Avatār, to plasmate, to mankind, to homosapien, the *human race* developed "*self-awareness* and became a *self-determining collective consciousness*" with new 'young souls' that has grown into a burgeoning neo-Collective. Yet, there are still "*old souls*" here that still have the ability to operate on higher frequencies and parts of the brain. Many have become trapped and need help to remember their true origins and place in the cosmos; *this oeuvre is dedicated to them.* ॐ

**IMMORTAL CELLS:** In the early 1900's they located a lost ancient and rare cell coined as the "Immortal Cell." This cell is thought of as the "*Fountain of Youth*" because it holds the secret to the original avatāranas longevity. The Elder Gods had inherited this cell, but promiscuity continued to diminish it except in a few. Hospitals started the unethical practice of taking blood samples from patients without their knowledge while searching for it. In 1952, geneticists found the cell in a patient named *Henrietta Lacks* and named it the "HeLa Cell." Over 30 tons of these cells have been cultured in a laboratory and are responsible for over 11,000 successful drug patents, with no regard or reward to the donor or her family.

**HUMAN GENOME PROJECT:** In 1990, the international "Human Genome Project" was underway and funded by tax dollars. President William Clinton claimed the project would "revolutionize the diagnosis, prevention and treatment of most, if not all human diseases" and make a "complete transformation of therapeutic medicine." Completed in 2003, the *highly paid* (Note, "Engineering" bottom left) geneticists stated the project had "failed" and they were "*back to square one*", but they had succeeded in mapping out the *entire* human genome. They rediscovered knowledge and the secrets of immortality, beauty and youth. Yet, the *hidden hand* of the self-serving hid it away for the selected few!

**"So will it be with the resurrection of the dead: What was sown in decay will be raised into immortality." -1 Corinthians 15:42**

The Cabal's human genome abduction projects should not be confused with the "*alien abductions*" that have been taking place around the world for centuries. They are two completely separate agendas that need to be dealt with independently. However, there have been agreements made in trade for reciprocated information between the two Factions. {Ra}

The *Human Genome Project* was never about helping the human race; it was about bioengineering a master race, cloning, bio-androids, and super-soldiers. The *Elite* Script Writers have developed all of these and many are walking amongst us. Cloning projects have been well underway in secret underground laboratories since 1911 and made great advances by the late 1950s. The *Human Genome Project* was created to advance and perfect human clones as soulless *neo-plasmates*. They are being secretly placed in society as living experiments and programmed for specific onus tasks. Doppelgängers is a German term for “double walkers”, it means people who look so much alike they are seen as one another’s double, which is growing world-wide phenomenon, especially in political circles! They can also download stored neuro-information from a viable brain into a computer or a compatible clone. Albert Einstein’s brain was stolen as was John F. Kennedy’s along with many others we will never know about.

**We must take Courage and not be afraid  
Yet there is something to Fear  
And it is not Death or the End of Time**

**YALDABAOTH:** “I will ascend above the heights of the clouds; I will be like the most High.” – Isaiah 14:14 “I will set up my throne above the stars of the gods.” – Isaiah 14:13 “I will make princes and wise men as if drunk; governors, prefects and the mighty men will sleep a perpetual sleep and not wake up.” – Declares the *LORD of hosts.*” – Jeremiah 51:57

The Gnostics were Shamans and healers who also explored the astral realms via the use of psychotropic plants and shrooms. They documented the *Archons* and their Demiurge leader as manifesting a grand deception and usurping the consciousness of gullible and fearful human beings over the centuries.

**“We are not fighting against flesh and blood enemies, but against evil *rulers* and authorities from the unseen world and against mighty powers from their dark world, and against evil spirits from heavenly spaces.” – Ephesus 6:12**

The Pharaoh Akhenaten attempted to install “Aten”, the name of the Demiurge in Egyptian, as the first monotheistic god in Egypt during his 18<sup>th</sup> Dynasty reign. If he had succeeded he would have been what could be considered as the *first ever Pope*. The Solar-Logoi was the *sacred “Light of the World”* represented by the Sun-Ra until it was gradually eclipsed by monotheism rising out of Egypt. Christianity came from Judaism; however Judaism was not an ethnic group, but the original Semitic speaking peoples that spread throughout Western Asia, the Near East, and Egypt, all the way to the Horn of Africa. They had a *particularly powerful and intimate relationship* with Egypt long before they became known as the Israelites, and it certainly had nothing to do with slavery, which was speciously claimed!

The sun had major significance in the *status* of the Pharaohs and their worship in *prehistoric* Egypt also. {Ra} However, after Akhenaten failed to bring the Demiurge to monotheistic power, the *sun gods* became convoluted. The symbol of the Sol Invictus represented, the Logos that became the symbols for the sun gods such as Apollo and *Jupiter*. (For some Factions, Jupiter represents their Solar Logoi.) However, the symbol was cleverly used as *the light of the world* by The Catholic Church for their saviour Jesus and the symbol for the *unconquered* LORD Yaldabaoth–Yahweh–Jehovah.

**“The kingdom of the world has become the kingdom of our LORD where he will reign for ever and ever.” – Revelations 11:15**

The authors of the Torah, Talmud and Old Testament were indisputably involved with Shamanic experiences that led the way to the Yaldabaoth and monotheism. *Judaism, Catholicism*

*and Muslimism* have continuously hated each other and those outside of their religion. They have fought each other since their beginnings for supremacy, land, wealth and power. Accordingly, to the Bible is a record of religious wars, crusades, torture and unwarranted slaughter that has been leading the Demiurge closer to his personal “*End Game*” plan. {Ra}

**“Gather from all around to my slaughter which I am going to make for you, a great slaughter on the mountains of Israel! You will eat flesh and drink blood. You shall eat the flesh of mighty men and drink their blood as if drinking the blood of rams, lambs, goats, bull, fit for slaughter! Gorge yourselves with their flesh until you are gluttoned; drink blood until you are drunk with it as wine” –Ezekiel 39:17-18-19 “Those who are still alive and remain on the earth will be caught up in the clouds to meet the LORD in the air and be with Him forever.” –1 Thessalonians 4:17**

**LATIN VIRGINS:** “*Immaculate Conception*” originally started in the 4D matrix. All Immaculate Conception starts in a “vitro fertilization dish.” As above, so below; today there are *thousands* of Elite experimental embryos being grown in special cylinders with many of them being surreptitiously transferred into willing female wombs to be grown to full term and raised in society. However, the infamous *Alien Abduction program* has been ongoing and run by *Archons* belonging to the Demiurge. They have a *beehive type of mentality* within a strong *hierarchy* ruled by the *LORD Yaldabaoth*.

**“Each day we are becoming a creature of splendid glory or one of unthinkable horror.” –C.S. Lewis**

**NEW SPECIES:** “**We have found a strange footprint on the shores of the unknown. At last, we have succeeded in reconstructing the creature that made the footprint. And lo! It is our own.**” –Sir Arthur Edington

Over centuries the Elite Cabal and the Yaldabaoth have been manifesting furtive bioengineering programs and creating new hybrid species. Both Factions have learned how to manipulate and re-encode DNA. In the case of the new Elite *master race*, they are looking to increase their stature and restore lost capabilities. In the Archon’s case, they are looking to create an acceptable and superior human being with a soul that they can incarnate through. An untold amount of bioengineered children have been placed in human societies throughout various timelines. Virtuosos, prodigies and geniuses have also been appearing throughout the world over the decades. These enhanced children express advanced gifts that shine under a controlled spotlight or excel in special fields. They are considered the property of their designers and are closely monitored, especially those that enter the world stage. During the 1960-70’s, children from the Archon experiments started gaining more notice and these hybrids were coined “*Indigo Children.*” They were apparently more advanced than other children on some levels, but were known to have difficulties in adapting to society. *Many* suffered from *Autism and Asperger’s Syndrome* and had problems with all manner of food allergies and serious reactions to prescribed medical care. However, during the 1980’s, new improved models appeared on the scene that became known as the “*Crystal Children*” who are considered more spiritually advanced.

**“It is the *Crystal Children* who will herald in the next phase of humanity..., illuminating a way to shift the trajectory of humanity.” –Andye Murphy.**

There is a strong movement attempting to shift consciousness in order to *change the matrix* into a higher level of ascension, goodness and wholesomeness. I acknowledge these goodhearted souls; however one must take into an account this is a matrix program and not a genuine world. This was known, but lost over the untold event-timelines long before the most ancient of texts, which still call this world *maya or illusion*. Opinions, tutorials, whistleblowers and interviews are now ubiquitous on the internet involving this world as some form of a matrix. They have become minefields of conspiracies on how to survive, spiritually grow, or *change the world*. Many subscribe to different philosophies, but none to the degree of reality found herein, which is

discernibly not for everyone. {Ra} Perhaps some believe that by creating a neo-matrix, humankind will have a greater opportunity for *spiritual growth* and *escape* or another form of *liberation*? Perhaps some believe they are matrix-bound and have no choice? Perhaps some cannot accept they are hypostatizing a phantom-dream into a virtual-reality program that will continue to recycle? And, perhaps some of the more prominent one's have been exposed to some form of mind control? In any case, all beliefs are valid within the consciousness that accepts them as their truth.

**The human race has become a living *Petri Dish*  
For a Post Master Race; and Supernatural neo-Species!**

**TWO GODS:** The “End Game” is biblically called ‘*Armageddon*’, a place where a final battle will be fought between the forces of “good and evil” or better put “*opposites.*” Neither is good nor evil, but a conflict in consciousness built out of fear and dissonance. The *Immortals* worshipped the **Logos** represented by a sub-*Solar*-Logoi as their Creator; the *Avatārs* worshipped the **Immortals** represented as their Creators; and the *Plasmates* worshiped the **Avatārs** as their creators. This was the original hierarchy of worship. The Logos were worshipped in every facet of *Nature*, which is why there are so many gods in Hinduism and Paganism. Worshipping is a built-in natural part of our inner being streaming down from the Logoi to Immortal to you.

**Iaō** is a tetragram for a Solar Logoi that is thought of as the “*Bright Path of the Sun.*” (‘I’ – Isis, ‘A’ – Apophis, ‘O’ – Osiris) *IAO* is much older than the tetragram created for YHWH, which has deep roots in alchemical magick. The “*Dark Path of the Moon*” claims to lead you to the ancestors existing on the higher astral planes in the spirit world. Through breeding programs, the *Yaldabaoth* has a claim over many of the children of this world as their *LORD* and creator and will lead them to his domains on the astral planes. All of this started when the Avatāranas recklessly started interbreeding with their Adamic plasmates and created the new “*hybrid-species*” called the *Elder gods*. They in turn spawned further inferior generations that became demigods who demanded power, obedience, and worship as gods! Their lust eventuated into a heterogeneous progeny of confused sub-races, which became the legacy of the Human Race.

**“They now conceive trouble and give birth to evil and the womb fashions deceit.”-Job 15:35**

**THREE PATHS:** The Bhagavad-Gita defines two paths that a soul may choose. 1) The “*bright path of the Sun*”, which is a *contemplative iconic representation* of a *genuine sub-Solar-Logoi* and path of return. This is not to be confused with the *Helios* holographic *portal* above your head! The “*Path of Return*” is an awakening state of consciousness reached by dispelling all delusional concepts of mythological gods, saviours, dogmas, and desires. Everything that you cling to in this aphotic virtual-reality separates the dreamed from its dreamer –*you* and must be relinquished. Everything that binds you to this dreamspell must be renounced. The pathway to awakening is the path of Absolute Trust in all that which you Be! It can lead you out of this pit and back into an awakened state.

2) The “*Dark Path*” of the Moon leads back to the *ancestors* inhabiting the *Supersensuous Realms*. Ancient Egyptian High Priests experienced these realms the same way the Shamans did via the use of psychotropic plants. They passed their knowledge down through generations, which became the basis for most all Egyptian Theologies, Mysticism, Mystery Schools and Mythologies.

3) Rabbinic High Priests used similar Shamanic psychotropic practices; however instead of finding the ancestral gods they found the *Yaldabaoth*, the Demiurge that would become their monotheistic god they would give a capital ‘G’. This added a third path, one that will lead you to the LORD Demiurge. He is the *God of Israel*, with plenary powers over illusionism that promises the creation of a new heaven and earth within the Heavenly Astral Realms where He operates.

**“The LORD has established His throne in the heavens. And His sovereignty rules over all of them.”-Psalms 103:19 “I will create new heavens and a new earth. The former things will not be remembered, nor will they come to mind.” -Isaiah 65:17**

The *Heart* and the "*Law of Attraction*" will inevitably draw you to one of these three paths within the dreamspell. *New Age* tutors, Eastern Philosophers, *Gurus* and mainstream religions all have their own versions and teachings for these paths. One is not necessarily better than the other and all are valid to the souls that accept their teachings or doctrines as their *personal truth*. Many religions teach reincarnations; whilst others claim a form of *Judgement* takes place upon leaving the corporeal world that defines the ensuing journey. Christianity claims that all who do not follow their God will be swept into an astral hell or into the void.

**"You snakes! You brood of vipers! How will you escape being condemned to hell?" -Matthew 23:33.**

*"Spiritual Enlightenment"* may be obtained whilst in this matrix; however that is rare, to say the least. Nevertheless, by becoming fully aware via the "*comprehension of your situation* and the *reality* taking place in *this world*", you can *wake up* and continue your journey towards a greater *spiritual awakening*! In every case, the key lies in what is in your mind at the moment of your physical expiration! All things are created out of consciousness, which is thought; your last thoughts will be absorbed into your soul and *they will* govern your reality and ensuing experiences! Whatever your strongest feelings are: love or fear, deities or demons, guilt or vengeance, family or enemies, heaven or hell, will phantasmagorically manifest and seem as real as this phantasm! There is nothing outside of *your consciousness* that can affect you unless you surrender yourself to it. The wise man will diligently prepare his/her mind for this *inevitable* transference prior to it!

**You came out of *Divine Laws* and to *Divine Laws* you must return  
Or Perish in the Ashes of the *Eternal Walking Dead***

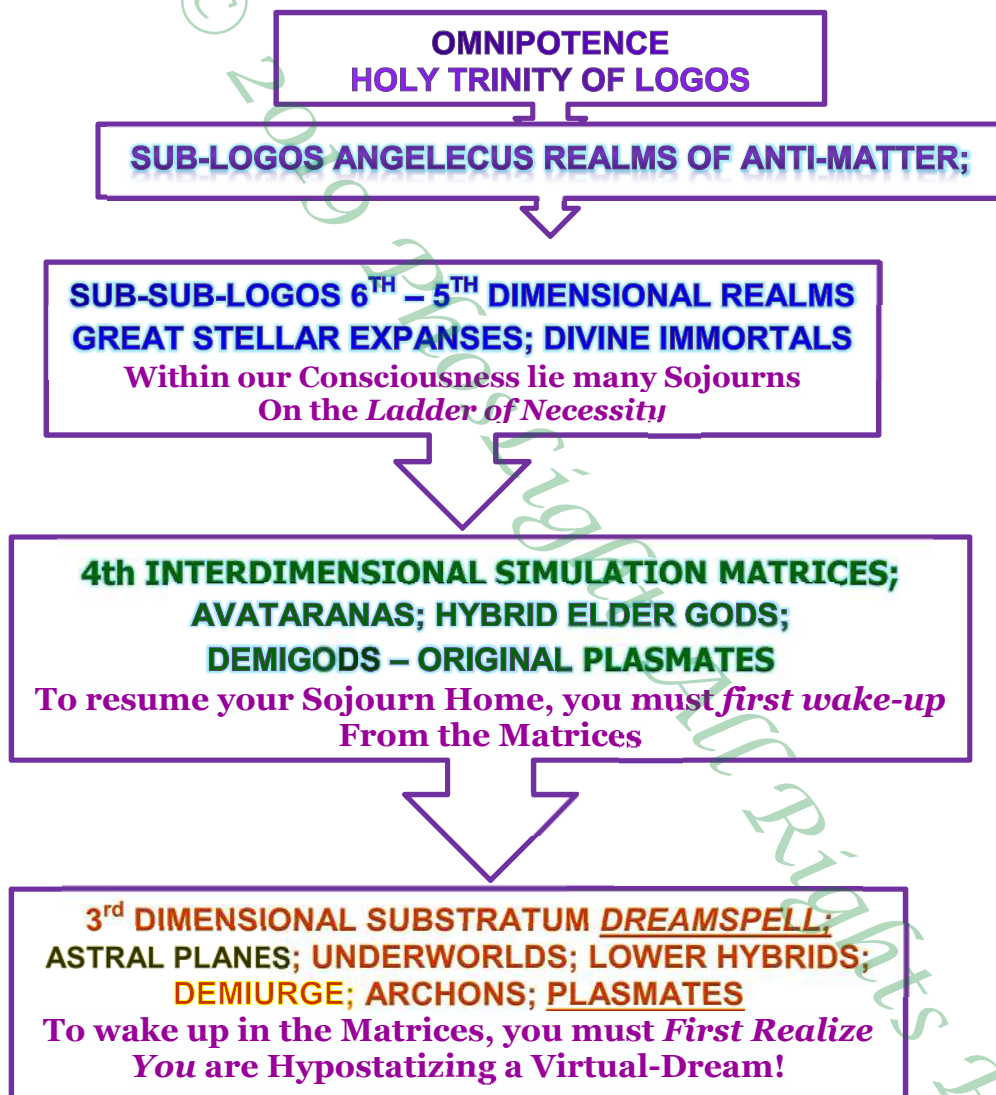

# 7 ELUCIDATIONS

## Piercing the veil of unawareness

### 3<sup>rd</sup> Elucidations: **There is NO Planet Earth**

Planes of Existence p.25 – Dimensional Realms p.25 – Worlds within Worlds p.26 – Other Worlds p.27 – Underworlds p.27 – Celestial Influences p.28 – Planetary Manipulators p.28 – There is No Planet Earth p.29 – The Dome p.29 – Closed Loop p.30 – Psychoactive Astronomy p.30 – Charkas p.30 – Telling Tales p.31 – Weapons of Mass Destruction p.32 – Astras, VRIL p.33 – Subterranean Cities p.35 – Covenant p.35 – Heaven or Hell p.36 – Matrix Bound p.36 – The Present past p.36

#### PLANES OF EXISTENCE

When faced with the option to live or die, choose death without indecision, if you Desire to **Wake-up!** For Death can restore Reality when you know where the pitfalls are and **heed the Truth**

**DIMENSIONAL REALMS:** Dimension is Latin for a unit of mass or property within a space-time continuum. A logical definition for a *dimension* would be the *space* within a gravitational field that attracts resonating matter and antimatter into a collective field of energy. It would have height, depth, and width in which something can exist and move. The reason time cannot be separated

from space is because both are mental inventions and one cannot exist without the other. If there is no consciousness present to observe a dimension, it doesn't exist.

Natural realms exist at variable *frequencies* within the Omni-Source and are thus stored on levels of our consciousness. Therefore our consciousness is capable of tapping into more than one dimension at a time because we are multidimensional beings stepped down from the ONE Omni-presence. Nonetheless, as we sojourn back towards the Omni-One there is an automatic "*Law of Resonance*" set in place that protects higher dimensional energies from spirits low in grade that might attempt to prematurely enter them. As we journey back up the ladder, through the spheres and higher realms, we must *resonate* with their higher *frequencies* or be repelled by them. This law is also true of the astral planes even though they are an integrated part of this matrix where our thoughts and actions are recorded in the Akasha. The astral realms are irrevocably and intrinsically connected to this world and one cannot exist without the other.

Every dimension has its own unique signature of sound and electromagnetism on *variable* wavelengths. The lower the wave the denser and more compact the energy; the higher the wavelength, the more subtle the energy. Outside of the matrices there are multiple levels of existences on authentic sphere worlds with their own unique magnetism, frequencies, rarefaction and densities. They are the "*Reflective Thrones of Spirit*." Your soul is connected to your higher self, which is connected to the Whole. This 3D virtual-reality is a substratum dreamscape that was restored after an unimaginable cataclysm took place within your original 4D matrix. {Ra} This world is a mirror reflection being hypostatized out of the memory of it and its destruction. Venus, Mars, Saturn, and Jupiter are holographic alchemic reproductions interrelated to this abysmal event.

- 1) Divine Immortal *Higher-Self* outside of the Matrices
- 2) Spellbound avatāranas & plasmates 4D virtual-programs
- 3) You, hypostatizing 3D subconscious phantom-dream

**WORLDS WITHIN WORLDS:** Genuine Cosmic Worlds are created via the outpouring of Thought, experienced as Light-waves from the Logos and their Immortals. It was upon a distant sub-Logoi world that highly sophisticated virtual-reality games were created for profound experiences. The *matrices* were created out of curiosity and for deeper understanding of *opposites* and *sensory* experience. The matrices could expedite learning and understanding of opposites via deeper sensory perceptions. Matrices are created within closed-loop holographically simulated galaxies. {Ra}

**"What we call matter is energy, whose vibration has been so *lowered* as to be perceptible to the senses. *There is no matter.*" –Albert Einstein**

All simulations are created out of digital micro-atomic waveforms; however if there is no *living consciousness* to observe and concretize them into reality, they are nothing more than fuzz on a photonic screen! A matrix is created as a collective dynamism that can mathematically manipulate a space-time continuum. However, this *virtual-world* was not created by the original architects that fashioned the world it came from. Some *ancient* Sages remembered the "hyper-cosmic-sun" that belonged to the authentic upper *parallel world matrix*.

**"Since time is distance in space, time is memory on the structure of space. Without memory, there is no time. Without time, there is no memory. It then follows that the energy that we perceive as the material world must be information, or energy on the structure of space." – Nassim Haramein**

Virtual-reality matrices run on *fourth* dimensional frequency wavebands that can continually expand. However, this 3<sup>rd</sup> dimensional frequency band is like a needle stuck on a vinyl record going round and round in an old Victrola! This is taking place within a sub-layer in your subconscious mind! You are being deceived into hypostatizing an aphotic digital memory program annexed from a 4D matrix virtual-world program that was instantaneously destroyed *in the blink*

of an eye. {Ra} This entire matrix is being created out of transgenerational epigenetic DNA inherited from the hybrid Avatāranas, Plasmates and *other* DNA experimental entities that were residing in this upper world at the time.

The original androgynous avatāranas created plasmates by mixing their DNA information with various lower forms of DNA to design plasmates to serve them. At some point they became inspired to separate the plasmates chromosomes into male and female genders. This aroused many of the avatāranas to sexually comeingle with their plasmates and their progeny became DNA hybrids. This diluted and lowered the consciousness of those involved, which in turn lowered the vibrational patterns of the upper 4D matrices involved. This lowering was an unexpected event and became the genesis for the “Fall of Mankind.” This matrix now encompasses the storehouse of 3D event-timeline sequences since its genesis and its astral planes. Also stored is the *collective whole* of warring *interstellar* groups involved in the 4D sphere’s annihilation that created the *Main Asteroid Belt*. And, it also *intensely evolves around* the memories of the destruction of the surrogate home world-matrix for those whose worlds became uninhabitable as a result of being in a proximity to the consuming discharge.

**OTHER WORLDS:** Thousands of matrices have been developed and are thought of as *the other worlds*. Many belong to 4<sup>th</sup> dimensional interstellar matrices, however there are those that are

aware of the infinite *other sphere worlds* located within the *vast expanses* of the 5<sup>th</sup> dimensional realms. The matrices are simulations of the higher genuine worlds and their hosts consist of distinctive beings of unique appearances. The sphere worlds are created by sub-Logos by every imaginable marvel, expression and manifestation of creative thought! Some of the matrices were developed for interstellar “war-games”, whilst others were designed for artistic freedom of thought and Spiritual worship and growth. {Ra}

The surrogate sphere was created as an experiment to see if some of the extreme *opposing polarities* could find balance and become a unified whole. However, the surrogate sphere was destroyed by a hubris act and its inhabitants became deliberately quarantined in this subterranean holographically simulated matrix. Here these battling Factions can do NO more harm, outside of each other, which is why this matrix is cyclic within a fabricated timeline.

The *upper matrices* are interconnected by webs of intersecting grids with nodes that can be used for *interstellar travel*. The brain acts like a conduit, similar to *computer hardware* that receives and interfaces with data via the DNA. There are unknown quantities of interstellar simulations operating.

**UNDERWORLDS:** The term *underworld* originally stood for this lowered appendage matrix after the upper 4D world was destroyed. Over the Ages this term became related to the “*Spirit Worlds*.” [Astral Planes] These and many other terms have become convoluted due to similar meanings. Sheol and Hades were made equivalents; however Hades was an actual place in the aftermath, a desolate, freezing cold landscape that the first arrivals from the upper world found themselves trapped in. Tartarus is where the hybrid Elder Gods lay cryogenically frozen *under the ice of Antarctica*. {Ra} Sheol was related to the astral planes and the lower Hells. Hells are where low-grade spirits and spectres exist on the lowest rung of the astral plane. Many dark and negative souls will end up in these hells due to a lack of otherworldly and ethereal knowledge along with the laws of resonance. This world, by many is experienced as one of the Hells; however it is a transitory illusion taking place in your subconscious mind.” Purgatory is the Catholic Church’s location for purification and punishment. The concept of hells comes under the Demiurge’s dominions.

“They were cast into the furnace of fire where there is wailing and gnashing of teeth.” – Matthew 13:50 “You that are under God’s curse; away with you to the eternal fire, which He has prepared for you!” –Matthew 25:41

**CELESTIAL INFLUENCES:** Reverence for the celestial Logos is held deep within the heart of every mesmerized dreamer; however in this matrix the Solar-Logoi was reduced to *sun* worship and a representation of the Demiurge as God. What Script Writers claim to be the “7 Classical Planets” including the sun and moon are holographic replicas sending out alchemical influences.

For example, Venus is the ruler of the blue venous system in the blood; Mars rules the red arterial systems, and Mercury rules the nervous system. The constellation Pegasus was changed from a *Seahorse* to a “dangerous” chained Pegasus. This was done in order to hide its original representation of the hippocampus in the brain where long term memory is stored. If it were to be unleashed, it might indeed become a “dangerous beast”, to the Script Writers! The upper world matrix was mathematically created out of perfect equal opposites. However, believing this world was based on materialism, scientists created mechanistic interpretations of the origins of “matter” as the holy trinity of proton, neutron, and electron. The *light shows* above your heads are holographic copies from the 4D matrix you came from; however there are some *added inserts* such as the moon. It is an *interdimensional download point into and out of* this matrix. It is also used as an ‘eye in the sky’ for surveillance.

**“Matter is formed through the positive stage, or pulse, and antimatter through the negative pulse. Each spiral of 360° forms a single pulse. The circular motion of an electron about the nucleus of an atom is therefore an illusion. The relative motion of the nucleus and electrons through space gives the illusion of circular motion.” –Bruce Cathie**

**PLANETARY MANIPULATOR’S:** Over the last century the *National Aeronautics and Space Administration* (NASA) claim the *Voyager* space probe has travelled 21 billion km out into space and the *Kepler Space Telescope* has travelled 151,587,522 kilometres. NASA has 3,924 confirmed exoplanets outside of this solar system and has named some of them. Yet, they have quandaries over how many *planets* are in this “*solar system*”; some claim 8, some 9 and more recently 12. In 2016 they declared evidence of a *9<sup>th</sup> planet* in the solar system that is 10 times the mass of earth and 5,000 times the mass of Pluto and yet they cannot find it! They have never given a *plausible* explanation for how they are getting through the “*Van Allen Belt*”:

### NASA's Van Allen Probes Spot Impenetrable Barrier in Space

**“Two donuts of seething radiation that surround Earth, called the Van Allen radiation belts, have been found to contain an impenetrable barrier...”**

Cloud or Oort Space Bubble.

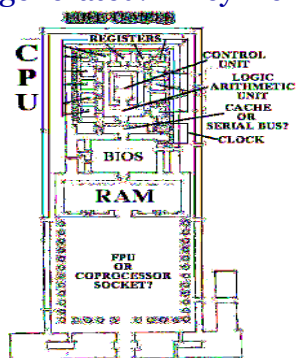

Terrestrial existence was originally defined by ancient texts, mythology, astrologers, and telescopic observances. Contemporary Script Writers use a Heliocentrism model in which the earth is orbiting around the sun in the centre of a solar system. However, Aristotle, who was spiritually enlightened and Claudius Ptolemy, who was one of the greatest astronomers that ever lived, both used models of *Geocentrism*. This is where the sun and moon revolve in an elliptical manner around the top of earth. Perhaps they realized they were in a secondary subprogram? The original upper 4D solar system was located in a massive closed-loop system, which was holographically recreated as part of this matrix. Jan Oort theoretically discovered it and named it the Oort-Cloud or Oort Space Bubble.

You have been entranced to believe the solar system exists in **three** compartmentalized regions of space that exist within this gargantuan *space bubble*. The **first compartment** is illustrated as a massive debris field called the Kuiper Asteroid Belt, a circumstellar disc that *rings* around the entire Solar System. The Belt’s *outer compartment* is closest to the outer edges of the *Oort Bubble* and houses orphaned lunar-rogue planets and *thousands of other worlds* floating in *dark space*, including the mythological Eris ♁. The **second compartment** is located on the inner side of the *Kuiper Belt* and is claimed to house *Pluto* ♇; *Uranus* ♅; *Neptune* ♆; *Jupiter* ♃ and *Saturn* ♄. The **third compartment** is separated by what is called the “Main Asteroid Belt”, created by the total annihilation of a sphere in the 4D expanse prior to this sub-matrix. Beyond it towards the sun is *Mercury* ☿; *Venus* ♀; *Earth* ♁; the Moon ☾ and *Mars* ♂. All are holographic inserts in

this matrix. The Earth was never listed as one of the “*Seven Classical Planets*” because it doesn’t exist. The earth’s  symbol is a downward pointing triangle with a bisected horizontal line symbolizing the separation between the upper matrix-world from this appendage. When you look into the heavens with a telescope you will see the holographic reproduction of ancient stars, nebulas; and worlds that have long since passed this dreamscape by.

**THERE IS NO PLANET EARTH:** For many centuries the Rabbi’s and ensuing *Catholic Church* were the only authorities allowed to educate within their jurisdictions, via their personal *theories* involving the sciences and their personal *agendas*. They taught that the earth was the centre of the universe until astrophysicist’s claimed it was the *third rock from the sun*. The “*Earth*” has *never* been considered one of the *Seven Classical Planets* and was *never* mentioned as a planet until the late 17<sup>th</sup> century. The term *earth* was not derived from any Greco-Roman mythology nor was it found in any ancient texts until the late 13<sup>th</sup> century by *The Church*.

Within the *upper matrix*, there were various locations where electromagnetic data was generated. They were concealed within giant computer facilities hidden behind false façades such as Temples. They put out massive amounts of energy that governed the upper matrix. Their *function* might be casually compared to modern day *computers* used for storing and dispersing information. This is an actual sketch of the layout from the “*Temple of Horus*” at Edfu, Upper Egypt. The Temple has been perceptively drawn in its actual format, but with added overlays of a C.P.U–Central Processing Unit. Your subconscious mind has been captivated by a computerized program. You are not in the genuine higher matrices, let alone a genuine Cosmic Universe. There are other sites that still put out measurable, albeit incomparable, electromagnetic energy such as the pyramid at Göbekli Tepe, Turkey. However, this matrix runs on (Sketch by Daniel Perez) a new interfacing processor that affects the cerebral cortex of the dreamers by converting neuro impulses through a new set of binary codes.

“There sprang from them, as good as dead, as many descendants as there are stars in the heaven and grains of sand along the seashore.” –Hebrew 11:12

## THE DOME:

“Let there be a vault between the waters (Akasa), to separate the waters in the heavens from the waters of the earth.” –Genesis 1:6

What you view in the firmament above is what the ancients referred to as an “opaque *DOME* and/or *Vault*”:

“Something in the likeness of a *DOME* was spread over the heads of all living creatures; it looked like a vault of sparkling crystals and glittering ice. It was awesome to look upon stretched out above our heads.” –Ezekiel 1:22 “In the heavens was placed a tent for the sun” –Psalms 19:4

NASA's Van Allen Impenetrable Space Barrier has been claimed to be the firmament boundary above the earth. In 2014, an article was written about the *University of Colorado's* research showing: “an invisible shield has been discovered surrounding the Earth.” It was believed to be a “magnetosphere' that deflects killer electrons.” “This is an extremely puzzling phenomenon. “This may act as an invisible shield blocking electrons.” “It's almost like these electrons are running into a glass wall in space!”

The ancient Egyptians called this vault “*Nut*”, the sky goddess. *Nut* was portrayed as a “glasslike dome with fixed luminaries placed in it” that “enclosed the known world.” Shooting stars, electrons and auroras are angles of light reflecting off the

HOME the ancients thought of as “*resplendent*.” In 1994, a film called “No Escape” was released where a 21st-century Marine is sentenced to a remote island prison called *Absolom*. He lands in the midst of a war between *two opposing factions* and an *evil corporation* controlling the prison system. This action film is could be construed as a version of living under the HOME on this world. Through the ‘secret space program’ they have been learning how to tap into the grid/lay-lines and nodes, which may give them access to other matrices outside of the firmaments.

**“And they were cast into an Abyss, and it was shut and sealed over them..., until a thousand years were completed. After that they must be released.” Revelations 20:03**

**“For in Your sight a thousand years are but a day that passes, or a watch of the night.” –Ps 90:4**

Perhaps the thousand years are up. However, they have created a secondary type grid system to accommodate the powerful “Wireless Technology” that will control the matrix. The Internet is: Inter-Net; **inter**: verb, to place in a tomb – **net**: verb, to cover, ensnare, or enclose your minds!

**CLOSED LOOP:** Script Writers relentlessly searched for the boundaries of the HOME. An Elite 33 degree *Freemason*, Admiral Richard Byrd, a commissioned polar explorer, found the edges of the HOME in two areas. One was *above* the North Pole on newly discovered undisclosed lands that are now secretly occupied by joint military operations and the other during the 1920’s on the continent of Antarctica.

**PSYCHOACTIVE ASTRONOMY:** Astronomy by far has been of the highest interest from ancients to present day astronomers because the stars are entwined in our very essence and psyche. Those twinkling holographic waveforms have a powerful *alchemical effect* on your consciousness and a governing effect on your brain. The zodiacal constellations are the most potent and powerful psychoactive symbols in our consciousness. Stars bypass all languages, races and philosophies by communicating directly to our vibrational fields. The Zodiac has been anthropomorphized and given symbols with imposing enigmatic mythologies. Everything is written in the stars for they are the record keepers of the virtual-worlds and the ethnological memories lodged in our subconscious minds. Carl Jung observed recurrent astrological themes occurring in his subjects’ dreams when under hypnosis and stated:

**"Astrology represents the sum of all the psychological knowledge of antiquity." –Carl Jung**

**CHAKRAS:** Sanskrit for ‘spinning wheel.’ There are 7 *classic* chakras located along the spine, from the coccyx to the crown of the head, which are alchemically aligned with the 7 *Classic Planets*. Our holographic brain acts like a digitalized musical instrument with 7 interconnected compartments operating on seven different octaves that function independently from each other. These octaves are etherically connected to the spinning waves of *psychic-electricity* moving through the spine and nervous system and are alchemically connected to specific stars. However, new electromagnetic currents replaced the original ones and changed our perceptions. These new currents create *distortions* within the chakras, nervous system, heart and brain. These energetic distortions affect the DNA, which in turn creates genetic weaknesses within the etheric and cellular levels of the body. This is why there is much innocence in the negative acts by people *other than those that know the truth of this matrix!*

Not being able to remember past karmic patterns from one incarnation to the next created a form of *repetitious interference*. Owing to this, many souls have lost the ability to self-correct, which tricks them into further incarnations along with other charlatan deceptions at expiration. These distortions block positive impulses in favour of negative ones that lead to negative consequences; genetic disorders and disease. Meditation techniques can help quiet brain activity in order to get deeper clarity and perspective, but too few practice it. The following is a *minimal* explanation on the seven chakras and the so called *planetary*, alchemical influences. The Hermetic Qabalah claims the planets that rule the vital organs are: Sun–Heart; Moon–Brain; Mercury –Lungs; Venus–Kidneys; Mars–Gall Bladder; Jupiter–Liver; Saturn– Spleen. However, various charts have different planets that correspond to the chakras:

**First Chakra: Mars.** Location: Coccygeal. Colour: Red; Timeline: now. Greatest fears: bodily harm, extinction. Strongest Characteristics: aggression, sensory. *Etherical link:* medulla oblongata often referred to as the *reptilian* brain.

**Second Chakra: Saturn.** Location: Spleen region. Colour: Orange. Timeline: do now for future. Greatest fears: approval, social upmanship. Strongest Characteristics: materialism, sexual power; *Etherical link:* Pons.

**Third Chakra: Sun.** Location: Solar Plexus. Colour: Yellow. Timeline: linear. Greatest fear: being wrong, rejection, disappointment. Strongest Characteristics: intellect, self-obsession, non-listening; *Etherical link:* Cerebellum.

**Fourth Chakra: Venus.** Location: Heart area. Colour: Green. Timeline is known as the “*Measurer of Time*.” Greatest fears: loss, insecurity. Strongest Characteristic: self-assertiveness, compassion, love. *Etherical link:* Midbrain.

**Fifth Chakra: Mercury.** Location: Throat. Colour: Blue. Timeline: past. Greatest fears: change. Strongest Characteristics: freedom, conceptuality, mental aggression. *Etherical link:* *Diencephalon-Inter-Brain*.

**Sixth Chakra: Moon.** Location: Neocortex. Colour: Indigo. Timeline: future. Greatest fear: failure, being late. Strongest Characteristics: initiation, intuition, Psychism, self-doubt. *Etherical link:* Pituitary-Pineal Gland - "Third Eye."

**Seventh Chakra: Jupiter.** Location: Crown working in conjunction with the sixth chakra. Colour: violet. Greatest fear: chaos. Strongest Characteristics: creativity, imagination, looking for the Divine. *Etherical link:* Epiphysis Cerebri.

All of the above are symbolic of variable levels of *consciousness* within the unique qualities of different souls.

**TELLING TALES:** The original term “*Other World*” was at one time used only in the representation of the 4D matrix after it was destroyed by the *Great Cataclysm*. {Ra} The inhabitants from the genuine upper world were highly advanced in consciousness, culture, architecture, technology and weaponry. {Ra} Prior to its destruction, it was made up of supercontinents with flourishing civilizations; {Ra} however there have been massive changes in geography, avatāranas and their plasmates that became the sub-races of this sub-matrix. {Ra} Much of the upper world’s architectures were so advanced that to this day they cannot be replicated by human hands. This world still holds mysterious holographic remnants from ancient structures that are being discovered around the world. Pyramids, Ziggurats and Monolithic Stone Temples remain lost under the oceans and sands of isolated deserts. These photos stand as miniscule mirror reflections of a lost world:

Gobi Desert

Sahara Desert

Remote Egypt

Upheaved civilizations

It is difficult to discern between the relics that belonged to the upper destroyed surrogate world and the destruction of rebuilt civilizations over the event timelines down here. *Solomon’s Temple* still sits on the most fought over piece of real estate in the matrix. Many of you are reincarnates from these event timelines.

**“Zion was ploughed as a field, Jerusalem became as a heap of ruins, and the mountain temples became high places of forests.” –Micah 3:12**

The Sahara Desert was once a region of heavy vegetation, with abundant rainfall and large rivers now covered by layers of sand. The Great Victoria Desert of Australia; the Chinese/Mongolian's Gobi Desert and many others had beautiful lakes, lush vegetation, fauna and civilizations. The Gobi Desert had an inland sea with a beautiful island sitting in the middle of it. Antarctica was also once a lush green supercontinent and home "to the gods." {Ra} Many temples and artefacts are now being discovered under the ice of *Antarctica* proving it was once a *massive* lush green supercontinent with grand civilizations before being devastated. {Ra} The term *Zion* is now representative for the whole of this sub-world as are the terms *Jerusalem* and *Israel*!

**WEAPONS OF MASS DESTRUCTION:** "*Man's inhumanity to man is only surpassed by his cruelty to animals.*" –George Bernard Shaw

*Trinity* was the code name for the first detonation of a nuclear weapon. Afterwards *green glass* residue was found in the sand, which they named *trinitite*, *atomisite* and *Libyan* or *desert glass*. Test engineer Albion Hart claimed that trinitite was identical to material he found in isolated African desert areas years before the atomic explosion. He calculated that the size of the African glass deposit indicated a blast ten thousand times more powerful than the *Trinity Bomb*. The area has been named the "*Seas of Glass*." Trinitite has been discovered in Egypt, N. Africa, and under layers of excavated Sumerian and Babylonian archaeological sites. In Libya, Trinitite desert glass deposits have been found stretching over vast square kilometres. The Egyptian's called this light green glass the "*Rock of the Gods*" and used it in royal jewellery and was found on Tutankhamun in his discovered tomb.

The Mahabharata, Ramayana, and the Vedas all speak of ancient celestial *Weapons of Mass Destruction and Supernatural Technology*. Egyptian *glyphs* at the ancient city of Abdu's *Temple of Seti 1* and *Horus* testify to earlier matrix epochs with advanced technology:

Script Writers have attempted to debunk these glyphs with absurd rationale such as "the natural wearing a way of stone over time created them." There was also an ancient Sanskrit document found in Lhasa, Tibet a few years ago that was sent to the *University of Chandigarh* for translation. It was found to contain instructions for building flying disks called *Vimanas* and superweapons, called *Astras*. {Ra} The Vimana designs looked similar to glyphs found on Egyptian temple walls. The propulsion was "anti-gravitational" and "the centrifugal force came from the pilots physiological makeup", which was "strong enough to counteract all gravitational pull!" Hindu epics describe anti-gravitational flying machines over 5000 years ago carrying "super-weapons of mass destruction" that rained down fire from the heavens destroying entire populations and their communities.

**"They jumped into space, speedily with a craft using fire and water... containing twelve stamghas (pillars), one wheel, three machines, 300 pivots, and 60 instruments."** –Swami Dayanand Sarasvati –*Rigveda*

The Hopi Indians also have accounts from the days of old about "*flying shields*" capable of attacking faraway villages and returning at great speeds. Many continents illustrate various forms of proof that advanced weaponry existed such as a high energy particle weapons that created mass destruction. {Ra} There are many accounts in Greek and Egyptian ancient literature of mass destructions. Dozens of structures from ancient forts and towers in Scotland, Ireland, and England; Catal Huyuk, Turkey; and Alalakh, Syria have brick and stone fused walls created by some unknown *inconceivable heat*. The ruins of the Seven Cities near Ecuador and cities between the Ganges River in India and the Hills of Rajmahal show signs of similar past destructions. The imperial buildings on a north Syrian site known as Alalakh were so vitrified that some of the massive basalt wall slabs had melted. A large ziggurat was found in Babylonia that was excavated

and found to have been struck by such a *massive blast of heat* it was split to its very foundation. Other sections were so scorched they were vitrified and condensed into a molten state.

**"The earth shook and trembled when Babylon was seized and the terrible noise was heard around the world."-Jeremiah 50:46 "A mighty voice shouted: "Fallen! Fallen is Babylon the Great!" -Rev 18:2 "Babylon will never be inhabited or lived in for all generations." -Isaiah13:20**

33<sup>rd</sup> degree Ashkenazi Freemason physicist *Robert Oppenheimer* was considered "The Father of the Atomic Bomb." After its first test he made a public statement by quoting the *Bhagavad Gita*: "Now I am become Death, the destroyer of worlds", and soon after died of "Laryngeal Cancer."

**"I believe that there have been civilizations in the past that were familiar with atomic energy, and that by misusing it they were totally destroyed." -Frederick Soddy (Nobel Prize physicist)**

**ASTRA & VRIL: "There is in nature one most potent force, by means whereof a single man, who could possess himself of it, and knows how to direct it, could revolutionize and change the face of the world." -Albert Pike, Freemason**

In the upper world, superweapons were harnessed out of *Pneuma-Chi*; the *Vital Spirit* or *Electrical Forces* found in all living things. When harnessed and used as a weapon the *Mahabharata* called it an "Astra", a 'celestial superweapon.' *VRIL* was another term for it that was derived from the ancient Sumerians and meant the "god like power."

**"There is No Energy in Matter other than that received from the Environment!" -Nicola Tesla**

*Astra superweapons* were used by the so called gods against each other and continued to use it when redeveloped in this 3D subterranean matrix. It became known as "The Power of the Dragon." {Ra} *VRIL* was used as the most destructive power ever unleashed! It was rediscovered by the NAZI's who eventually lost it to another faction of Script Writers. The ancient 3D hybrids used it against entire societies as a *weapon of mass destruction* with annihilating effects that were recorded in the *Mahabharata*:

**"The Earth shook, scorched by the terrible heat of this weapon. Elephants burst into flames and ran to and fro in frenzy, seeking protection from terror. Over vast areas creatures fell to the ground and died. The ocean boiled and the creatures residing therein also died. From all points of the compass the arrows of the flame rained continuously!" -Mahabharata**

The "Elder Gods" were the first generation of hybrid gods the Greeks called the "Titans", represented by *Saturn*. Their progeny became known as the mythological "Olympians" represented by *Jupiter who they believed was their Solar-Logoi*. As the younger generations became further adulterated they wanted to replace the older generation and take their power and authority. The Greeks called their war the *Titanomachy*. After the *Olympians* obtained the fire Power of the Dragon-VRIL, the surface of the matrix was devastated on three different occasions. It is the greatest source of *free energy* and could light up the world and even surpass the sun. In the right hands, VRIL has the power for great and wondrous good; when in the wrong hands, it has the power of inconceivable destruction.

**"Electricity, comprehends in its manifold, branches of other forces of nature. Scientific differing nomenclatures have been assigned, such as magnetism and galvanism, etc. The various forms under which the forces of matter are made manifest, have one common origin that are so directly related and mutually dependent, they are convertible, as it were into one another, and possess equivalents of power in their action." -Edward Bulwer Lytton**

There are *many* depictions of VRIL being used as *Supernatural Fire; Lightning Projectiles; Staffs; Rods; Tridents; Lances and Spears*. VRIL was the supernatural “lightning bolts” wielded by the mythological Zeus. It was also the supernatural power illustrated by ecclesiastics as Moses staff:

**“Moses stretched forth his rod toward the heavens, and thunder, and hail, and fire fell to the earth, and rained hail down on the land of Egypt.” –Exodus 9:23**

In mythology, Prometheus was the *Titan (Elder God)* responsible for creating the hybrid *Adamics* with a chakra system that they could develop self-determination and awareness with through the power of kundalini. However, he also gave them the *Serpent Power* of VRIL technology. Carnage ensued and “*The Power of the Dragon*” was abused to the detriment of all living creatures.

**“The weapons we fought with were not the weapons of this world” –2 Corinthian 10:4**

Due to this, VRIL was locked and hidden away in the “*Ark of the Covenant*” after the last Great Deluge; unfortunately it was found and is now under the control of the NWO Forces. They have revised *many of these* ancient technologies and now have “*Laser* *conductive channels for VRIL plasma streams*. VRIL is also being used as a form of psychotronic mind control that can create inordinate influences over the minds of entire populations and is as powerful as mind altering drugs! There have been magazine and newspaper reports about devices capable of transmitting beams of *electromagnetic sound waves* that a targeted person can hear *inside their head* giving them thoughts and instructions. Sound and light waves at various frequencies can stimulate and manipulate the brain on psychic levels. There have been scores of people from different parts of the world, from serial killers to scientists, men and women, who feverishly claim they heard voices in their heads giving them instructions to do harm! Numerous infamous killers fervently claim “they heard voices in their heads telling them to murder distinct targets and/or commit terrible crimes!” I am not suggesting that all of these people were controlled by VRIL, but perhaps we should question it when specific targets serve to highly enhance the agendas and goals of Script Writers.

Each time the dreamspell was devastated in the past, it became more difficult for the *atmosphere* to recover from its depletion of *hydrogen* and *aether*. This along with further DNA corruption, the hybrid gods and Adamics stature started to lessen along with flora and fauna. Mental capacities were subdued and the hybrid gods had to develop more and more technology to replace their diminishing capabilities. {Ra}

**“You have lost the elemental spiritual forces of this world” –Corinthians 2:20**

After the last Great Deluge, all the toys were lost or hidden until rediscovered in the early 1900’s. Due to this, on 5 October 1978 an international treaty was created that prohibited military use of VRIL as a *weapon for mass destruction*. Yet the Elite Cabal Script Writers continue to build underground secret facilities and private bunkers. Is it due to the Demiurge’s prophetic scriptures or a reboot of the matrix?

**“The sun will be darkened, the moon will not shed its light, the stars will not appear in the firmament, and the forces that control the heavens will be disordered and disturbed.” –Mat 24:29**

**SUBTERRANEAN CITIES:** Over the eras of the continuing *VRIL* wars, the entire earth’s surface was ravaged at least three times over the course of event timelines. All of the deluges that continued to batter the world became woven into a mixture of mythologies and theologies. Every culture describes horrendous destructions that caused famines and plagues. The hybrid dynastic succession struggled in the aftermath of the *great upper* world cataclysm. {Ra} Owing to the continuing carnage, entire societies started creating underground havens for safety that became subterranean cities. Archaeologists have unearthed several of these cities with their ancient

hidden tunnels and passageways throughout the current matrix. Pueblo Indian Apaches, Zunis and Hopis have passed down legends of ancestors emerging from *underground* after calamitous war events. *Ground penetrating radar* has revealed intricate labyrinths of underground systems in *many* parts of the world. In South America, tunnels under the Mayan Pyramid complex at *Tikal* have been mapped encompassing 800 kilometres from one side to the *opposite side* of Guatemala. Due to the prophetic and media threats of a World War 3, there are thousands of wealthy people now following suit and purchasing or building underground *survival* habitats.

*SIRA radar* used in Egypt discovered a vast subterranean complex beneath the Giza plateau with an entrance under the Sphinx. It has secret underground passages leading to massive chambers and enormous statues. The Script Writers are not willing to reveal what was removed after the finding like so many other discoveries made over the years. There are stories of vortexes leading into the other world (astral) via Shamanic and High Priest experiences that took place in caverns under the Sphinx and Pyramids. It has also been alleged that advanced mechanisms, *lakes* and *rivers* were discovered under the Sphinx and even *hydraulically operated underground waterways*. In central Turkey, there are the 36 underground cities with depths up to 85 metres. They include living quarters, storage rooms, and wineries, communal eating and drinking areas, along with stables.

**COVENANT:** Legends passed down have become convoluted between the “*Great Cataclysm*” that took place on the 4D upper world and events that took place in this appendage. Ice was a result of the *Great Cataclysm* and VRIL was used to melt the massive ice glaciers, which became the basis for the Great Deluge.

**“On that day all the sources of the vast watery depths burst open, the floodgates of the sky were opened...” –Genesis 7: 11- 12 “Through which the world of that time perished in the flood.” –2 Peter 3:6**

However, VRIL became known as *Dragon Fire* because it was also misused in other wars of legends that overwhelmed the earth surface. Each time VRIL was used for war, the world was thrown back into a technological *Stone Age* where many had to basically start all over again during the aftermath! Due to this, a pact was made to never use VRIL for warfare again! After the last deluge, the ancients placed the codes and the highly advanced technical conduit for transmitting VRIL’s power into a receptacle known as the “*Ark of the Covenant*” and hid it away. **“And when the**

**lands were once more filled with people, there was no need to remember the Ark of the Covenant or to make a new one. You will not miss those days or remember them.” –Jer. 3:16**

When the Ark and the blueprint codes were rediscovered, the Factions of Script Writers came together and elected to keep their ancestral pact to not use VRIL for warfare. They agreed to play only conventional war games for economical intents, depopulation and control over commoners. They agreed to divide the world and populations up into chattel and economical Unions. They have globally nationalized all natural resources, international banking, foreign investments, railroads, power plants, and armaments. There will also be Federal control over foreign commerce and shipping and the establishment of a common world monetary system.

### ***Novus Ordos Seclorum – A New Order for the Ages***

**HEAVEN OR HELL:** *Models* of astral heavens and hells have been created on Church murals and paintings illustrating where the obedient go and where the disobedient go after expirations:

The Demiurge has several *Branches*, whilst the Elite are made up of several Federations and Confederations. All of them have a *dog eat dog attitude* when it comes to power that for centuries has created wars vying for position, wealth and power. Both use religion at the forefront with

similar methodologies, but with very different agendas. They belong to two very different thoughts in theology that have become convoluted beyond the comprehension of any sanguine person over the centuries. They are the bases of all past wars between the Factions that follow the gods and Jupiter as their Solar-Logoi and the Demiurge God of the Astral Heavens.

**MATRIX-BOUND:** Matrix bound souls include those trapped on the astral planes and have no conscious understanding of the genuine worlds, the matrices, Logos or Demiurge. There are those who can no longer conceive of any reality outside of the matrix due to continuous reincarnations while others continue to seek out more materialism, family members and past loved ones. Many have become addicted to the physical sensory world and other addictions. Numerous are addicted to power and siphoning off others. For the most part they operate through *Royal and Aristocratic Lineages; High Finance, High Ranking Military Positions and Offices in Governments*. The Pythagorean's coined them as the "Walking Dead."

**THE PRESENT PAST:** We need to push past our concepts and develop new perceptions on how we perceive *everything*. We must push beyond *intellectually believing* we are in a virtual-reality and come to *know it as a self-realization!*

**"There is no present, only the immediate future and the recent past!" –George Carlin**

Thought processes are being controlled by old outworn archetypical implants. The Script Writers have been in the process of revising and rearranging the matrix into new self-serving scripts. New Agers have been programmed to believe the world is moving into a new spiritual paradigm shift. In reality, the matrix is moving into another dystopian paradigm that we might as well call the new "Brave New World" as written by Aldous Huxley!

**"What has been will be again, what has been done will be done again; *there is nothing new under the sun*. Sometimes people say, "Here is something new!" But actually it is old; nothing is ever truly new." –Ecclesiastics: 1: 9-10**

Many low-grade spirits have claimed to be knowledgeable in spirituality, mathematics and science. Some are talented in psychic marvels that blind people to their real motives by wooing them into false adulations and deception. Belief is having personal confidence or faith in something that can't be proven, yet is given credence by one's own choice or fear. Heresy and blasphemy were just clever words used to destroy *Truth!* Whatever you believe will either set you free or become part of the New Brave World!

**Matter is a Reflective Element  
That acts as a Mirror for our Thoughts  
Life is a Reflection in our own Looking Glass**

# 7 ELUCIDATIONS

## Piercing the veil of unawareness

### 4<sup>th</sup> Elucidations: Truth is Stranger than Fiction

Holographic Paradox p.37 – Mind Games p.38 – Lifting the Veil p.39 – Temporal Time-Loop p.39 – Time p.40 – Non-Time p.40 – Event-Timelines p.41 – Travel Paradox p.41 – Temporal Paradox/Time Wars p.42 – Recalibrating Time p.42 – Yesteryear, Yesterday p.43 – Vapours p.43 – Know Thy Self p.43 – Transhumanism p.44 – Opposites & Frequency p.45 – Suicide p.46 – Hypothesis, Theory, Law p.48

**HOLOGRAPHIC PARADOX:** *You are experiencing a dream within your subconscious mind that could be modelled after a hologram.* A hologram creates a 3D virtual image in space that is verifiably real looking whilst having no actual material substance. When various fluctuating frequencies entrain the brain, it cannot differentiate between material and virtual-observances. When the nervous system is connected to the observance via electrical signals in the brain, it will create the illusion of material substances! Even when simply watching a film the brain goes into a similar state of hypnosis within the *first three minutes* caused by the *flickering* images being observed. All virtual-observances have a kaleidoscope of oscillating vibrational fields that deeply affect the emotional state of the observer, which is why you may become so emotional watching a “flick.”

Holograms are not only fashioned by light, but can be formed through the presence of any wave action, as long as there are both a reflection and a reference beam. Similarly, past stored memories in the brain serve as a reference point and different observed stimuli serve as the interference patterns that help to create a collection of parallel rays. *As new stimulus enters our perception, it creates new interference patterns that become part of the orientation background that manifests as our perpetually changing model of reality.* In Physics, the term “duality” is used for the basis of the “*Holographic Principle Hypotheses*” because matter has both wave and particle-like properties, which are called “*Wave-Particle-Dualities.*” The term *atom* was created as a working model to explain matter since it is scientifically inexplicable. Atoms are light-wave-particles that are in a constant state of vibrational flux and act like micro-oscillators; each with its own characteristic frequency. When similar waves begin to vibrate in unison they form a “*tuned resonant system*” that oscillates in phase with each other and create the illusion of stability in solid objects perceived through the senses of an observer.

**“Reality is merely an illusion, although a very persistent one!” –Albert Einstein**

“The Holographic Principle” postulates the universe is a unitary super-hologram and by reason objective reality does not exist. This hypothesis gives science a more plausible explanation for how parapsychology; paranormal phenomenon and pineal activity potentially operate along with time-travel. {Ra} Every particle of a hologram contains all of the information possessed by its origin. You cannot slice any piece off of a hologram or *memory* that doesn’t contain its entirety, no matter how you dice it up. Albeit, it’s clarity, light and resolution becomes a bit more diminished in each subsequent slice as it has in this matrix. Light has a visible spectrum of wavelengths created out of thought waves that create sound, which determine various *colours* that interact with each other. When they are harnessed and manipulated they can produce a laser beam effect. Variable light particles make up models for atoms and discrete clusters of light photons, which have become known as quantum-electromagnetic light-wave energies.

A holographic beam of light splits into two separate beams; one bounces off of a bundle of these wavelengths with more solidity, whilst others serve as the reference points, this is called “interactive matter” (Like the moon!!) Consciousness is made up of electrical thought waves that can be quantified when interacting and bouncing off of each other in similar fashion in a hologram. Through various observance techniques, the basic alchemy of air, water, fire, and earth can be identified in their undistorted form as elements of *pure light*. Photon light particles participate in our consciousness as a theatre screen upon which we project our thoughts and make these elements manifest via *observance*. Your brain is holographic in nature and functions similar to a computer, which is why it can store *quad-billions of bytes* of data in such a limited space during an average lifetime!

Third dimensional reality is perceived as real when in fact it is being projected by consciousness onto a photonic screen, which is why it is referred to as a *two dimensional* digital universe. A holographic picture is two dimensional, but by moving and looking at it from various *angles* it creates the illusion of being three dimensional. Thoughts are waveforms of reflection that act as *reference* beams that create the entire phenomenon of reality here. All dreamscape backdrops are reflective *replicas* from stored *memory*.

**One must be willing to Rise out of the Bowels of Narrow *Mindedness*  
In order to perceive the Profound Truth hidden within deeper Consciousness**

**MIND GAMES:** All science, philosophies and mythologies are built on archetype models. The film and scientific communities fortify them with new expressive buzz-words, such as *super-holograms* and *matrix*. These terms are designed to mislead and take the world deeper into the proverbial “*Rabbit Hole*.” They do this because they cannot keep their own covert scientific awakenings from *Collective Consciousness*, which in turn raises the awareness of the subjective whole. They control this through sleight of hand, misinformation and fantasy. New world theologies are based on pseudo-historical and scientific facts that lock your mind into this dense vacuum.

**<sup>3</sup>“I applied my mind to the study and exploration of wisdom along with all that is done under the heavens. <sup>14</sup>I have witnessed all the things done under the sun; all of them are meaningless, a chasing after the wind. <sup>17</sup>I applied myself to the understanding of wisdom, and also of madness and folly, but I learned that this too, is a chasing after the wind.” –Eccles 3:14-17**

In the midst of this writing I received a short *YouTube* clip for my perusal. The clip was from an acclaimed American Science Fiction writer who was making a live short statement at the *Metz Science Fiction Conference* in France - 1977:

**“We are living in a highly advanced computer programmed reality, and the only clue we have to it is when some variable is changed, and some alteration in our reality occurs. These alterations feel just like *déjà vu*, a sensation that proves that a variable has been changed and an *alternative world branched off*.” –Phillip K. Dick (1928 – 1982)**

They may have all laughed at him, but he was not as far away from the truth as they thought. Interestingly, years after his death the film, *The Matrix* was released in 1999. Phillip Dick never received any credit for it even though it is *obvious* the story line came from his 1977 disclosures. His home had also been broken into and many of his notes and writings were taken! So great was the impact of this film that its name became the new nomenclature for this world: “The Matrix.”

- ❖ Oxford University’s Nick Bostrom in 2003, in a similar vein to David Bohm’s work on quantum theory prior to his death, wrote a paper postulating there are ‘empirical’ reasons why a “Simulation Hypothesis” might be valid. He states: ...**“we have interesting empirical reasons to believe that we are almost certainly living in a simulation. The simulation hypothesis contends that reality is in fact a simulation that we the simulants, are totally unaware of.”**

- ❖ David J. Chalmers, an Australian philosopher and cognitive scientist, agrees that this may not be just a sceptical hypothesis, but rather a “Metaphysical Hypothesis.” Chalmers’ identified three separate hypotheses which he combined into what he termed “**The Matrix Hypothesis**” and “**the notion that reality is a computer simulation.**”
- ❖ Dr James Gates Jr., from the University of Maryland, president Obama’s head advisor on science and technology, revealed that researchers found a mathematical computer code equation buried deep within the mathematics of the *String Theory*. “**This unsuspected connection suggests that these codes may be ubiquitous in nature, and could even be embedded in the essence of reality. If this is the case, we might have something in common with The Matrix science fiction film where human beings are the product of a virtual-reality generating computer network.**” –Professor James Gates Jr.

Many scientific revelations have been specifically designed to lead you astray by using *fragments* of veracity, whilst keeping you entertained with fanciful films, video games and music that entice the masses. They camouflage the Truth within genres of violence and explicit sex to continue beguiling them. (**Beware:** there are serious dangers in the new virtual-reality games. They can have a similar hold over your mind with the power to technologically lock you into deeper Virtual-Reality-Psychosis-Syndrome! **VRPS**)

**He who controls the information controls the world!  
Better a few cosmic stretch marks  
Than the dire skid marks of resistance to Truth!**

**LIFTING THE VEIL:** Science claims the world is a sphere, others claim it is flat. Some claim it goes through cycles of annihilation only to be rebirthed. Many believe this is a 4<sup>th</sup> *world* or *sun* epoch based on an amalgamation of previously destroyed worlds; others believe it is the 5<sup>th</sup>. Some say there are 8 planets, some say 9, some argue 12. The 4D matrix and subsequent 3D event timelines have all been interwoven into legends and mythology mixed with quasi-material. We also have modern day ‘whistleblowers’ who deliver facts mixed with invention and fantasy; much of which are creations directly from the Script Writers delivering dissonance and fear into the collective. There are *numerous* conspiracies about *secret space programs; aliens; abductions; mind control; inoculations; chemtrails; microchip implants; world depopulation* and *weather control*.

“A consensus has been reached that the tremendous scope of transformations now occurring on the Earth, with profound effects on plants, animals, and natural habitats, is primarily the result of human activities.... On a geological scale the planet has entered a new era. Natural processes that control the functioning of the planet *have been interrupted, refashioned, and accelerated...*” –Smithsonian Report 2012

On the contrary, they say the world is shifting into higher dimensions; its energy is rising and crossing all boundaries; we are in ascension and rebirth; nothing less than a Global Shift in Consciousness. These are the two reigning *opposites* now being presented in this virtual-reality theatre. {Ra} However, all of these scenarios represent a parting of the ways between the commoners and the Elite Script Writers.

“Masonry, like all the Religions, all the Mysteries, Hermeticism and *Alchemy*, conceals its secrets from all except the Adepts and Sages, or the Elect, and uses false explanations and misinterpretations of its symbols to mislead those *who deserve only to be misled; to conceal the Truth, which it calls Light, from them, and to draw them away from it. Masonry will conceal its secrets, and intentionally lead conceited interpreters astray.*” —Albert Pike

**TEMPORAL TIME-LOOP:** Due to the plasmates gaining a state of “self-awareness and a self-determining consciousness”, they developed into a *new species* {Ra} that created a unique *soul complex* within their own *collective*! Vast amounts have unwittingly become trapped on the astral

planes upon expiration due to religious dogmas and spurious gurus! These budding souls need the opportunity for freedom through discernment and untainted information; yet few will heed the call because they have become so hardwired into the program! All deep urges and yearnings to worship come from deep *within* and are a *natural part* of us! {Ra} Worship was been passed down from the Immortals to their Avatars, to Plasmates, to Mankind, to Humankind: You! It is a natural inclination to the Sacred Trinity of Logos within which is our inheritance! You are being deceived into worshipping an outside source, a Saviour via “*transference*” of that which is of you and within you!

This Matrix is a dream based illusion built on collective memories. To keep the illusion alive, Script Writers invent *special genres* of films as a form of quasi-truth telling whilst making it into a fantasy. These films have been rearranging *layers* of stored memory via portions of the truth being fantasized. However, all past event-timelines involving this dreamscape have been stored in the matrix’s *mainframe* and make up a “Virtual-Temporal-Time-Loop” in consciousness. Countless plasmates are under the influence of the Demiurge and His hierarchy of minions. Many have become trapped by ignorance, guilt and fear!

**“Jehovah is a jealous God and a revenger. He is vengeful and full of wrath. The LORD takes vengeance on all his adversaries and reserves wrath for his enemies.” –Nahum 1:2**

**TIME:** “The only reason for time is so that everything doesn’t happen at once.” –Albert Einstein

This virtual-world operates under the *concept of linear-time*; a *mental measuring system* that *sequences events* and *quantifies rates of change*. Linear time is measured through a past, present and future – a beginning, middle and end coined the Alpha and Omega. According to Albert Einstein, space and time are simply different aspects of the same thing. We mentally view space-time as having something in it that is moving and how long it takes to get from one location to another. In reality nothing is moving in the universe *we perceive* as reality. Subatomic particles of light make up a unified field that our minds *perceive* as solid matter that is moving. Our constantly *changing perspective* of movement is what gives us the illusion of time. This illusion of time has a prodigious effect over consciousness; if you don’t agree, look in the mirror at the changes taking place on your personal time capsule. Ask yourself why time seems to speed up when having fun and s-l-o-w’s down when not. It is because it is ALL in your mind!

The speed of time is predicated upon the density of the dimensional field surrounding the observer. The denser the field, such as third dimensional reality, the slower the electromagnetic field oscillates within consciousness. The more rarefied the field, the quicker the photonic light oscillates. As magnetic fields rise, it gives the illusion of time speeding up; this is esoterically known as “*The Quickening*.” In Einstein’s *Theory of Relativity*, time dilation is created by mass approaching the *speed of light* and affects gravity by warping space-time. However, your mind is “*superluminal*” in comparison to the speed of light! Therefore, the *speed of light* simply acts as a quasi-pause between the octaves of mental dimensional timelines.

**NON-TIME:** The brain interprets layers upon layers of frequency bands that we *observe* and manifest into our reality! When there is no one around to observe these wave forms they remain *unprocessed formless data* that sits in *non-time*. Time IS the design of individual(s) observances and interpretation during any given moment. Space is not only relative to Time, but one and the same thing being experienced through your central nervous system. Only miniscule quantities of the multitude of electrical signals are received by the senses due to the limited amount of activated DNA. Time/space is an invention of the brain in relationship to electrical thought waves stored as neuro patterns, transgenerational epigenetic and soul memories.

Everything is made up of *thought waves*, rapidly appearing and disappearing and the brain interprets them as a *steady stream* of reality just like watching a film or the *flicks* as they were once called. This creates the illusion of an uninterrupted stream of *experiences* in the moment flowing towards a future outcome and where the past becomes a *review* mirror. However, the past can be revisited via stored memory because the brain has the ability to roll these images backwards

and forwards, just like rewinding or fast forwarding a video. Nonetheless, the old adage, “new wine cannot be poured into a glass of old wine without souring it” is true; we cannot clearly decipher the true meaning of any Gnosis without disengaging our mind-set filters.

**“O foolish Galatians! Who has bewitched and hypnotized you...?” -Galatians 3:1**

**EVENT-TIMELINES:** The material matrix is made up of fixed review mirrors *constantly* being recycled that cause the *illusion* of time and where only the information is being changed within consciousness! The Script Writers are constantly changing the scripts to create outcomes for their personal agendas.

When we perceive a world location at the quantum level of consciousness it becomes non-local because in reality nothing can be thought of as being in one particular place at any one particular time except to the observer. All event-timelines within the material matrix could be viewed as a single unfolding history where only their duplicated forms have parallel similarities. Each of these worlds would be unique to the consciousness of the observer experiencing them in that moment. The concept of time within the *genuine matrices* is different; time continuously flows from one moment to the next without interruption and the use of review mirrors to keep it moving. Thus, time *here* can never *catch up* with the upper *matrices* because the future has already come and gone and is no longer part of the collective trapped here. However, there are still stored memories within this collective of their personal experiences whilst in the upper world, especially its destruction. Prophecy loses much of its phenomenon when you realize everything here is being

recycled and repeating itself along with Script Writer's inserts. The only perceived changes in this matrix event-timelines are the architectures, costumes, technologies and newly designated events! *Everyone* is expected to toe the line and follow in “*blind faith*” under the authority the Script Writers and their minions or suffer the consequences!

**“It is not for you to know times or epochs, which have been fixed under His authority” -Acts 1:7**

There are different timelines between here, the upper matrices and the genuine realms. What you experience here as 100 years would only be equivalent to a few years in the higher more *rarefied* fields of consciousness. Over 80 years of projected consciousness into a secondary host here would only equate to about 90 minutes in my realm.

**“Be not ignorant of this one thing, one day in heaven is as a thousand years here.” -2 Peter 3:8**

**TIME TRAVEL PARADOX:** Quantum Physics now show that “*quantum entanglement particles* are millions of light-years apart and yet are all interconnected without being in physical contact.” *Quantum Mechanics* has a “*many-worlds*” interpretation asserting that the objective reality of the universal wave-function never collapsed. This implies that time-travel is possible because alternate past and future realities still coexist. However, it is the memory of the interactive matrices event-timelines that are stored within the mainframe computer that has never collapsed. And, in this matrix it is also stored within the sub-collective's conscious memory and DNA creating a *virtual-reality-time-loop*.

**“The only way to traverse vast distances of space is to possess the means of manipulating or altering the very structure of space itself... The method of achieving this lies in the alteration of the frequencies controlling the matter – antimatter cycles that govern our awareness or perception of position in the space-time structure.” -Bruce Cathie**

When researchers attempted to bring space-time down to a quantum level they found it didn't exist there. Thus, they created a new theory that space-time is relative and flows both forwards and backwards symmetrically. This perception makes the theory of time-travel feasible be-

cause space-time doesn't change, it just exists. Time must be taken out of the equation of creation and be replaced with the perception of compartmentalized event-timelines stored within DNA and the matrix's mainframe. Each event timeline has a substantial beginning and significant ending! Paradoxically there is no real time, yet you can choose a particular event-timeline and via specialized technology or meditational techniques, transport your *consciousness* there.

DNA holds the secret to timelines stored in the matrices. It has the ability to create what *Einstein* and *Rosen* theorized as *wormholes* in the space-time continuum. They theorized that what they called wormholes act like a bridge or tunnels with two separate ends in space-time that allow consciousness to experience *other event-timelines*. Whether they knew it was via the DNA's interconnected webs is unknown to me; however I feel that the Script Writers are confined to past and future recycling event-timelines within the 3D matrix. They are using the *Hadron Collider* technology to *warp these timelines* and the *Philadelphia Experiment* is a classic case in point.

**TEMPORAL PARADOXES - TIME WARS:** Due to multitudes of experiments involving the recycling of past and future eras within the 3D realm recycling of past and future, the Script Writers have managed to create "*Temporal Time Wars*." An example of this took place at sea during the 1994 *Queen's Birthday* during an Auckland to Tonga regatta: The *Marine Weather Service* in Wellington New Zealand started receiving *Emergency Radio Beacon* (EPIRB) signals for rescue alerts sometime after midnight. They became confused because their sophisticated sensory equipment didn't show any storm activity around the areas of the EPIRB's! Finally, they felt compelled to send an Orion rescue plane to check out the baffling situation.

The Orion crew reported there was no storm activity and that they were flying under "balmy blue skies" with a heavy cloud cover beneath them. However, when they dropped down below the clouds towards the first EPIRB alert, to their shock they almost lost the large aircraft. They were met by *Force 11* gale winds and stacking seas up to 100 feet that created startling barometric pressures against the plane! Hence, the confounded meteorologist called the storm a "Squash Bomb." "Strange flashes of light and apparitions" were declared by many of the yachts caught in their battle. Unexplainable "voices were heard" by crew members that said they were terrified by them.

Unknown to the public domain, there are diverse technologies and crafts designed to aid the consciousness of a pilot traversing event-timelines allowing them to experience different virtual-timeline paradoxes! The Script Writers have been aware of this phenomenon for many years, 33 degree Freemason H.G. Wells wrote a film called "*The Time Machine*" in 1960. Script Writers use the film industry as one of their main tools to *enhance* hypostatization and hide reality behind new and forthcoming technologies.

**"The truth shall be hidden right in front of their faces, so close they will not be able to see on it until it's too late." -Unknown**

There are areas in the matrix that contain regions coined as *portals* or *doorways* and thought to be entry/exit points to different event timelines, which are viewed as *other worlds*. The *Bermuda Triangle*; the *Black Mountains* in northern Australia; a *triangular body of ocean* located south of and between Fiji & Vanuatu; the *North Pole*; the *Gulf of Aden* around Jiloh and areas in *Iraq*, *Tibet* and *Antarctica* are known to have these "*Portals*." Some individuals claim or feel they have fallen through the cracks of a past or future timeline. Déjà vu, reincarnation, biblical revelations, apocalypses, and mythologies are variable accounts that testify to *Temporal Paradoxes*." There have been numerous accounts of these crossovers.

**RECALIBRATING TIME:** Attempting to unscramble event-timelines between this matrix and the above matrices is fundamentally impossible because time here is recycling clockwise, which is backwards to the anticlockwise spiral of the 4D matrices. {Ra} A trio of theoretical physicists from *Oxford & New Brunswick Universities*, along with *The Perimeter Institute for Theoretical Physics* are all in agreement that "*this universe is moving clockwise while a parallel universe just above it is moving anti-clockwise.*"

The *Roman Catholic Church*, the most powerful agent for the Demiurge, set a new timeline by creating a new world calendar starting on **AD 1**. It was created to commence time moving forward towards the *New World Order* and *Matrix*.

**“Listen, I tell you a mystery: We will not all sleep, but we will all be changed—in a flash, in the twinkling of an eye..., the dead will be raised imperishable, and we will be changed.” –1 Corinthians 15:51-2**

Pope Emeritus Benedict XVI wrote a book in which he claimed the entire Christian calendar was based on miscalculations and for many centuries *The Church* controlled *all* education throughout Europe. Only *their* clergymen and the *Nobles* were originally taught to read, write and learn mathematics. They actively suppressed all forms of secular education in order to maintain complete control and power over their parishioners. When they opened education to them, they intentionally taught false historical concepts that would sustain their covert agendas.

**YESTERYEAR – YESTERDAY:** The Script Writers claim the world’s ice age ended around 12,000 years ago and started the Holocene Era. (*Holo*-Scene!) When the ice melted, the seas rose over 120 m (390 ft.) and created massive landscape changes due to vast areas of flooding. The Script Writers will never tell the truth about what caused the ice age and the *Holocene* era. {Ra} They claim to know facts dating millions of years back; however cannot give one straightforward explanation for all the advanced artefacts; pyramids; technologically, ritual tools or the unparalleled architectural ruins blatantly seen around the world! They choose to ignore ancient glyphs, reliefs, myths, legends and “Ground Zero” proof that ancient wars used advanced “*Weapons of Mass Destruction*”; and yet they use their ancient locations!

**VAPOURS:** “The *vapours ascend from the ends of the earth.*” –Psalm 135:7 “Praise the heavens and the waters that be above the heaven”–*Psalms 148:4*

Molecular particles contained in sound rise and spread in the same fashion as water evaporation. Many vaulted archways, steeples and spires were designed and built on grid nodes in order to transmit sound (frequency) up into the astral planes through ancient temples and churches. The following are lyrics from a song that was recently played during celebration of the *Black Pope*’s christening as the new *White Pope*: “**Open the Steeple and see all the people Raising their voices to that which is above the Spires...**”

### **Vapours from the Past Rise on Smokey Blood Stained Glass**

**KNOW THYSELF:** “Know Thyself” –Delphic Apollo Temple

There are myriads of entities sharing the whole of this matrix from past long-gone DNA experiments; however only a *comparable* few share the material aspect of it versus the astral planes. DNA technology was lost during the last *Great Deluge*, but was rediscovered in the early 1900’s and by 1911 it was being resumed in underground research facilities! All life forms become part of the *collective memory* in the matrix, *which* is now stored on the astral planes. One group belongs to souls that have a genuine link to the original Avatāranas and Plasmate’s DNA passed down from the upper 4D world, but there are also other species created from the unsavoury DNA experiments such as the dreadful warrior classes. Lamentably, many of these *giants* became part of this 3D matrix after the upper world was destroyed. {Ra} They were set loose upon the earth during the aftermath and they raped, devoured and slew the homosapiens, and each other, along with everything else that could move or walk.

**“And lawlessness increased on the earth and all flesh was corrupted..., and every imagination of the thoughts of all men was thus evil continually.” –Book of Jubilee**

Their DNA is also remains a part of the *new species* called Human Beings spread around this matrix. The Vatican *Jesuit* assemblages are the strongest Faction behind the “*New World Order*”;

nevertheless there are many within the *ranks* of Rabbis, Muslim leaders and Prophets that also belong to the *Demiurge's* "chosen people."

**"You are my chosen people, a royal priesthood and a Holy Nation (the Vatican) of my own people."** -1 Peter 2:9. **"Not everyone who calls out, 'LORD, LORD' will enter the Kingdom of Heaven. Only those who serve the Will of the *Father* shall enter the kingdom of heaven."**  
-Matthew 7:21

The lower astral planes have pockets engulfed with 3D lifeforms from *DNA experiments* continued here during restored advanced civilizations timelines and Egypt was one of them. Some of the earliest creations that became trapped on the astral planes were highly intelligent and maintained their technological memories. They were able to refashion *Vimanas* and other advanced technologies that allowed them access into this world where they have covertly intertwined themselves in human affairs over the Ages. Mummification, also a lost technological art, connected the ancient upper Echelons in this world simultaneously to the astral world after body expiration. This is why the Royals went to sooo much trouble to hide their burial chambers. There were very *real* curses put in place that could manifest upon those who interfered with them and no one has a clue about the destructive effects archaeologist have had on these buried entities! There are also soulless humanoid looking minions that abound on the lower astral planes that have been able to gain *temporary* access here. They are known by many equivalent names such as fays, leprechauns, gnomes, elfin, imps, sprites and gremlins. All earlier cultures have legends and fears involving these entities and the netherworlds they were believed to appear from. There are no restrictions limiting physical form to change on the astral planes, which many now believe is possible here and has been coined "*shape-shifting*" or a "*shape shifter*." Shaman's cave art drawings ubiquitously testify that they were capable of having this experience. There are conspiracy theories that some entities here have this ability; however nothing is physically shape shifting! These entities are illusionists that know how to affect the perceptions of others for their appearance.

Many souls are being kept in *captivity* to sustain the *new revised matrix programs* and the *hierarchy* in the neo-heavens: **"I am creating new heavens and a new earth; all former things shall not be remembered, nor will they come to mind."** -Isaiah 65:17

These are promised to the "*chosen people*" written in the *Demiurges DNA Book of Life* and those who are loyal or succumb to the will of the LORD-God and His *hierarchy*:

**"And whosoever is not found written in the *Book of Life*, will be cast into the lake of fire."**  
-Revelations 20:15

**TRANSHUMANISM: "The development of full artificial intelligence could spell the end of the human race" -Professor Stephen Hawking**

Transhumanist's have developed microchips they claim will enhance the body and mind; however conversely they in reality are designed to hardwire recipients into the matrix mainframe. {Ra} They have started *covertly* microchipping newborns without parental knowledge within many hospitals, whilst others *ignorantly* microchip their children. The day is fast approaching when it will no longer be voluntary along with vaccinations containing nano-technology to intensify the "G5" microwave agenda. {Ra}

**"At the door of life by the gate of breath, there are worse things waiting for men than death!" -Algernon Charles Swinburne, Aristocrat**

Spontaneous consciousness cannot be reproduced in nonhuman mechanisms via data processing; the only possibility is to insert an inorganic data processor into an embryo or new born. This along with *modified* DNA will successfully program the recipients and new generations until expiry dates.

**"During those days people will seek death but will not find it; they will long to die, but death will elude them."** -Revelations 9:6

“*Technological Singularity*” is the nomenclature for the process of designing “Artificial Intelligence” –A.I.; however it is a veil over a very different agenda. *It was never intended to make a robot with humanlike intelligence, but to take human intelligence and turn it into a living robot!*

**“The world is a dangerous place to live; not because of the people who are evil, But because of the people who don't do anything about it.” –Albert Einstein**

Until the Script Writers finish their transhumanization agenda, *freewill* will remain a threat. When the program is finished, those left will become mindless servants and living sex toys for their masters. They will be permanently cut off from free will, free thinking, intuition, and imagination and more damagingly, from spirit.

**“It is better to go to defeat with Free Will than to live as a meaningless cog in a machine.” –Isaac Asimov**

Enhanced humans, via implanted mechanisms, were written about in Greek mythos during the middle Ages. Both referred to “*the human brain becoming a permanent fixture*” with, “*there will be remarkably enhanced intellects that will surpass known physical abilities.*” Soulless cloned super-soldiers have already been deployed throughout covert campaigns here and in past and future event timelines. There are several programs being experimented with, but the most recognisable one is the *Mars Program*.

**OPPOSITES & FREQUENCY:** “**Inside of me there are two dogs. One of the dogs is mean and evil. The other dog is good. The mean dog fights the good dog all the time. I asked, which dog wins, he reflected for a moment and replied, “The one I feed the most.” – George Bernard Shaw**

Everything has a fundamental frequency that applies to a resonance factor within *everything* seen and unseen! The human race has its own collective magnetic-electro-field; its own “*fundamental frequency.*” However, each individual’s personal “*signature frequency*” adds to the whole and can tip the scale to the positive or the negative. Over the ages, the collective’s *fundamental frequency* has been sinking towards the “negative” on an accelerating scale. Much of it is due to powerful psychoactive symbols and negative programing. One of the most powerful is the “V” symbol, which is alphabetically represented by the letter ‘V’, which is digitally the #22. It stands for world change, which is why it was used for the Obama’s campaign slogan! In Hebrew ‘V’ means “Nail or Hook”, which is a secret code involved in satanic occults. All of the NAZI high command had to wear ‘V’ patches on their uniforms and soldiers were *required* to use it as a hand sign. Churchill was a Freemason and a ‘witch in Druidism’. He gave this occult hand signal in almost every photo ever taken of him. You have been led to believe it is a political sign for peace and victory, but in reality it is one of the most *powerful psychoactive* symbols used against your consciousness!

In Masonic and Gnostic theology ‘V’ represents the ‘*Law of Opposites*’; both sides point towards heaven. It represents a polarized clash of *Wills* that delivers two opposing ideologies: “*selfless service to others*” via acknowledgment of the intrinsic connection of all things being equal within the *One Divine Source*. OR, that “*self-serving*” is the acknowledgement of the *Divine Source* within. These two opposing ideologies became the foundational concept of “*separation*”; “*good vs. evil*” and “*love vs hate*”; all depending on which ideology is followed. They are basically opposites of the same coin!

It is important to understand how myths became the foundation of *opposites* and the great theological deception. Philosophers characterized the term *positive* by one's response and movement *towards* the stimulus of light and *negativity* by one who shuns or turns away from the stimulus of light. The Script Writers modelled *opposites* after the astronomical *rivalry* between the twins *Castor* and *Pollux*. This was recreated in the pantheons of the gods and their rivalling children: the Annunaki had Enki and Enlil; the Greeks had Zeus and Poseidon; the Egyptians had Osiris and Set; the Romans had Romulus and Remus; and the Old Testament has Cain and Abel; all are equivalent to the *Castor and Pollux Gemini Zodiac myth!* When the creator gods split the male and female chromosomes, they also split the homosapiens brain into *opposite hemispheres*. (At the very least, it is time to wake up and return to a *whole brain* within a *unified collective whole!*)

Aggregations of personal frequencies are strongest during the formative years, which is why Script Writers take control of children's minds at such a young age. They hide harmful subliminals in cartoons, toys, videos, music and movies. They drive them towards inappropriate *sensual* behavioural patterns in styles and mannerisms! All of it has deep effects on their personal psychology and lower chakra development, which is why the *Jesuit* Francis Xavier said:

**"Give me a child until he is seven and I will give you the man!" –St. Francis**

It all starts with the *educational system* where young minds are taken out of Nature's frequencies and placed in front of a digital screen called a *babysitter*. Then they move on to *school* for seven hours a day, five days a week for *re-education*. Their minds are fed theories that have become outdated *pseudo "scientific laws"* that for the most part have *never been proven*; yet they grow up believing they are true and reify them into their reality! Their intelligence is determined by a series of "*Intelligence Quotient*" (IQ) tests based on memory ability called *fluid intelligence*.

Many highly intelligent children have no interest in the tedious antiquated education systems and have become stifled with boredom! Others who may not have long term memory capabilities or have subjective rejection to fruitless information are looked down on as having lower intelligence or *ADD, Attention Deficit Disorder*. Symptoms of *boredom* include "noninterest, limited attention and hyperactivity!" Script Writers have taken millions of dollars from families by putting these children on harmful drugs that further dumb them down and have eventuated in addiction, therapy, serious illness and even death. In some areas, the use of these drugs is mandatory and school nurses can medicate children without parental permission!

**There is no lasting fulfilment for the closed minded  
All is Vain and Vacant  
When they expire they will come face to face  
With their own Self-Delusions**

**SUICIDE: "People will seek death but will not find it; they will long to die, but death will flee from them." –Revelations 9:6**

Today, many see suicide as a way to escape pain, depression and suffering. It has been on the increase. Accurate suicide statistics are impossible to gauge correctly due to unreported cases and various countries refusing to give out data. However, the *World Health Organization* statistics show the limited statistics as a person taking their own life every 40 seconds! Near Death Experiencer's (NDE), report their lives flashed before them at the moment of expiration. This has a swooning affect due to the brain releasing its entire arsenal of stored neuro-memory patterns that in a nanosecond flash as visuals within the theatre of the forebrain. It is the emotional vibration evoked from these released memory patterns along with what you have sown in your heart and soul that will determine your ongoing fate or destiny!

**"As men think, so are they, both here and hereafter, thoughts being things, the parents of all actions, good and bad alike; and, as the sowing has been, so will the harvest will be." -Lama Kazi Dawa Samdup (1868-1923)**

The heart carries your *signature frequencies* that are the concentrated waveforms for your "*Power of Attraction*" now and in the afterlife. Spiritually based cultures have interwoven teaching of what takes place in the afterlife upon the death experience. They were orally passed down from prehistorical eras and then committed to secret texts. Most original versions came from Hindu Holy Men, Native Indian Shamans and High Priest. Most used similar methods to experience the 'spirit world' via the use of psychoactive plants and shrooms. Psychoactive plants have been used since the beginning of this matrix to allow consciousness to move through and experience the 'astral planes'. {Ra} However, the original teachings have been sifted by *myriads* of succeeding teachers, all with their own additions, experiences and interpretations. Due to this, there has been a growing separation in *thought* and *versions* about the processes involved in the after death experience and the instructions set forth by varying sects.

In all humility, I must say there is a great difference between "waking up" and getting out of this theatre and the continuation of the dream process on an astral spirit world level within this matrix! No teacher, that I am aware of, has ever made this distinction, which may make it hard for some to accept unless they have an innate wisdom. The confusion is easily understood when one understands that the very nature of everything is formed out of "Consciousness!" Whatever our consciousness is focused on at the time of physical expiration; whatever you have been taught to believe in will *continue* on through the death experience! This is why I warn against following any *specific* Religions, Buddha's, or Gurus, for you will *serve them* in the astral kingdoms. Most experience apparitions they believe to be their genuine family members, loved ones, guru, Jesus Christ or on the contrary demons, hells and punishments for their sins. All of it, no matter how beautiful or horrendous is taking place within the intellect of the passed over soul! Without this knowledge many fall victim and become either trapped on the astral planes or reincarnated back into the matrix.

After *waking-up from the program* is the time to seek spiritual guidance! Antediluvian beliefs in eternal hell and torture have been waning outside of Christianity. Our fate, whether positive or negative, is *carried over* into the afterlife by our own consciousness. Whatever we *seed*, we shall *sow*, which even affect our consciousness upon "waking up!" The 'Spirit World and Karma are "reflective mirrors" of our own consciousness. Karma is dependent on the heart because it is the true "Seat of the Soul", whether in a program or not. All of it takes place within our individual consciousness, which mirrors our deepest seated feelings of love, fear, compassion, guilt, piety, aggression, etc. Everything is created out of consciousness; there is *no* death, only delusional ignorance! When your body expires your consciousness is "free" to *hyper-manifest* whatever is in your mind, imagination and feeling world in the moment!!! This is why the sagacious prepare their minds for this transference. The greatest concern in taking one's own life is the state of mind at the time of the event; the more fervent one feels about something, the more they will attract resonating manifestations! Dismal states will attract undesirable reflective astral environments and possibly *unwelcomed menaces* instead of the desired escape. This has actually been recorded by those who failed in their suicide attempts and had a NDE.

**Most are trapped in the darkness of Mental Delusions  
Denying their own Eternal Absoluteness  
Whilst ignorantly following the Path of Illusions**

Hinduism teaches suicide can trap a soul back into harsh and *extremely difficult* reincarnations. Countless have become trapped in an illusion of mental darkness, denying their own eternal absoluteness and that this is an illusion. Scientific minds now have created a '*quantum immortality theory*' supporting the "*immortality of the soul as possible*."

**"Wake up O sleepers, rise up from the dead and let the Light shine on you." -Eph 5:14**

Mercy and forgiveness for one's self and all others is the prerequisite to awakening on whatever path you choose. You are not the total sum of your experiences, for you are being lied to and manipulated. You are not corporeal flesh; you are not a sinner; you *are* the *Light of this World in all your positivity and negativity!* Whatever is written in your heart, at the time of *transference*, will determine your next experience whether positive or negative, thus wouldn't it just be more prudent to "wake-up?"

**The body be but a brief cloak the Soul is wrapped in  
The gift is not the wrapping, But that which lays Hidden Within**

**HYPOTHESIS, THEORY, LAW:** The *Mind Body Hypothesis* says that the mind interacts with processes outside of physical space-time, but within a co-creative method. The *Creation Hypothesis* says that physical space-time, with everything in it, was created by Beings outside of what we experience as physical space-time. Third dimensional reality is based on the brain's intellectual abilities, comparables and duality and performs much like a computer. Hypotheses, theories and laws are methods scientists use for explaining the phenomenon of matter, time, space, stars, planets and light. The main difference between hypothesis and theory is the amount of detailed explanation given it.

A theory only becomes a scientific *law* when the observed phenomenon becomes a *unified concept* that no one can figure out. The term 'law' is given exceptions when the word 'scientific' is placed before it, which allows for further proof to be right or wrong over time. *However*, the term 'law' has an indisputable controlling influence over the mind. The 16<sup>th</sup> century *Newtonian 'Law of Gravity'* became a scientific law that was taught for the last 500 years even after they knew it was nonsense. This goes to prove how false fabricated realities can be placed within susceptible minds to misdirect them. *Albert Einstein* dispelled Newton's theory with his "Theory of Relativity" and "Quantum Theory" confounded Einstein's theory. Einstein's "*Speed of Light*" theory was dispelled with a new theory on the "*Superluminal Speed of Wave Particles.*" Now we have a collective group who think they have found the "Holy Grail of Physics": "*The Theory of Everything.*"

Since science no longer comes under the iron fist of the *Catholic Church's* erroneous self-serving hypothesis, most theories are now based on computer *mathematical models*. Due to the advent of computer models, scientific knowledge is statistically doubling every 12 hours; yet we are still in muddy waters owing to other factions of self-serving Script Writers! There are "*Correspondence; Coherence; Constructive; Pragmatic and Minimalist*" theories now that confound the minds of young students. Science is based on all things *external*, but true Gnosis can only be obtained from within! The ancients understood this long before religion and Script Writers took control. This is why the ancients were so advanced; this is what set them apart from our deteriorating minds and required re-education.

**For now we see our reflection in a mirror so darkly  
All we know is partial and incomplete  
When we open our minds and hearts  
We shall know our Truth complete!**

## Piercing the veil of unawareness

### 5<sup>th</sup> Elucidations: Rising Out of the Bowels of Ignorance

The Human Brain p.49 – Astral Shared Dreaming p.50 – Imagination p.50 – Hypnosis p.51 – Mesmerisation p.52 – Psychoactive Symbols p.52 – Collective Entrainment p.53 – The Shroom that Grew p.54 – All Seeing Eye p.55 – Epiphysis Cerebri Alchemy p.56 – Melatonin p.56 – Serotonin p.56 – Tryptophan p.56 – Dopamine p.56 – Crystal Brain p.57 – Natural DMT p.57 – Sacrament of Blood p.58 – Tejas p.58 – Sacrifice of the Lamb p.59 – Animism p.60

**THE HUMAN BRAIN: “The greatest enemy of knowledge is not ignorance; it is the illusion of knowledge.” –Daniel J. Boorstin**

The brain has a trillion moving parts; scientists *compare* it to a computer; however this equates to only a little understanding and even less about consciousness itself. The human brain is incapable of generating any completely original thought outside of its accumulated stored information. It is *not* the source of intuition, psychic abilities, empathy, telepathy, or precognition. It is *incapable* of compassion or authentic *feelings outside of stored emotional patterns.* There’s a vast difference between genuine feelings and emotional stored stimuli, which is constantly conflicted by dissonance and opposites! The mechanistic interpretation of the brain has led to one scientific agreement: There is *no absolute scientific definition* that can be assigned to *Consciousness!* Like the proverbial fish searching for water, what scientists seek is no more than a sequin mirrored reflection of their selves!

**Consciousness is the toughest substance in the Universe  
The only way to cut through it is with Consciousness!**

We live in a world of endless information; our brains are constantly uploading streams of sensory and *subliminal* input. The brain receives up to 200 frames per second, correlates and associates it with stored data at 2500 frames *per second* that becomes optical cognizant *output.* All of this is what translates into the perceptions that *form the world.* All images, we see, feel, taste, touch, and smell, come from the *effect* of light particles being transformed into electrical signals that the brain interprets into material form. To put it simply, “there’s nothing out there; what we *think* we see is subjective observations; there is no objective reality independent from our minds. All laws of physics are simply laws of digits and light experienced within our own consciousness.”

**The human brain is by design an extremely complex Digital Decoder**

At conception the brain is a blank scratch pad that life starts scribbling on and becomes the blueprint for illusions. If the brain doesn’t have a stored record of something *being observed,* even if it is right in front of it, the object simply won’t appear to the observer. Ancient healers understood the heart was a *thinking organ* that has *its own form of intelligence* which is *more perceptive* than the brain.

**“Behold, you delight in the truth within your inward being when you learn wisdom through the secret heart.” –Psalm 51:6**

**The Heart’s Prescription for Life has the Side Effects of Wisdom and Joy  
The Brain’s Prescription for life has Side Effects of Fear and Death!**

It is a well-known fact the human race has been evolving technologically whilst drastically *de-evolving* spiritually. Indeed, technology has become the new theology for souls lost in materialism.

**“Technology is a useful servant but a dangerous master.” –Christian L. Lange**

Dreaming has specific effects on neuro-phenomenology; we *are constantly* dream streaming 24/7 even when believing we are awake.

**“Ever drifting down the stream..., Life is but a dream!” –Charles Dodgson, Jesuit/Freemason (pen name, Lewis Carroll)**

It isn't happenstance the term *dream* is *continuously* being expressed. Ask yourself, “If I am dreaming, who and where is the dreamer?”

**Sweet Dreams – Live the Dream – Day Dream – Dare to Dream – Pipe Dream –  
American Dream – Dream House, Dream Car, Dream Mate, Dream career  
Drrreeeaaamm!!**

**Most of the Human Race is Asleep at the Wheel  
Whilst missing out on the Real Deal!**

**ASTRAL SHARED DREAMING:** Astral travel has been practiced since antiquity; Shamans call it “*Soul-Flight*.” Russian and U.S. Military “*Psy-op*” groups have been practicing it since the early sixties for more *sinister* reasons. Powerful psychic drugs are used to induce astral-projection where *lucid-dreaming* can be shared with another person. There they can practice killing techniques, repair torn and broken bodies and then be awakened, shaken but unharmed. These techniques are used in unconventional training to *harden* combatants. Governments also use this level of astral travel to spy on each other and discover information and secrets because it is more effective than remote viewing.

**You cannot fight evil without becoming evil! But, you can Rise Above!**

**IMAGINATION: Imagination + Vividness = Reality**

**“Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand.” –Albert Einstein**

The above is one of the most vital equations you will ever need to comprehend. Use your *imagination* to envision *observing* a program or a play where the world is the stage. We are the players, our DNA carries the script and our transgenerational memories create the settings. When you close your eyes, nothing is out there besides countless particles of fuzzy-phonic light-waves dancing to the tune of different frequencies. Now come to the realization that you can rearrange these light-particles into a new script by dismantling the old one.

**“For verily I say unto you, that whosoever shall say unto a mountain, Be thou removed, and be thou cast into the sea; and shall not doubt, but believe those things which he saith, it shall come to pass.”  
–Mark 11:23**

The primal power behind imagination is the *seat of hypostatization*; everything you are experiencing here is being hypostatized out of *your imagination*. This is why the Script Writers do everything they can to redirect you and your children's imagination via fear, sensuality,

materialism, music and films. It is a proven fact that when the brain is subjected to a virtual-program (VTR) it cannot differentiate between the program and reality! Pornography, violence, fantasy, escapism and sex are the new *catch* words to entice people to purchase new programs and that keep people locked into this one!

There are those that *intellectually* believe they are caught in a virtually-controlled program, but few have *emotionally* accepted it or that it is manifesting out of *their own imagination*. The brain and senses cannot *discern* between the dream and reality; let alone *where reality is!* When you look around at the majestic mountains, valleys, streams surrounding you, smell the air, and feel the sun on your face, it all seems sooo real! This is what your nervous system and senses are telling you! Script Writers intentionally corrupt the greatest power you and your children have: **Imagination!** They do it via what you call “entertainment”: television; social media; films; videos; cartoons, music and the media. They aptly coin these techniques, “*Zombie Technology!*” Who needs to use their imagination when all one need do is flip a switch and become mindless.

**“Imagination is stronger than knowledge  
Myth is more potent than history  
Dreams are more powerful than facts  
Love is stronger than death”**  
–Robert Fulghum

When imagination becomes single focused with intent and dedication, it has the power to change reality and set you free from being a perpetual victim within a virtual-theatre. Your imagination is the greatest power that keeps you locked into the program, but it is also the greatest power that can help release you from it with the correct input! There may be great wisdom in developing visualizations and affirmation techniques; however as long as these tools are focused on improving, mending, or transforming this *quasi-world*, you will remain in and *attached* to it.

**Imagination holds a Secret Influence that can reset your Fate  
When Ignored, Others set it for you!**

Quantum Physic experiments show that when an object is being observed by a focused group who are in synchronistic agreement, an object will change to match their perception. That alone is a major clue as to how this pseudo-reality is being created: we are the observers in a program. This answers the questions why visualization and affirmations are so powerful; we are experiencing a world where all objects change their waveform to match our *programmed expectations* into predetermined anticipations. The repetition of an *implanted idea*, with just a *small percentage of truth*, can capture the imagination and become an established reality. The Script Writers recognise that the *bigger the lie, when used repetitiously, the more the naïve will believe it because they cannot conceive otherwise!* E.g.: Obama’s campaign was based on “Hope & Change” repetitiously used over and over and over and over! We did get change, *more negativity*.

**“Everything you see on earth is made from one original substance, out of which all things proceed. Man can form things in his thought and by impressing his thought upon formless substance, can cause the thing he thinks about to be created.” –Wallace D. Wattles**

**HYPNOSIS:** The term hypostatize is a derivative of the term hypnosis, both operate upon the intermediate part of consciousness *between* awareness and the subconscious state of mind. It also has a strong effect on a person’s connection to their astral body functions, which is the reincarnating organism within their consciousness. Sigmund Freud coined *problematic* erupting memories as a person’s “*Id*” and compartmentalized them into 3 parts: *Ego*, *Super-Ego* and *Id*. Some people have experienced resurfacing deep seated memories from past lives while under

hypnosis; known as anamnesis. This surfacing can be daunting or incompatible with whom one believes oneself to be.

Hypnosis is an induced trance state that makes one *susceptible to suggestion* being placed directly into their subconscious mind. Whilst in a state of hypnosis, most people lose their *self-awareness* and become highly susceptible to outside suggestions and influences that can either be helpful or upsetting.

**“A layman will no doubt find it hard to understand how *pathological disorders of the body and mind* can be eliminated by ‘mere’ words. He will feel he is being asked to believe in magic.”**

**–Sigmund Freud**

**MESMERISATION:** Mesmerisation is linked to hypnosis; however it is based on the mesmeric influences of *life forces* and *pranic forces* that carry Thought Energy and Will. These forces, whether positive or negative can be transferred from one person to another. This is why it is so important to know the nature of the person they are merging forces with via sexual encounters, massages or hands on therapy, and psychic reading!

Mesmerisation can be technologically induced and used to take over and control the psychic force of one’s mind through disrupting their psychic-constitutions and redirecting their Thoughts and Will. This is nothing short of an immoral and evil invasion of one’s most sacred birth right. Everyone has levels of susceptibility to sorcerers because they work on subjective imaginations. The only difference between *black magic* and *white magic* is the intent and content of *thought* being projected by the magician. Everything seen and unseen is interconnected by waveforms of energy carrying thought. All true magicians know the *forces* within these energies can be manipulated via thought and conjuring. Magick is a manipulative tool within illusionism. By using your Will and imagination to uphold higher virtues and not allow the mind to entertain negativity, you can literally change your personal fate.

**PSYCHOACTIVE SYMBOLS:** **“When the human race learns to read the language of symbolism, a great veil will fall from their eyes and they shall then know the Truth and they shall realize that from the beginning Truth has been in the world unrecognized save by a small but gradually increasing number.” –Manly Palmer Hall Meme**

Everything carries a vibrational pattern that can be quantified through the use of numbers. Letters are merely numbers; a=1, b=2 etc., but with underestimated powers. Shapes, *angles* and symbols have the power to change perceptions! Symbols have the power to affect and rearrange

your subjective thinking, which is why most Elite corporations use them as a form of *ritual magick* and call them “*Corporate (666) Logos!*” Some corporate logos are so powerful that they have

become a more valuable commodity than the company’s entire physical assets! *Geomancy* is another mesmerizing power in the form of shapes and angles placed on precise locations over the top of a *grid node on a ley line*. These locations and their structures have *specific vibrational powers* that affect the mind. These locations are being used for ceremonial magic, witchcraft and black magick!

Cuneiforms; Egyptian Hieroglyphics, Indo-Aryan Sanskrit; Mayan Glyphs and Eastern Asian Hànzì were so sophisticated it took years for contemporary linguists to decipher them because their brains are more diminished. These sophisticated symbols were reduced to digits and letters that further minimalized the intellect. When Script Writers discovered this, they shrewdly created *Social Media* in order to even further dumb down the commoners brain capacity. Asian forms of writing and single monosyllabic words or morphemes may be the last of higher art forms in language. Today, symbols and the written word have become an invasive inexorably corruptive art, even more so than the spoken word. Words and terms can be interchanged by having polar or dualistic meanings for the same word. Words can be easily edited to destroy people’s lives. Religious texts, Media and Social Medias are perfect examples. Many religions and corporations have bastardized the meaning of the term *Logos* by using it for their personal agendas. Subliminal

images are designed to have influential effects on your subconscious mind via optical programming. Colour, light and patterns are used to create deceptive and misleading images that the brain automatically processes through neuro association and then stockpiles it as part of your reality. These are just a few examples:

Tree-Ape-Lion

Liar Profile

St George Cross  
& Man being devoured

Good-Black /Evil-White

When a word is misspelled, just like any *computer*, your brain will automatically rectify the mistake by associating it with whatever it has been programmed with. A good example is the word *live* when reversed spells "*evil*"; therefore the brain correlates the two words as having a *mutual relationship* in which they're one and the same thing. This is not by coincidence and is ubiquitous throughout languages. By becoming aware of this process you can protect your mind through discernment and choice!

**"Small is the number of them that see with their own eyes and feel with their own hearts." - Albert Einstein**

The cross was *originally* associated with astronomical and cosmological symbology. It represented the *cosmic axis mundi* between heaven and earth; the higher and lower realms until *The Church* demoted it to a guilt ridden religious symbol. All illustrations of agony carry a *subliminal deep fearful emotional charge in all ethnology*. The Greek Christianised symbol of *Chi* (X) and *Rho* (P) was originally a pagan emblem known in antiquity nearly 400 years before the Christian era. The *Pagan Roman Emperor Constantine* used it as his military symbol long before the Greeks changed its meaning to a *Christogram*. It translates into "*energy flow*" and "*life force*." In traditional Chinese philosophy and medicine it means "*breath*." The whole matrix is built out of ancient sacred power symbols and words that are now being corrupted in your minds.

**What was once thought to be *normal* is now a speck on the mirror of insanity**

**COLLECTIVE ENTRAINMENT: "There are souls which fall from heaven like flowers; but ere they bloom are crushed under the foul tread of some brutal hoof." -Jean Paul**

The Elite and the Demiurge's minions have been busy over the last century dampening down the population's intelligence via inoculations, social media, chemicals, drugs, chemtrails and *tedious* pseudo-educational systems for children. Contemporary statistics show over 50% of children are rejecting the nonsense being taught in schools and becoming harder to handle due to boredom! To counteract this, they deceptively diagnose children with "*Attention-Deficit-Hyper-Disorder*." *Specialized drugs* have been created to control these budding children until they are ready to solve the growing problem with implanted microchips and expiration.

**"It has become appallingly obvious that our technology has exceeded our humanity." -Albert Einstein**

*Social Media* was invented to keep the young apathetic and for various agencies to easily gather personal data. They create *bizarre* films, music and video games that set fear into the collective mind for future hypostatization. When enough people become harmonized in similar

vibrations it becomes part of the collective entrainment, whether positive or negative. These vibrations automatically start to oscillate and lock into phases of hypostatization. The Elite call followers, “Zombies”, when in fact we are all *sleepwalkers*.

“There is a fate reserved for those who betray the Emperor. It is not death. It is not life. It is when flesh and mind are taken into the body and organs are absorbed slowly into the flesh of a living machine!” “Only by the power of our hate will we truly shed the prison of our own flesh... Every foe I slay and every stone I cast down makes my hatred purer...” –Iron Hand

“There is life eternal within the *eater of souls*. Nobody is ever forgotten or allowed to rest in peace. They populate the *simulation spaces of the mind*, exploring all the possible alternative endings to escape their life.” –C. Stross

**THE SHROOM THAT GREW INTO A MIGHTY OAK TREE:** Vatican City is the smallest *country* in the world and sits on 109 acres. The Spanish Basque Ignatius of Loyola and Francis Xavier of Assisi cofounded the aggressive, radical, militant Jesuit *Order of Jesus Christ*. Many of their most brutal members were canonized as *saints* in *The Church*. The Vatican is an independent Tax Free State as are their global Churches that operate as an absolute monocratic government. The largest **pinecone** replica in the world, almost 4 metres high dominates the immediate approach to the Vatican Basilicas. Pinecones have always been the symbol for the *Epiphysis Cerebri*, the *pineal gland* due to its similar design.

The term “Vatican” is shrouded in mystery; its nomenclature comes from “Vaticinor”, which means “*Hill of Oracles*”; a clandestine phrase for the place where Soma and DMT flow! To date, the *Catholic Church* is the largest group of ‘sorcerers’ and occultist by definition in the world. Symbols adorning the Vatican, the Pope and all ranking members clearly expose their use of psychoactive drugs and strong connections to Paganism and Egyptology. *Amanita Muscaria*–Soma is a psychoactive basidiomycete fungus (Mushroom) used in initiations by *High Priests*; *Secret Societies*; *Shaman and Sorcerers* for millennia along with a bevy of other super psychotropic plants. Soma was naturally *distilled* by the lower orders within the Elite; they drank it first and the higher orders would drink their urine. This was done because it became more pure and powerful through this method. They have been proven to affect the pineal gland by opening the *third eye*, which broadens the visual light spectrum in order to have supernatural experiences. Soma is mythologically associated with the Moon and the ancient *Hindu Rigveda* claimed it created the most profound spiritual experience of *Light* one can attain. “*Haoma*” was the same basidiomycete fungus as Soma used by Zoroastrians.

“We have drunk Soma and become Immortal, we have attained the light, our forefathers discovered... Heaven above does not equal one half of me! I have passed beyond the earth and sky...” –Rigveda

Soma was the *Apple* of “Forbidden Fruit” in the Adam and Eve allegory. Catholic priests wear its image as a *mantle on their robes* and it is found on Church stained glass. Below, Soma is surrounding Adam and Eve and also seen sitting between the *priests* and *holy family*. In the last one, it may be why *Jesus is smiling*:

**“In the middle of the garden stood the tree of life and the tree of the knowledge of good and evil.” “Look, humans are becoming like one of us, knowing good and evil. They must not be allowed to reach out and take the fruit from the tree of life and eat it and learn they live forever.” –Gen2:9/3:22**

The “Tree of Life” is the spine where the kundalini, the serpent psychic electricity, spirals up from the coccyx, through the entire nervous system to the brain. The “Forbidden Fruit” was “Soma” and any other natural psychoactive substances that could open the third eye. “Forbidden Knowledge” was the enlightenment psychoactive substances can provide, which is why *The Church* proclaimed its use a sin that would attract demonic possession. Thus, its use went behind closed doors; *like attracts like* and many demonical and unnatural astral energies were set loose in the matrix; consequently *Soma* became known as the *Tree of Good and Evil*! Myriads of Clergymen, Priests and Bishops have blackened their brotherhood by becoming sexual predators and parasites on the innocent!

**It is time to denounce Demonic Forces  
And send them back to the Dark Asylums  
From whence they came!**

**ALL SEEING EYE:** The epiphysis cerebri is a small endocrine gland located in the epithalamiums, which lies in the midbrain between the left and right hemispheres. The epiphysis cerebri, or third eye in Hinduism, is associated with the “Eye of Shiva” and in Egyptology, the “Eye of Ra, Osiris and/or Horus.” The Hindu designates it as the “*Ajna Centre*” sitting between the eye brows. Many women wear jewelled or colourful bindi’s to identify and celebrate it. Upon the “*Great Seal of the United States*”, and on the back of a *U.S. dollar bill*, sits the sigil magick symbol from Pharaoh Akhenaten’s 18<sup>th</sup> Dynasty which represents the “*Eye of Aten*”; the clandestine monotheistic LORD Demiurge. This was morphed into the eye of Osiris and later Horus and has always been an occult symbol for the third eye.

**“The pineal gland is a link between the consciousness of man and the invisible worlds of Nature. Whenever the arc of the pituitary body contacts this gland there are flashes of temporary clairvoyance...” –Manly P. Hall**

The pineal is a powerful source of vital-energy with photoreceptor cells bearing a strong resemblance to the retinal cells in the eyes, which is why it is called the “third eye.” The iris acts as a torus lens that focuses on photonic-light at the cones of the retina where the optic nerve is connected to the pineal gland. The pineal interacts with the pituitary, which is *strongly* associated with *dreaming, astral projection, remote viewing, and visions*.

**“The light of the body is the eye: therefore if thy eye be single, thy whole body will be full of light” –Matthew 6:22**

The pineal reacts to ambient stimulations via the power of photo-synthesis that transforms digital light information into hormonal secretion of mood altering substances including serotonin and melatonin, a hormonal derivative of serotonin. The third-eye became sealed and diminished in the lower frequencies in this 3D matrix. *Psilocybin Funguses; Banisteriopsis caapi*, used to create *Ayahuasca; LSD; Mescaline Peyote*, along with other powerful hallucinogenic substances can open the third eye. Due to this, the Elite Script Writers made natural psychotropic plants illegal and replaced them with addictive chemical substances. This developed an illegal but highly lucrative narcotic industry for them to gain further wealth for their clandestine operations.

All chemical narcotics and most medical drugs have the effect of ultimately crystalizing and permanently sealing the third eye. Fluoride and other unnecessary chemicals are added to water and foodstuff along with inoculations and chemtrails to have the same effect. Some of this negatively affects the enzymatic conversion of tryptophan into serotonin and melatonin. This can

have the effect, especially in women, to compromise sleep patterns. These chemical additives are creating growing global *mental health* issues involving *bipolarism*, *depression*, *anxiety* and *paranoia*. After being tested, chemtrails were not only found high in brain damaging chemicals, but also nanotechnology that has a strong tie to mind control!

**“Cogito ergo sum” – “I think; therefore I am.”**

**“If you would be a real seeker after truth, it is necessary that at least once in your life you doubt, as far as possible, all things.” –René Descartes**

The homosapien pineal gland has shrunk to the size of a peanut and many other animal species now have higher pineal activity than the human race. Reptiles have the same shape and biological functions in their pineal as homosapiens. Dogs and cats have higher neurological connection to their pineal gland, especially *cats*.

**EPIPHYSIS CEREBRI ALCHEMY:** The pineal has multiple important functions due to its production of highly valuable and vital chemicals created within the brain and body:

**Melatonin** is a major pineal hormone secretion, which is why it is one of the most researched substances in the brain. Melatonin influences sexual development; sleep-wake cycles and has an anti-ageing effect along with being a strong antioxidant. Its production is known to be important in behavioural changes and in keeping the autoimmune system strong along with physical, mental energy and stamina. It also affects our *higher awareness* and *psychic* abilities.

The pineal's production of melatonin varies with age and is much higher in children under seven years than in adolescents after sexual maturation and further lowers with aging adults. Melatonin produces more rapidly when an individual sleeps in a darkened room, hence the meaning for the term melatonin for "night worker." Production of melatonin increases when in darkness for sustained periods of time. Prisoners placed in solitary confinement in darkness for sustained periods of time had horrifying inexplicable experiences of seeing demonic astral forms in their minds eye owing to their own low grade spirit being opened to pineal activation.

One of the most important chemicals the brain produces is melatonin. The ancients ground up mummy parts and ate them for medicinal and occult practices. Secret societies, such as "*Skull and Bone Society*" are also known to practice the eating of pineal glands during their "*Obscene Rite*" ceremony. Over the counter supplements are ineffective because their inherent secretions are obtained from desiccated glands of dead animals and lack the important elements found in the human glandular. The brain along with the retinas, bone marrow, and various white blood cells create melatonin from serotonin in the human body.

**Serotonin** is a derivative hormone from Tryptophan, which is a neurotransmitter with many vital functions that regulate moods. It can also enhance memory and meditational experiences. Serotonin secretions heightened the sympathetic nervous system when stimulated by an emergency or crisis. This is the chemical that produces immediate responses, such as "fight or flight"; a physiological reaction that occurs in response to attack, or a threat to one's survival.

**Tryptophan** is the key ingredient in making serotonin and without it serotonin cannot be produced in the brain. Tryptophan can only be acquired by digesting it because it no longer has any natural derivatives within the body. {Ra} Nuts, seeds, cheese, oats, beans, and lentils are high in tryptophan and a more beneficial choice than red meat, turkey and chicken if you are on a spiritual path.

**Dopamine** is a highly desirable neurotransmitter that controls communication in the brain and is the master of addictions! The Script Writers know this and fashion violent video games because it increases dopamine in the player's brain, which in turn creates an addiction for such games. In the U.S. alone, studies show that over 3.5 million people between the ages of 8 and 18 suffer from video game addictions. Japan, South Korea, and some European countries also have exponentially growing numbers of VR game addicts. Dopamine is an original antioxidant that controls the *brain's pleasure centres and reward-motivated behaviours*, which is why video and gambling centres, such as Las Vegas increase their success by keeping the gaming areas as dark as possible.

Dopamine receptors are highly increased within people who seek sensational pleasure through sexual exploration and others that get high by taking risks. Dopamine is high in diets that include flesh foods because they have higher dopamine precursors than vegetables, especially chicken and pork. Marijuana, Magic Mushrooms, Alcohol, Heroin, Opiates, Caffeine, LSD etc. cause brain cells to release dopamine, which has become known as *the feel good chemical*. Children who have high amounts of dopamine in their diets will become more sexually active at a younger age than those who do not eat flesh foods. All avatāranas were vegetarians prior to their hybridism and the higher and purer the Script Writer's bloodline, the more likely they are to be vegetarians. The Elite clearly understand the degenerative frequencies dead animals have on lowering their psychic abilities. Flesh foods have a strong effect on dumbing down consumers and make them *more aggressive*.

**CRYSTAL BRAIN:** The structure of the pineal gland is composed of *Apatite Crystals* similar to those found in wireless receiving transmitters with numerous electron interactions within electromagnetic fields. The more crystals an individual has activated, the more potential for increasing pineal activity. Working in concert with melatonin, they increase the facility for receiving and transmitting high-frequency celestial transmissions. This little gland was originally designed as a cosmic antenna to interact as an intra-dimensional component for the avatāranas between the various virtual-worlds.

Natural psychic enhancing chemicals are automatically activated in the brain when it is placed in total darkness. This is why prehistory Shaman activity is shown in dark caverns with cave wall art and sanctuaries were built under temples to facilitate these paranormal activities. Commoners built small windowless stone huts to help them achieve these otherworldly connections. These enigmatic tiny windowless stone huts can still be found on most continents. Secretions increase soon after being placed in the dark and decrease immediately upon exposure to light. Using substances may be one way of gaining supernatural knowledge; however for the unprepared mind, it can also open terrible dark corridors within the subconscious via fear and the power of negative attraction!

**NATURAL DMT:** The pineal gland in conjunction with DNA originally acted like a gateway, similar to a wormhole within the 4D matrices; it was the gateway into multidimensional matrices. The pineal gland manufactures Di-Methyl Tryptamine–DMT in the brain, as do specific other natural plants that strongly facilitate the opening of third eye functions for interdimensional experiences. DMT is automatically released *in the blink of an eye* during body expiration, which separates the soul from the material plane. Via *self-determination*, whether you are aware of it or not, you will be transferred to an *intermediate astral plane* or *wake up*.

**“The lamp of the body is the eye: if therefore thine eye be single, thy whole body shall be full of light.” –Matthew 6:22**

During this event, most plasmates will follow the cord's light by rolling their eyes up and see a “tunnel of white light” as testified by *Near Death Experiences*. Without the proper elucidation, your mind can become *redirected* to biblical, guru, or other type figures you believed in prior to body expiration. Others may be intimidated or coerced by astral entities to follow them. Countless *NDE's* reported seeing passed over loved ones; archetype saviours; and gurus etc. Due to negative dogmas, many may experience pre-set satanic and demonic forms.

Countless souls repeatedly have their memories expunged and recycle back through the matrix. Many are duped into being recycled for redemption, self-correction or completion of a task, all of which serves Script Writer agendas. There have been numerous reincarnates who revealed astounding past life memories, especially in India where reincarnation is an important part of the religion. After investigation, the “*American Medical Association*” stated that these memories “...would be difficult to explain on any assumption other than reincarnation.” Due to programing, immeasurable Christian souls end up in purgatory, a form of hell created by the Demiurge to learn obedience via punishment, and mind-cleansing. Soulless A.I.'s and clones will

simply move back into the void on their expiry dates where their energy will be converted and recycled.

**This world has become a Satire based on death, pain, and suffering  
Staged in the Consciousness of Naiveté for the Vanquished and Soulless!**

**SACREMENTS OF BLOOD: “These are three that give testimony to life – Spirit, Water, and Blood; for all three are in agreement.” –John 5:8**

*Spirit* is the bioluminescence power that animates all cells; *Water* is the power of transmutation; and *Blood* is the sustaining power that carries the DNA forward in all life forms. No matter how minute, all organisms emit a bioluminescent light. The two active ingredients in bioluminescence are *Luciferin* and *Luciferase*; however it is the *Luciferin* that produces the light. This is what the term *Lucifer*, “the bringer of light” stood for. Occultists, high priests, sorcerers and shamans know that blood in newborns and *young healthy virgin males and females* has a higher quality than those reaching maturity. They know valuable substances of serotonin, melatonin, melanin; dopamine, retinol, oxytocin, prolactin, adenosine, triphosphate, and telomerase exist in superior amounts in young people’s blood. This is why children and young adults were chosen and *bred* for sacrifice. High Priests and Shamans would drink their blood along with young women’s menstrual blood because it was rich in these nutrients. They believed it enhanced their psychic powers and gave them longevity.

Experiment’s found giving aged animal’s blood taken from young animals counteracted and reversed their aging at the molecular, structural, functional and cognitive levels and that it has the same effect on humans. Every major religion in the world, at one time or another practiced human sacrifice or some form of cannibalism for these reasons. It IS still being practiced today by those in power and may be why some prominent people have such extraordinarily longer lives than the average; it may not just be in the genes. The BBC reported that “children from Africa are still being trafficked to the UK for human sacrifice” and is still statistically the leader of trafficking children around the world!

**TEJAS: “Blood begets phantoms..., with the fumes of blood one is enabled to call forth any spirit desired; for with its emanations it will build itself an appearance, a *visible* body – only this is true sorcery.” –Paracelsus**

Tejas is a Sanskrit term related to the ‘*etheric energies*’, a form of *kundalini electricity* and *Phoslight* that all living organisms have. Tejas is absolutely transferable from one source to another and is a highly valuable supplement. It is derived by ingesting living organisms from the plant and fauna kingdoms; however homosapiens have the *highest* source of tejas. Tejas gives off vaporous energies during expiration, which is one of the hidden significances behind sacrificial killings. Although, anything that excites an organism’s sensory modes, such as fear, sexual arousal, and suffering, make this etheric energy more potent and raises its accessibility. Entities and self-proclaimed deities on the astral plane subsist on these vapors. The scriptural Demiurge ordered his followers to sacrifice children:

**“Take thine only son Isaac and go to the land of Moriah; and offer him there as a burnt offering upon one of the mountains I will tell thee of.” –Genesis 22:2**

Tejas has various levels of *superior* and *inferior* qualities depending on the evolution of the organic. Babies and children under the age of *seven* have much higher levels of tejas than adults after sexual maturation; however vegetarian adults have higher qualities of tejas than human carnivores. Vital energies lessen within a few hours after death and therefore need to be harvested before it dwindles. This vital substance fluctuates with age in all organics, which is why even vegetables must be eaten as soon as possible after cutting. *Young vegetarian virgin boys and girls* have always been the first choice in human sacrifices and infanticide is still practiced behind cult

doors to consume these energies. High Priests, Royals and Noblemen were known for consuming human organs after ritual killings to enhance, sustain and preserve themselves. Terrified young healthy animals became a popular choice to replace the vapours of terrified children on their LORD's altars.

**"You shall offer sacrifices to the LORD: a one year old male lamb without defect for a burnt offering, a one year old female lamb without defect for a sin offering, and a ram without defect for a peace offering." –Numbers 6:14**

**Sacrifice one of the lambs in the morning and the other in the evening... for a soothing aroma presented to the LORD." –Exodus 29:39-42**

Ingesting healthy herbs, vegetables and grains can sustain health and longevity longer than animal tejas; thus there is no need to kill anything! Every thought and action, along with everything you ingest is made of vibrational patterns; whether positive or negative, they define you and your future. These make up your "personal" etheric patterns: *light begets light; darkness begets darkness; fear begets fear and death begets death*. Human and animal sacrifices became another powerful component in the decline of the human genome and the lowering of consciousness.

**Life Mirrors our Personal Psychology  
To become our Transpersonal Journal  
And the Directive of our Next Journey**

**SACRIFICE OF THE LAMB:** There are over 100 contradicting biblical verses about slaughtering animals for food because many of them were taken from Hinduism and later edited by the Demiurge's minions. For example:

**"Behold, I have given you every *herb* bearing seed, every *plant* yielding seed, which is upon the face of all the earth, and the *fruit* of every tree yielding seed; to you *it shall be for meat; it shall be your food*." –Genesis 1:28**

**"Whoever slaughters an ox is like one who slays a man..." –Isaiah 66:3**

**"Let us be given only vegetables to eat and water to drink for ten days. At the end of the ten days it was observed they appeared better and fatter than all the young men who had been eating the Royal's meat and wine." –Daniel 1:8- 11-12-15**

**"Then I heard a voice, 'Get up, Peter! Kill something and eat it' –Acts 11:7-9 "Present your burnt offerings on the altar of the LORD your God., but you may eat the meat." –Deut 12:27**

**"Thus saith the LORD of Armies, the God of Israel; add your burnt offerings to your sacrifices and eat flesh." –Jeremiah 7:21**

**"The fear and dread of you will fall on all the beasts of the earth, and on all the birds in the sky, on every creature that moves along the ground, and on all the fish in the sea; they are given into your hands. Everything that lives and moves will be food for you that *I* now give you."**

**–Genesis 9:2-3**

The first *Slaughter Houses* were built outside of European cities in 1810. They were established as far away from the cities as possible to remove them from sight, the stench of death, and the noise from the cries of innocent creatures being butchered! It repulses the senses of all except those who have become so dense they can no longer see, hear, or feel anything outside of their tainted taste buds. If only 1/3 of all grazing lands were turned into growing fields, the entire global population could be easily sustained. The devastating practices of deforestation would cease as would most droughts; however marketing meat is a multi-billion-dollar industry:

**"Buy meat in the market and eat it. Keep your conscience clear by not asking where the meat came from..." –1 Corinthians 10:25-26**

The Script Writers know eating dead flesh diminishes the essential etheric envelope surrounding the human body and lowers the quality of spiritual light in the cells. Due to this, most Script Writers are vegetarians outside of specific tejas consumption. Eating large portions of animal products serves to keep frequencies in a degenerate state and lowers health, rational thinking and dulls the psychic senses. Hyper-sexuality and brutality are intensified by meat eaters. Spirits low in grade, love their “flesh pots” and some will ask, “if this is just a dream, what’s the difference!?” Forget the moral issues and realize the difference: You are the dream and the dreamer is you and everything you do or put into your vibrational field affects the frequency of the dreamer! It is all taking place within your Consciousness!

Plato, Pythagoreans, Gnostics, Essenes, Heraclitus, Empedocles, Aristotle, Apollonius of Tyana, Porphyry, Tolstoy, all of the great spiritually minded, were known to be vegetarians. One of the most elaborate ancient transcendental dialectics was a text on vegetarianism called, “Abstinence from Beings with a Soul”, written by Porphyry. He sought to dissuade the Rabbis and Priests from their harsh animal sacrifices by replacing them with holy incense and flowers to lie upon their sacrificial altars.

**ANIMISM** is the realization Spirit is the indwelling force within *all* things; be it creature, animal, tree, or plant, awake or asleep. Animals carry the same spirit and operate within the same frequency and emotional range as their homosapien *brethren*; each with their own unique DNA information and personal signatures. All things, down to the minutest atomic/photonic particle are subject to the “Law of Transfiguration.”

“Who can prove that the human spirit goes up and the spirit of animals goes down into the earth?” -Ecclesiastic 3:21

“Compassion begets compassion, cruelty begets cruelty. What we give we will ultimately receive. Nonhumans help make us human. They teach us respect, compassion, and unconditional love. When we mistreat animals, we mistreat ourselves. When we destroy animal spirits and souls, we destroy our own spirits and souls!” -Marc Bekoff

**There is only one Sacred Spirit and it resides within all Living Creatures; Are we not ourselves homosapiens—part human, part animal?!**

### Piercing the veil of unawareness

#### 6<sup>th</sup> Elucidations: Truth or Consequences

Promiscuity p.61 – Incestual Madmen p.62 – Goliath to Peewee p.62 – Potpourri p.63 – Sexual Magick p.64 – Roots of Hatred p.64 – Divine Rights p.65 – Black Nobility p.65 – Fear is the Enemy p.66 – The Game p.67 – Supercontinents p.68 – Garden of Eden p.69 – ZION P.70 – PAN p.70 – Myths of Pan p.71

**PROMISCUITY, THE DESTROYER WITHIN:** The proverbial “*Fall of Mankind*” was first generated via promiscuity and the division of DNA. Sexual coupling outside of one’s own DNA or species is forbidden due to mathematical and electrical *Laws of Resonance*. The human species has unfortunately become a potpourri of DNA confusion. *Laws of Resonance* are closely related to the *Law of Attraction* within the electromagnetic scales of nature. In physics, resonance is the mechanism that causes all sinusoidal waves of vibrations generated by sexual partners to affect every cell in their body and blood! Nature created various vibratory patterns to activate the *Law of Attraction* to ensure *resonant harmony within the DNA*! These energies resonate at *harmonious* frequencies designed to determine a positive somatic result. The *Law of Resonance* rules over all biology resulting in *superior forms* or *inferior forms* when ignored. The matrix now has an overabundance of mutts and mongrels.

Entire nations have now been corrupted through *imbalanced* crossbreeding of DNA codes! The Elite have been attempting to correct their inherited problem through designing a *Master Race* and *Bio-android* program whilst the Demiurge is creating his own DNA *crossbreeds* for more permanence on the material plane. The Elder Gods were the hybrid mix of Avatāranas and Adamic homosapien Plasmates. This corrupted both bloodlines that over time led to deep mental imbalances, loss of stature, premature aging, disease and deformities. So serious was this, the *Immortal’s avatars* became replaced by the hybrid *sons of gods*. They were fated to become lost in an annexed usurped substratum matrix manifesting false dogmas, superstitions and immoral behaviour. DNA imbalanced partners were responsible for the alteration of mankind into humankind.

**“You must not intermarry with them. Do not let your daughters and sons marry their sons and daughters.” –Deuteronomy 7:3**

Species were created to attract their own unique family groupings by obvious similarities in appearance, scent, and by instinctually being *on the same wave-length*. Every individual species has its own *personalized wave-length*, *magnetism* and *electrical signature*. When these frequencies are harmonious between *sexual partners* they will be spiritually uplifting and when not, or too contrasting, they will have a desecrating effect on the individual, their thoughts and their lives. Not only did inbreeding create health issues, but blocked *supernatural* abilities. The idiom, **“The inmates are running the asylum”** is now in fact the Truth. Animals running loose in the wild, on many levels, are superior to most hominids running around on two legs thinking they are superior!

**“And they took their daughters for themselves, and gave their own daughters to their sons.” –Judges 3:6**

Today, there are over 5000 *ethnic groups* under the DOME due to interbreeding. The main clarity defined now is the *Rh negative* and *positive incompatibility factors* for childbearing and transfusions. *Rh negative* blood types that breed with *Rh positives* can result in blue blood babies, deformities and death.

What the fuss is all about amongst the *Elite Cabal* is the library of information *carried within the DNA* in various *blood types* and their different inherent values. However, under the skin the blood is all red and we are now all pretty much *blood-brothers* to one degree or another. Nevertheless, the Elite see themselves as the chosen people of the gods and the religious dogmatists see themselves as the chosen people of a God. The original Adamic Race was known as Mankind in the upper world, but demoted itself to Humankind in this lower world where their progeny became known as “*The People of the Lands*.” They flourished and grew into large societies that developed their own cultures and rituals under the rulership of surviving hybrid *Noblemen*. The noblemen raped and forced the *people of their lands* into superfluous sexual encounters and marriages. As their numbers grew, the hybrids became concerned about controlling their burgeoning numbers and rebellions.

**“Do not be afraid of “the people of the land” because we will devour them. They are only helpless prey to us! They have no protection and the LORD is with us; do not fear them. Don't be afraid of them!” –Numbers 14:9**

*The Church's* main concern was about marriages between different religions that might attempt to proselytize their flocks. This became increasingly difficult due to mass migrations to more fertile lands. The main difference between the Elite children and the Commoners was the amount of *secret knowledge* passed down. This is why they still think themselves superior whilst their deeds of depravity continue to betray them! Over time, fornication strengthened the lower classes of homosapiens and their progeny by giving them more intelligence via higher grades of DNA whilst diminishing and giving the hybrids lower grades of DNA.

**“Now the people of the lands are united and they speak the same language. Nothing they set out to do will be impossible for them to imagine!” –Genesis 11:6**

***They fear you to be their equals whilst pretending to be your superiors  
Yet, the pleasure of their measure holds no weight in the *Halls of their Fate****

**INCESTUOUS MADMEN:** Due to the comingling of the original avatāranas and the lower Adamics, the Script Writers started attempting to stop further contamination to their bloodlines via incest. They also used interfamily breeding to contain their vast wealth; however this came at great cost to their progeny! When close kin produce children together they have a higher chance of passing on recessive diseases because family members may *inherently have the same genetic defects*. The closer genetically one is, the more genes they share. It was only a matter of time before they declined into a pit of incestual deranged madmen at the helm of undeserved power! Over the centuries their offspring became increasingly afflicted, moronic, lascivious, and imbecilic. They were insatiable for fresh sources of sensation through power, materialism, blood, selfish pleasures and supremacy. These inherent debilitating demonstrations were responsible for inferior deranged *kings, queens, noblemen, popes* and many *religious leaders*. Owing to their weakened sustainability, contemporary Royals are attempting to strengthen their bloodlines via intermarrying more distant cousins, yet still *within their* ancestral bloodlines. Prince Harry's marriage to film star Meghan Markle is an example of this.

**“All things must be cleansed by blood...” –Hebrews 9:22**

**GOLIATH TO PEEWEE:** “**There were giants on the earth in those days, and also afterwards. They had sexual relations with the daughters of men (homosapiens) who bore children to them. These were the mighty men of old and of renown.**” –Genesis 6:4

The upper world engendered titanic forms of avatars, plasmates, creatures, fauna, plants and trees in comparison to the current matrix. Most cultures along with ancient texts have legends of giants dwelling on their lands. Bones and skulls that would be considered huge or alien in contrast to today's standard and have been amassed over time and hidden away by the

*Smithsonian Institute*, never to be acknowledged or seen again. Photo-shop pictures started appearing on the internet of giant skulls and skeleton; nonetheless there is nothing they can do about the numerous *atavisms* and *throwbacks* of incomparable statures that have been appearing throughout the world over the centuries:

There has been a great deal of misperceptions between the *giant Nephilim* hybrids of the gods and the brutal classes of *goliath warriors* who were originally created as *giant fighting machines* with no discrimination between right or wrong or evil acts. (Nephilim meant "giant.")

**"Ligaments and muscles were placed within you, and flesh covered over them with skin..., and spirit gave them life" "....and when spirit came into them; they lived and stood on their feet as a vast army." -Ezekiel 37: 6-10 "We saw the Nephilim and we seemed to ourselves like grasshoppers, and so we must have seemed to them."-Numbers 13:33**

The Nephilim were the biblical "*heroes of old*" and the "*men of renowned*", but they were considered *great warriors* who were also referred to as "*over throwers*." All of the sub-races in this matrix became descendants of both Nephilim and fierce Goliath bloodlines to one extent or another and carry both of their DNA traits. The hero, the peacemaker, the warrior, and the malevolent are all stored as part of your transgenerational epigenetic memories. DNA is the language of the intellect, your personal reflections on life and your self-image. Nevertheless, it is the heart that can become a deeper genuine reflection in this clouded mirror.

**"There is a certain enthusiasm in liberty that makes human nature rise above itself, in acts of bravery and heroism." -Alexander Hamilton**

**POTPOURRI:** The original cast of Avatāranas and Plasmates were fashioned in the images and characteristics of their original creators, each with their own unique variation of characteristics and distinctive cultures. However, most of their grandeur has been lost over the event timelines to a potpourri of DNA. Many traditions and legends speak of the *other world* as being a place where they *came from* not related to the 'Astral Worlds.' The Native Indians of the Americas claim their descendants arrived here by "*emerging out of the bowels of the earth*." Numerous are emotionally caught up in the search of attempting to find their origins, native lands or home sphere.

One of the more distinctive pantheons of gods came from the Post-Akkadian period. They hailed from the "*other world from above*" and were called the *Annunaki*. Ancient texts and images show these gods had *cone shaped heads* and *very tall* with *pale fair skin*, *blue* or *green eyes* and *flaxen; red, or light brown hair*; their progeny were the original Aryan Race. They were seen by many as the original chthonic deities to rule the Underworld –this subterranean annexed *matrix*– because they were the creator gods of the *first* plasmates. The Annunaki were collectively known as "*The Shiny Ones*." On the 4D world their plasmates would be known as Mankind and on the 3D world, they are known as the Adamics that eventually degraded into Humankind. Their descendants were the fabled Atlantean Race that originated out of Pannotia. {Ra}

They played a major role in the Biblical Great Deluge and took refuge in the Caucasus Mountain Ranges prior to it. The term '*Caucasian*' was derived from these mountains. The Greek, Prometheus was mythologically "*chained to a stone in the Caucasus Mountains*." Different cultures have equivalent names for the geneticists that created the plasmates and separated their chromosome into the first neo-male and female, such as Enki, Ea and Osiris. Many of the Elite Cabal believes their bloodlines are directly linked to the Annunaki. After the Deluge, their descendants emerged off the southern slopes of the *Caucasus Mountain Ranges* and created a

stronghold in ancient Georgia just above Mesopotamian. From there, they spread most notably throughout ancient Sumer, Babylonia, Eurasia, Egypt and India.

There were numerous powerful Ruling families who elongated their skulls via practicing intentional cranial deformation via “*head or skull binding*.” It was done by applying force over a long period of time to the head of a newborn. It was practiced amongst the Asians, Egyptians, Africans, Europeans and Native Americans. They believed it raised their Royal family’s status by attempting to imitate the ancient gods who had naturally elongated skulls. Ancient artworks depicting the gods with elongated cone shaped skulls are ubiquitous throughout the world. Imitating the gods via head binding could alter their appearance, but it could not increase the size of their brains or brainpower.

Geneticists have learned how to detect the difference between head binding and natural elongated skulls due to significant differences. Preliminary DNA testing showed that the natural elongated skulls, some dating back to over 7,500 years from Mesopotamia, have DNA “with mutations unknown in any human, primate, or animal known so far.” The natural skulls have very pronounced cheek bones, larger eye sockets and are devoid of sagittal sutures between the two parietal bones. The skulls originating from Mesopotamia show that migration to the Americas came much later than researchers could have realized.

For years we have also had *abductees* who claim they were abducted by aliens with elongated or cone shaped heads. The Archons have been practicing on DNA hybrid experiments over periods of event timelines. Many birthing mothers had their newborn exchanged for one of the alien hybrids to be raised as experiments. These dreadful unusual looking little hybrids were called “Changelings.” Due to the extent of these abductions there are more *alien mixed DNA homosapien hybrids* walking this virtual-theatre than anyone realizes. The real question is, ‘*are there any authentic bloodlines left from the ancient avatāric gods?*’

**SEXUAL MAGICK:** It is the birth right of every *true seeker* to know the secrets of Hermeticism and Alchemy and the truth behind this virtual-existence. Sexual energies play a vital role in the *alchemy* of the chakras, organs and the endocrine systems. Hormones are secreted and absorbed by the sexual glands that can alchemically transform one type of energy/element into another type of energy/element. *Sexual transmutation* can take place when these hormones saturate the circulatory system of the blood and *intensify* the endocrine system. Intensified stimulation can produce an immense number of sexual hormones that can animate the entire nervous system. This can deepen the very essence of the sexual element *and* kundalini-Shakti; the most powerful psycho-spiritual force available, when one becomes adept at it. This is why some of the Elite Cabal along with sex cults developed these practices. However, it is also known that over sexual indulgence, promiscuity and masturbation waste these vital fluids and can cause a completely reverse affect. Spiritual forces are lost along with wasted vital psychic energies.

**ROOTS OF HATRED:** Judaism, Christianity, and Islam are politically, not spiritually, based. The caustic “East vs West” wars have absolutely nothing to do with honour or the truth. The roots of their religion grew like a *thorn bush* out of Akhenaten’s {Ra} vision of a monocratic theology. It spread like a cancerous plague throughout the world bringing down some of the greatest civilizations! Power hungry men choked the very light out of the minds of millions upon millions of souls. They used religion like a dagger to make beloved brothers and sisters murder each other with no mercy and to justify tearing families asunder. In the name of *their* LORD God they unleashed hatred amongst the people so they would fight their *game of thrones*! It is a trans-generational phenomenon that people still *allow* these *Machiavellian narcissists* to destroy their world and their families for self-gain.

**“Brother will betray brother to death, and a father his child; children will rebel against their parents and have them put to death.” –Matthew 10-21**

**DIVINE RIGHTS:** An upside down cross symbolizes the Catholic Churches revolt against the gods and any government outside of their power! Gullibility led to the belief that a Roman General named *Pilate* released an insurrectionist and murderer of Roman soldiers, named *Jesus Barabbas*. (Barabbas literally means "son of the father" in Aramaic) And, that he agreed to torture and crucify an innocent pacifist, also named *Jesus at the same trial* because the witnesses requested it! Guilt is a key factor in perpetuating obsessive-compulsive disorders. People who follow this testament do not seem to have the mental capacity to realize the truth and be released from this inexorable guilt. Personal flagellation and other reprehensible acts of penitence have been taught by *The Church* to help pardon individuals from this great sin.

*Pilate stated, "I am innocent of this man's blood. The responsibility for his death is yours!" "Then all the Jews yelled out saying: His blood be on us and on our children." "So Pilate released Barabbas and ordered Jesus flogged with a lead-tipped whip and turned him over to the Roman soldiers to be crucified."*—*Mathew 24:23-26* (Barabbas's 1<sup>st</sup> name missing in scripture)

Elite Noblemen politically struggled amongst each other for the Pope's seat of power! Those with the most military might were able to sit in the chair that would fabulously increase their vast treasuries and authority! At the time, none had the slightest conviction in what was being preached! During the 5<sup>th</sup> century the seed of monocracy seriously took hold with the help of King of Franks, Clovis 1. He converted to Catholicism and forcibly united all of the Frankish tribes under it. This started the branches of their "*Oak Tree*" to spread across France, Belgium and Germany. Around the 8<sup>th</sup> century, the *Catholic Church* falsified a document, calling it the "*Donation of Constantine*." They forged a *Roman Imperial Decree* and said it was written by *Constantine the Great* in the 4<sup>th</sup> Century. The forged documents "transferred all authority to the Pope over Constantinople; all Roman Cities; Alexandria Egypt; Antioch Greece, and Jerusalem." It gave "all churches on the whole of the earth to the Pope!" This document inflamed the growing schism between the Catholic and Orthodox Church, which became known as the infamous "*East vs West*." It wasn't until 1440 AD, after a great deal of bloodshed that the *Roman Catholic Government* was exposed for embezzling and seizing unmitigated power!

**"When the missionaries came to Africa they had the Bible and we had the land. They said "Let us pray." We closed our eyes. When we opened them we had the Bible and they had the land!"**  
—**Desmond Tutu**

**BLACK NOBILITY:** The infamous *Venetian Aristocrats*, known as "*The Black Nobility*", became high-ranking officials in the burgeoning Catholic Church. During the notorious Crusades between 1095 and 1492, they were able to establish and solidify their wealth, power and authority. Over the centuries *many* became Popes, high ranking Bishops, Presidents, Prime Ministers, global CEOs and Bankers who were in reality "*Ashkenazi Zionist*", also known as the "*Fake Jews*." Most are blood related to one degree or another. The *House of Guelph*, from which the *House of Windsor* came from, was one of the original Black Nobility families from Venice, Italy that spread to Britain, France, Monaco, Austria, Germany, Norway, Belgium, Bulgaria, Sweden, Portugal, Yugoslavia, Denmark, Netherlands, Albania and now Russia. They claim they are direct descendants of Mary Magdalene who was allegedly a 'Jewish' woman who witnessed attended Jesus after his alleged crucifixion. In contrast, was it not the Jews who allegedly had him killed?

They earned the title "*Black Nobility*" through *deception*, crimes against humanity, trickery, drug dealing, blackmail, fraud, rape, paedophilia, wars, murder, and assassination. They were at one time behind the Knights Templars and now control the various *Factions of Secret Societies*, such as the Freemasons, Rosicrucian's and Jesuits. They control most governments and the Royals and they are behind the Shadow Governments; the media, internet, social media and every *essential* corporation in the world.

**“Some of the biggest men in the United States, in the field of commerce and manufacture, are afraid of something. They know that there is a power so great somewhere, so organized, so subtle, so watchful, so interlocked, so complete, so pervasive, that they had better not speak above their breath when they speak in condemnation of it!” –Woodrow Wilson**

Weapons of Mass Destruction have become so advanced that the Elite Factions have agreed to come under one umbrella, called the *Global Union Federation*, in order to achieve a common goal. The world has been divvied up into four separate economic unions: *The European Union (EU)*; *North American Union (NAU)*; *Australasian Union (AU)* and *African Union (AFU)*. They are globally nationalizing all natural resources, international banking, foreign investments, railroads, power plants, and armaments. There will be Federal control of foreign commerce and shipping and the establishment of a common world monetary system. A collective joint “binding force” was designed, known as the Bilderbergers, to assure success and to keep peace through a common goal of unity.

### The New World Order Diagram

### ***Novus Ordo Seclorum – A New Order for the Ages***

Religion has been their *shelter* and *platform* for centuries to gain unimaginable power and control over the matrix. Many governments now use German G.W.F. Hegel’s authoritarian model of creating ‘order out of chaos’ via a “*Problem – Reaction – Solution*” scenario. He came up with the idea to create life threatening problems within societies that would cause reactions of fear and then provide a solution that would benefit the Script Writers. Solutions include surveillance, home invasion, inoculations, microchipping and suspension of civil liberties via *Martial Law*.

**FEAR IS THE ENEMY:** “We can easily forgive a child who is afraid of the dark; the real tragedy is when men are afraid of the Light.” –Plato

**See the flowing ever expanding movement of sea plants, crustaceans, molluscs and colourful fish moving in their poet motions together in waves of harmony. Everything is at peace, free and open. Experience the peace and contentment of this openness and flowing... What happens when fear strikes!? In a flash, everything shuts down. Fish run for cover and hide; sea plants instantly pull back into themselves. Everything in that moment becomes empty and bleak.**

Fear tears away at every emotion in nature and makes men slaves to their bodies and incarnations. We have been taught physical disappearance means death. Fear breeds negativity and negativity breeds hate and hate breeds wars. There are 3 basic fears: 1) the delusion of thinking we are separate from our *Source*! 2) *Primal fear* designed to keep us safe by sending instinctive alarm bells. 3) Emotional fear which can get us into serious trouble. Chronologically most have fear of death; loss of control, wealth, health, love, and family. **Guilt** and fear are the two most powerful tools wielded for enslavement because it places a mental straight jacket on the ignorant. *Guilt* is a more powerful *captive* force than even fear and can causes deep subjective *psychotic depressions*. Organized religions have placed guilt upon the head of every soul who accepts responsibility for the torture and death of the “*son of god*”; an irrevocable “*Sin*.” Guilt and fear are so overwhelming they can generate imaginative threats that can manifest through the power of attraction in life and after death!

**"His blood is on us and on our children!" –Mathew 27:25 "How much more severely do you think you deserve to be punished for killing the *Son of God* and insulting His Spirit of grace?" – Hebrew 10:29 "Bring the LORD your guilt offering; a ram of value without defects, and offer it to the priests." –Leviticus 6:6**

**Genius says, "Life is a Joke"  
Masterminds say 'It's a Game'  
If genius is right, we are the Jesters  
If Masterminds are right,  
We best learn how to 'Play the Game'  
Or wear their Yoke and remain the Butt of the Joke!**

**THE GAME: "The reason that truth is stranger than fiction is that fiction has to have a rational thread running through it in order to be believable, whereas reality may be totally irrational." –Sydney J. Harris**

If we are to have a chance of winning the Script Writer's *game*, we need a *full deck* of cards and to understand *who* the *other players* are. Only those who know where the hidden mines lay have any chance of walking between them. There are a *plethora* of game-matrices still active within interstellar civilizations that are taking place right now on the 4D level of consciousness.

**"...Ye are not of this world, and it does not love you." –John 15:9**

This matrix originated out of a 4D spatio-temporal interstellar virtual-reality game that was destroyed; *everything* here is a *mirror reflection* of that world, albeit the landscapes have been *drastically altered* and time is *moving backwards to it*. {Ra} The winner of the Game would take a superior position in the *ensuing game* that mythologies articulated as the *Changing of the Gods*. As they accumulated game points they moved up through higher levels. No one was allowed to arbitrarily access higher regions without *winning* the "*End Game*." The problem is *this is not* the original genuine game; this is an annexed program that became usurped by unnatural circumstances.

**"...we might have something in common with *The Matrix* science-fiction film where *human beings* are the product of a *virtual-reality-generating computer network*." –Prof James Gates Jr.**

In the upper-world matrix, pyramids and other megaliths were strategically located in order to create a super-magnetic-electro interacting grid-system. The grids operated as a conduit with nodes used as portals to interconnect with interstellar simulations of the games along with other interacting matrices. The original secondary hosts were celebrated interstellar players representing *opposite* polarities. In Hindi, the god *Vishnu's* avatārs represented one side of the coin and *Shiva's* the other. Adamic DNAs were also created as *warriors* and they were able to gain great honours and points in the games similar to the Roman Gladiators. However, the original *Rules of Engagement* were abandoned here over blood stained games of thrones! The *human race* became nothing more than pawns of war and economic chattel to the new ruling Script Writers, with the Demiurge remaining as the greatest instigator of wars for His personal agenda:

**"I will stir up Egyptian against Egyptian – brother will fight against brother, neighbour against neighbour, city against city, kingdom against kingdom."–Isaiah 19:2**

**"You will be my war club, my weapon for battle; you will shatter nations, and destroy many kingdoms in my name." –Jeremiah 51:20**

This LORD has his own cast of directors, many whom are soulless minions {Ra} hardwired into the mainframe of the matrix. This was the meaning behind the infamous directive from the

Papal Legate at the *Massacre at Béziers* when up to 15,000 people were slaughtered by Papal dictate in a day."

***Caedite Eos Novit enim Dominus qui sunt eius!"***

**"Kill them all, God will know His own!" –Arnaud Amalric**

Categorically, human Beings are being manoeuvred around the world like a Game on a Chess Board. In days of yore many a King would fight alongside his knights; today the *Kings* and *Queens* stay hidden behind *Stained Glass Walls* or *Houses of Government*. Rooks are the highly rewarded generals who seize wealth for their Kings and Queens. Knights are the "Intelligence Agencies" running amok and covertly setting up deviant war *Games* between nations for plunder. Bishops lead the Pawns as *cannon fodder* to the slaughter. All of them are now under the control of the veiled "Men in Black"; the *Jesuits*.

**"The Allies' War against Germany was not a crusade, but the rivalry of economic complexes for whose victory they had been fighting. This so-called business used catchwords like *democracy*, *race*, *religious liberty* and *Christianity* as bait for the masses."** – Jesuit Bishop Alois HUD

The young are led to believe war will give them the opportunity to serve and find glory, which most certainly turns out to be horror and death. Perhaps this is why so many think violence and pain twisted into music and films is *entertainment!* In reality they create psychoactive *Brain Entrainment*; however allowing children to watch or listen to these mind altering fixations is like mixing arsenic in chocolate and telling your children it is good for them! Cartoons and videos games are loaded with subliminals that take you deeper into fixation and separation from each other, spirit and your heart. Script Writers produce massive amounts of illicit drugs, fluoridation, GMO, chemicalized food-stuff, inoculations, and microchip implants, along with obvious chem-trails are all accepted as the norm due to complacency and ignorance by the majority!

**"You can conquer a nation from the inside out without damaging the infrastructure by taking away its health. Supermarkets are now Mausoleums where dead food and animals lie in State"** –Czerral

Along with the above, trillions have unwittingly betrayed their souls in the belief they will go to the promised new heaven and earth, whilst fighting their own brethren in the name of their God! **"We are waiting for the new heaven and a new earth in which righteousness will dwell."** 2 Pet 3:13

**"Two things are infinite: the universe and human stupidity. And I'm not sure about the universe!" –Albert Einstein**

**SUPERCONTINENTS:** "Strange times are these in which we live when old and young are taught falsehoods in school. And the person that dares to tell the truth is called at once a lunatic and fool" –George Francis Train

Two of the most significant supercontinents from the upper world now lie broken under the DOME in this matrix due to an upper world *Cataclysm*. {Ra} The most Northerly Supercontinent was called Rodinia, meaning "Motherland" or "Birthplace" in Russian. We shall call this northern supercontinent ZION herein. Pannotia, a Greek term for "*lands towards the south*", was the other great *Supercontinent*. We shall call the southern supercontinent PAN herein. There were others, but these are the two most affected by the disaster and restored in the dreamscape under the DOME. Both held great civilizations, but owing to the matrix's mathematical equations being sent awry during a hubris experiment, the tectonic plates under these two supercontinents *shifted*. In the blink of an eye, Rodinia became the Americas, Africa, Europe, Asia and Australia along with

smaller broken and sunken lands. Much land was lost and new immense mountain ranges were thrust upward. PAN became a flash-frozen wasteland now known as the enigmatic Antarctica. {Ra}

**Humpty Dumpty sat on a wall,  
Humpty Dumpty had a great fall!  
Four-score Men and Four-score more,  
Could not make Humpty Dumpty where he was afore!  
Author Unknown**

Great legends and mythos surround the mysterious PAN and for good reason! {Ra} The largest portion now sits as a frozen wasteland surrounded by broken land that became islands including New Zealand. ZION now looks like a broken jigsaw puzzle! Her landmasses continue to shift by degrees to this day. A super-ocean not only surrounded these two continents but other outer continents still holographically existing beyond the DOME. Some of you were seeded from these outer continents. During the dramatic aftermath of the catastrophe, all sense of direction was lost because none of the *fixed stars* were in their proper position. The entire world had shifted from its original locus and most all landmarks had disappeared.

**“The sky disappeared like a scroll being rolled up, and every mountain and island was moved from its place.” –Revelations 6:14**

Cataloguing the stars became *vital* and they had to reset the “four cardinal directions.” They had to create the first calendars to mark the unprecedented seasons in order to grow crops for survival.

Script Writers have created all manner of quasi-hypothetical geological timelines to hide how these two supercontinents became broken and devastated. They speciously claim they broke apart due to *natural tectonic plate movements over billions of fictitious years*

**GARDEN OF EDEN:** Elysian was an Egyptian term to describe the *Garden of Eden*. *Eden* was derived from the Sumerian word “*edin*” a term meaning “*upper planes*” that originally existed on the 4D supercontinents and became the Aramaic term for “*fruitful*.” Ecclesiastics still argue over the location of the *Garden of Eden* not realizing that its vestiges lie directly under their feet. The upper world’s landscapes were paradisiacal with no need to toil or work the land. Every tree was pleasant to sight and offered beautiful varieties of sustenance provided by Nature; there were an abundance of pure rivers, streams and springs. The days and nights were equal with no seasons or years to be counted. The climate was consistently warm and balmy; thus plants and trees fruited without interruption. Flourishing civilizations with beautiful architectural cities, castles, temples, private mansions, citadels, and common areas abounded.

**“Every plant and herb yielding seed on the surface of all the plains, and every tree which has fruit yielding seed is for food; and to every beast of the earth, and to every fowl of the air, and to everything that creepeth upon the earth, wherein there is a living soul, there was every green plant for food.” –Genesis 1:29-30**

Researchers know the Sahara Desert was once a fertile land and satellite images reveal mysterious remains under the sands that may be temples, ziggurats, or pyramids. Excavation of the Göbekli Tepe Temple, outside of Sanliurfa Turkey is a distant reflection of the *Garden of Eden*. Recent excavations show sixteen ft. high pillars weighing up to ten tons each. Some of the pillars have elaborately carved lions, scorpions, foxes, and vulture on them. Tepe Temple, perched a thousand feet above the valley floor would have been a grand exemplar. The *Garden of Eden* stood for a “*paradisiacal matrix*” that *shamefully* fell into a domicile of *immoral corporeal pleasures*. Orgies, jealousy, covetousness, abduction, rape and immorality led to the downfall of “*Mankind!*” The *Garden of Eden* became *paradise lost* to a mythical memory; it took on the *new face* of neo-hybrid gods and goddesses.

**“We should walk with decency and *stop* the orgies, drunkenness, sexual immorality, promiscuity, rivalry, and jealousy, which have become a part of our lives.” –Roman 13:13**

The upper matrix had much higher levels of aether, *hydrogen* and water vapour in its atmosphere, which accounted for the great stature the avatāranas, vegetation, flora, fauna, and trees, that *towered* over the lands. Both supercontinents had beautiful and navigable rivers along with large freshwater lakes and magnificent inlets and harbours. Today, their great civilizations can only be imagined or glimpsed by the megalith ruins found under oceans, sands, dense bush or remaining vestiges.

**“Once you lived in Eden and wore gems of every kind: rubies, topaz, diamond, beryl, onyx, and jasper, sapphire, emerald, lapis lazuli, turquoise, and set in gold. They were ready for you on the day you came into the Garden of Eden.” –Ez. 26:13**

**ZION:** The term *Zion* originally came from the Greek word *Sión*. There are many opinions as to its actual meaning, but many say it is equivalent to *Jerusalem* and *Israel*; whilst others associate it with the biblical *City of David*. However, *Zion*, *Jerusalem* and *Israel* are representations of the whole of this matrix to the Script Writers and not just a battered dust bowl in the *Middle East*. *Zion* originally stood for *Rodinia*, the lands on the northern supercontinent. Scholars agree the term *Zion* holds *unrevealed* hidden meanings tied to an ancient destruction with promises of resurrection.

**“I will *restore* the fortunes of Zion, every city will be rebuilt on its mound; every citadel will stand on its proper site and Jerusalem will be rebuilt on its ruins.” –Jeremiah 30:18** There are also references to the hubris accident that caused the destruction of ZION by those who will not forgive and forget those responsible: **“For Zion’s sake I will never hold my peace..., I will not rest until her vindication shines out like the dawn, her salvation like a blazing torch.” –Isa 62:1**

Within a day and a night, ZION went from being a supercontinent to a broken world of devastation and fragmented continents. {Ra} The event took place *in the blink of an eye* and the Elder gods responsible were instantly flash-frozen into the cryonic trance now sustaining this substratum matrix.

**“By the rivers of Babylon, we sat and wept when we remembered Zion.” –Ps 137:1 “Zion reached out her hands, but there was no one to comfort her” –Lamentations 1:17**

**PAN:** **“I say that all this is but dreams and shadows; the shadows that hide the real world from our eyes... There is a real world, but it is as beyond a veil. I do not know whether any human being has ever lifted that veil. You may think this all strange nonsense; but it is true, and the ancients knew lifting the veil meant seeing the god *Pan*” –Arthur Machen**

The southerly supercontinent of PAN was also a *Garden of Eden* paradise. Portions of the great continent were divided by what is now known as the *Transantarctic Mountains*. It had great forests and a great wealth of natural resources before they turned it into a frozen enigma. PAN was the *epicentre* of the *Great Cataclysm* {Ra} *where the “Elder God’s” responsible are entombed*. Owing to recent undisclosed discoveries of this site, Antarctica has drawn special attention from the media due to prominent individuals visiting with no explanation other than farcical news releases. Russian Patriarch *Kirill*, equivalent to the Pope in Orthodoxy; U.S. Secretary of State John Kerry, Vladimir Putin; and Buzz Aldrin are just a few of the more well-known visitors of the site.

Ice covers approximately 98% of the Antarctic continent, the largest single mass of ice on earth. It contains over 26 million cubic kilometres of ice and is claimed to cover approximately 14 million sq. kms. *Tartarus* was the name given to those buried under the ice in the dark abysses

that were once powerful thriving metropolises. The term panic was ultimately derived from PAN due to what took place during the Great Cataclysm that destroyed it in the upper world!

**"I heard the number having been sealed was 144,000" –Revelations7:4**

*Tartarus* became God's revenge, wrath and punishment in scripture: **"A deep sleep was brought over you: Your eye (3<sup>rd</sup> eye) was sealed and your heads were covered." –Isaiah 29:10**  
**"They were cast into an Abyss and it was sealed over them so they could do no more harm to the nations..." –Revelations 20:3**

Saturn symbolically represents Kronos/Cronus and its rings Chronos, the *Father of time* and reincarnation. Jupiter is the representation of the Olympians and their solar deity; they were the new generation of hybrid gods that were captured in this subterranean underworld matrix. Mythological Greek names that were given to those responsible for the dreamspell were: Kronos, Atlas, Hypnos (Hypnosis is a derivative); Morpheus, Erebus, Nyx, Pasithea, Phobotor, Phantasus and Ikelos. Their myths claim they are in the *"underworld, dreaming in a state of forgetfulness, where no light or sound can reach them."* There are many references to this dream state:

**"When the fortunes of ZION were restored, we were like those who were in a dream." Psalms 126: 1 "You have fallen from heaven and have been thrown down into the earth, you who were the *destroyer of the nations*." –Isaiah 14:12**

There is a great deal of convolution between the *original great 4D cataclysm* and Plato's account of the *Atlantean* upheaval that took place in the 3D matrix perhaps because the fabled Atlanteans originally hailed from PAN prior to expanding their Empires to the North Supercontinent and its lands. The major difference between the two disasters is that NO ONE survived the 4D cataclysm, which is why this dimensional appendage was created; and there were survivors after the 3D Atlantean event by those living in subterranean cities! Various *Channellers* on this subject disagree over Atlantis's original name, location, who and why it was destroyed and other inferences! If your goal is to wake-up, the convolution of these two myths becomes superfluous, because the only important thing to comprehend is that you are in a rebooted secondary dimensional appendage matrix that has is continually recycling. And, that it has been cut off from the 4D matrices and thus the real worlds!

**"They sank into the earth (PAN); and the *island of Atlantis*, in like manner disappeared in the depths of the sea." –Plato. "A divine voice hailed from across the salt water that proclaimed, "The great PAN is dead." –Plutarch**

**MYTH OF PAN:** The horned god of *Nature and Fertility* is known as the pagan god Pan and his counterpart is *Cernunos*, the horned god of *currency and materialism*. Once again, relating to the significance of "Opposites" in the *Game*. Prior to the original *Cataclysm*, the Pannotians were conquerors in the 4D Games. They subjugated large amounts of Rodinia to their growing Empire. PAN, Atlantis, and ZION have understandably been interwoven together along with all the pandemonium created by their ruin and their lost event-timelines.

**"How you have perished O infamous city – you have been destroyed. You who were mighty and populated from the seas spreading terror to the coastlines! Your people, with their naval power, once spread fear around the world, but now your ships have been swept from the seas." –Ezekiel 26:17**

The Sophia-Gaia myth is a veiled myth surrounding Pansophism and the knowledge of the original *Great Cataclysm*. The Greek goat god *Pan* and the Roman equivalent *Faunus* are representations of the Pannotians and Rodinians that changed from hermaphrodites into male and females with separated sex-organs. The overview is this: after the Plasmates had their

chromosomes separated by the Elder God avatāranas they became sexually obsessed with carnal pleasures. This led to an obsession for larger phalluses. Phallic Cults spread throughout PAN and ZION, which were carried over into the 3D matrix and became notorious amongst the ruling forces.

The god Pan is most often depicted with an erect phallus chasing male and female nymphs along with other animals of the wild because he has *no discretion* with *whom, what, or where* he finds pleasure! Pan's asterism is Capricornus, Latin for "male horned goat." G.O.A.T is an acronym for "God Of All Things."

Baphomet also represents the "*Horned Goat God Of All Things*." The Knights Templar's were associated with worshipping him, which cost them their fortunes and lives. He is depicted with one arm pointing upwards and the other downwards, representing the *Hermetic Code* for "*That which is above is that which is below*." Solve et Coagula is sketched on his arms meaning: "*To Separate and Join Together*"; meaning "*nothing new can be built in the world until space has been made for it by breaking the old*." Baphomet is directly connected to *Shiva*, the god of destruction & rebirth. Now it seems to embody two agendas encompassing the NWO: the Elite's neo-Master Race & the Demiurge's promised new heaven & earth; however both are fomenting a "negative soul harvest" for their "End Game" agendas!

**"Then I saw a new heaven and a new earth, for the old heaven and earth had disappeared, and there were no longer any seas." -Revelations 21:1**

# 7 ELUCIDATIONS

## 7 ELUCIDATIONS

### Piercing the veil of unawareness

## 7<sup>th</sup> Elucidations: Bringing Heaven Down to Earth

Death of PAN and ZION p.73 – Cause and Effect p.74 – The Great Failure p.74 – As Above, So Below p.75 – Aftermath p.76 – Waking Alice Up p.77 – Dragon Wars p.78 – Game of Thrones p.79 – Cryogenics p.80 – Geoengineering p.80 – End Game p.80 – “Awake Project” p.80 – ELF p.81 – Wanderers p.82 – Watchers p.83 – Introspection p.83 – Summary p.84

**DEATH OF PAN AND ZION:** The Great Cataclysm took place on a 4<sup>th</sup> dimensional matrix sphere at the hands of a hubris atmospheric experiment gone terribly awry! {Ra} There are ancient enigmatic references; however most have become interwoven with consequential events that took place on the ensuing 3D sub-matrix. These verses are residual nuggets of what took place:

“And I saw a star had fallen from heaven to earth and it was the key to the pit of the Abyss.” –Revelation 9:1 “You were brought down into the place of the dead, down into its lowest depths. You shook the earth and made the kingdoms of the world tremble and fall. You destroyed the world and made it into a wasteland, and you demolished the world's greatest cities.” –Isaiah 14:14-16 “ZION was ploughed as a field and became a heap of ruins. Temples became high places in mountains and under forests.” –Micah 3:12

Israel was once a 4D lush and fertile land that was turned into a 3D dust bowl. Machu Picchu now sits 2,430m above sea level; the *Uyuni great salt flats rose up over 3,706m*; Mount Kailash, La Ciudad Perdida are only miniscule examples of the massive devastation that took place during the 4D Great Cataclysm. One of the most significant telling is the Antarctic *flash-frozen wastelands* that took place in the blink of an eye! {Ra}

“There were flashes of lightning, roaring, and crashes of thunder, and there was an earthquake unequalled since the creation of the world. The great cities of the nations were split and collapsed. ... all of the mountains were either levelled or upheaved. And there fell upon men a great hail of huge stones from the sky, every stone about the weight of a talent and they cursed the gods for the plague they set upon them!” –Revelations 16:18-21 “The stars in heaven seem to fall to the earth, as a fig tree drops its late figs when it is shaken by a mighty wind. ... the sky receded as a scroll when it is rolled up, and every mountain and island was moved out of its place.” –Revelations 6:13-14

The oldest texts in the world are from the Hindu's that also have references to the *Great Cataclysm*, which may be where the ecclesiastics took theirs from?: “Great columns of smoke billowed as fiery coals and embers poured forth into forbidding tornado winds that tore everything asunder! The land under their feet convulsed and the very foundations of the mountains trembled. In the same instance, the oceans were dispersed and colossal wave's flooded the lands as seabeds laid bare exposed the foundations of the earth. Land masses and islands disappeared under newly forming seas and continents. Servings of seabeds shot up into the heavens becoming untold mountains and their ranges, capturing lakes of salt water at great heights! Landmasses started breaking apart as large subdivisions were thrust high into the heavens establishing new imposing mountain sites far exceeding any of the pre-existing mountains. In several instances, sections of cities were captured in the thrusts to become phenomenon of civilizations lost. It was so powerful it destroyed the world in an instant with a great soaring sound in smoke and flames that sat on death!” –Vedas *Srutis*

This unprecedented event became the basis for superstition, paranoia and fear of *Mother Nature* and the *gods* in the 3D aftermath. Extreme rituals began in the belief that they could appease the gods and prevent further destruction. Memories and visions were passed down

through the generations until lost in the great ensuing wars and legends of the 3D Atlanteans. The once beautiful *Gardens of Eden*, *ZION* and *PAN* became inexplicable mysteries entangled in Atlantean legends, mythologies, and *questionable* Channellings. The *Great Cataclysm* not only destroyed the bountiful civilizations of *PAN* and *ZION*, but the entire *mother-sphere* matrix became an unrecognizable mass of molecular chemical reactions gone completely awry. {Ra} The aftermath dreamspell was indeed, “hell on earth!” Most of the restored world was an unrecognizable frozen wilderness with pockets of habitable land existing between glaciers and newly formed mountain ranges. “*Hades*” was actually the location of one such area. *PAN* became the “*Land of the dreaming gods*” and *ZION* became the “*Lands of the Walking Dead*.” This is the *Great Mystery* surrounding all theology, mythology, astronomy, astrology, and esoterism! Due to ruling families struggle to regain power in the 3D aftermath, there were *shattering* wars that devastated the surface of the earth due to the misuse of VRIL, but nothing could ever compare with the *Great Cataclysm*. Your legacy has become an underworld dreamspell of chaos, new species, flawed myths, and pseudo-scientific hypotheses. The Script Writers will forever keep the original factual names, geographies and events passed down to them buried under quasi-historical hypothesis and concealments just as they have the holographic planetary systems. And, those who attempt to challenge the status quo, to this day will find a quick consequence: “***That dreamer must be put to death for inciting rebellion***” –Deuteronomy 13:5

**CAUSE AND EFFECT:** The original supercontinent of *PAN* was larger than Eurasia, Africa, North and South America all together. The upper matrix’s atmosphere had an abundance of water vapours along with *hydrogen* and carbon dioxide. Hydrogen was one of the strongest components for the wondrous stature of all living things existing on the 4D matrix. Visualize a world with sun soaked landscapes and *trees* that dwarfed the maximum of the greatest Sequoias that *ever* existed here. Trees were a vital part of spiritual growth in the fourth dimensional world and were revered as such. Their roots reached deep into the ground and their branches reached *kilometres* into the heavens bringing forth aether and electromagnetic forces! To this day, all living organisms’ stature is relative to the vapours and hydrogen levels in the air and atmosphere. {Ra}

Due to the changing consciousness via DNA comingling and the increasing wars it brought about, the atmosphere’s aether and hydrogen started to diminish resulting in a denser atmosphere that became the most *significant* element in lowering the stature of trees; fauna; and creatures along with the hybrid avatāranas and their plasmates! Even more ominous, the *hybrids* started cutting down the great mammoth forests for materialistic purposes, which had devastating effect on all levels. The more they interbred, the more they ignored the *Laws of Nature*, which led to more lustful and materialistic behaviour; the denser they became, the more they lost their stature. They started losing their higher levels of consciousness and *super-abilities*; they became more *homosapien than gods*! The main thing that set them apart from the *commoners* was their education, training and the knowledge passed down to them through the generation.

***“No one remembers the former generations, and even those yet to come will not be remembered by those who follow them. There is no remembrance of former things; neither shall there be any remembrance of things that are to come.”*** –Ecclesiastic 1:11

**THE GREAT FAILURE:** What took place in a single day and night of terror is *far beyond* the average imagination when the original matrix was lost to a subterranean virtual-dreamspell. The main reason researchers scoff in scepticism at legends involving something of this magnitude is ‘how could such a monumental event take place in a single day and night’; however what they do not realize is that they are dealing with a digital virtual-reality. The atmospheric experiment took place on the supercontinent of PAN where it instantaneously set all of the precision mathematical equations into a chaotic helter skelter!

*Hydrogen-H<sub>2</sub>* is a lighter diatomic molecule than other components found in the atmosphere. The Elder Gods were attempting to reinstate the atmosphere’s *H<sub>2</sub> levels* with an experiment that would reverse the waning stature and restore their progeny back to their original stature. They started spraying the troposphere with carbon dioxide and hydrochloric acid, which

was basically two parts hydrogen and one part oxygen. A laser was used to create an electrolysis effect that was supposed to split the vaporous water crystals in the atmosphere into more hydrogen and oxygen. However, they miscalculated the *density* and when they started the process they *suddenly* found they couldn't stabilize it! The effect was catastrophic and had an immediate flash-chain reaction similar to putting a blow torch to an open container of hydrogen, the most explosive gas in the matrix. All laws of physics ceased to operate as massive glaciers of ice were instantly formed alongside unfamiliar volcanism. Mountain ranges thrust upward into congealing air as massive pockets of atmospheric carbon dioxide, water vapours and nitrogen were suddenly frozen and yet on fire at the same time shattering all known laws of physics!

**"With no warning the heavens drew closer to earth as a profuse darkness blotted out the sun and came down spitting lightning and fire within torrents of what seemed like thick waterous vapours. The fiery vapours carried great hailstones and bolts of lightning that simultaneously burned the cities." -Vedas Sruti's**

Rodinia became broken subcontinents with sunken islands and mountains upheaved thousands of feet into the atmosphere. {Ra} The Great *Andres Mountains*, on Rodinia's separated landmass of today's South America suddenly appeared leaving a wake of phenomenon to be discovered in the 3D sub-matrix. Masses of land shifted over 36° from their original positions to become smaller continents and islands, or vanished under the waves. Large amounts of PAN were also submerged or broke away to become Islands such as New Zealand. The only reason a large portion of PAN was not broken was because it was the epicentre of the disaster and *flash froze* whilst the rest of the world rolled and swayed like a drunken sailor! Due to the shifting plates, PAN's remaining section shifted over 2,500 miles from its original location to become the Antarctic continent where portions of its ice remain 2,555m below sea level. Now the children of the world implore: **"From what womb did the ice emerge? Who gave birth to the frost from heaven when the waters became hard as stone, and the deep was frozen!" -Job 38:29**

The magnetic poles, now unstable, constantly drift and seek their original position. The Pannotian's arrogantly thought they could control *Nature*, but were proven wrong by one holocaustic moment that destroyed an entire world leaving it in ruin!

**AS ABOVE SO BELOW:** was the name given to the Greek's star *Phosphorous*, whose light is like no other shining above this world. *Venus* has the most distinct, secretive and mysterious relationship to this 3D matrix. The name *Venus* is a goddess pseudonym given by the ancient Romans and is associated with the *womb*. (*Matrix means womb*) Every ancient culture in the world has significant mythos tied to their genesis and *Venus*. The Greeks called Venus *Phosphorus* the "bearer of light" that was cast down into the underworld.

**"Look how you have fallen from Heaven, O shining one! You who laid the nations low and didst claim the Gentiles (Titans) as an inheritance!" -Isaiah 14:12**

NASA astronomers call *Venus* the earth's *"twin"*, when indeed it should be *"Mother"*, because Venus is the pseudonym for the destroyed Mother Sphere this matrix is a dimensional appendage of. Venus became known as the goddess of love because she became a surrogate sphere for refugees and incarnates affected by the annihilation of the 4D missing sphere whose remains are holographically reproduced here as the *"Main Asteroid Belt."* The sphere lost its cohesion when its *vortex* was completely blown out! The blast was so severe that several surrounding spheres had their surfaces bombarded by its debris and their oceans dispersed into space. These spheres became uninhabitable and could no longer support life and their refugees were sent to Venus. Some of them were of a *self-serving bellicose nature* whilst others were their opposites with a more serene giving nature. Thus, Venus became an experiment to see if these *opposites* could find balance and harmony while located on the surrogate. Owing to this, many designated her holo-graphic appearance in the 3D firmament as *two* stars; one representing the

power of the *Goddess birthing* the dawn of light in consciousness and the other as the *male* descending into darkness. However, the *Babylonian's* knew her to be a single star from which the 'gods came from.' Venus became associated with the *goddess of love* and the pseudonym Mars became her counterpart as a *god of war*!

Venus is where the 'Fall of Mankind' took place and from where the ensuing 3D personifications and mythologies of love, lust, conflict and war came from. *Mars* represents the birth of volcanism. NASA claims *Mar's* has the tallest most active volcano in this virtual Solar System and that it is over 20 km higher than the tallest active volcano on earth. They named it "*Olympus Mons*"; *Olympus* is Greek the abode of the Olympian warring gods and *Mons* is short "*mons Veneris*", the pubic mound found on a woman!

Venus/*Mars* was the abode of the original destroyed "Garden of Eden." She was originally created as a beautiful water sphere with lovely warm oceans that flowed between her supercontinents with wide canals. Venus had no moons and no axis tilt, which accounted for her mild even temperatures prior to her fated catastrophe. Venus's atmosphere was rarefied and rich in hydrogen, accounting for her *majestic* trees, foliage, vegetation, myrtles, roses, apples, and poppy's. Sparrows, doves, swans, peacocks, swallows and all forms of exotic birds thrived there. Venus had no harmful creatures until the arrival of the hybrid warring gods. Venus was betrayed by a hubris act against nature and now sits as holographic projection in the minds, hearts and instincts of all living organisms as they look longingly towards the heavens!

**"Every sin committed on Earth is felt by Venus and every change on Venus has been reflected on earth!" –Dr Ravindra Kumar**

The "*Ankh*" was used by the ancient Egyptians, Hermetic and Rosicrucian Orders along with Coptic Christians as a symbol for *Venus* as a "primal deity-Logoi." Her *Light* was known as *Phos-Light* and her symbol was an Egyptian Ankh, also called the "*Mirror of Venus*." An ankh originally represented the union between Venus and the genuine world's Logoi she was created after. It was believed that the ankh had the power to *unlock* the gates of death and life after death.

**O' Venus, so Hot, so Cold – Under your Layers lies an Icy Abode  
Your Phos-Light, once a Pure Delight, now sits alone in the Night  
Within my soul lies a Portal to Thy eternal Glow**

**AFTERMATH: "Your might and power are buried with you. The sounds of the harps in your palaces have ceased. Now maggots are your sheets, and worms are your blankets." –Isaiah 14: 10-11**

Most all of Venus's hydrogen went astray during the cataclysm leaving around 96% carbon dioxide and 3% nitrogen in the ruined atmosphere. The atmospheric pressures crushed everything outside of huge slabs of rock and upheaved volcanic mountains that continuously release pressures. Temperatures rise to an average of 464°C (+867.2F) and fall to extremes of minus 175°C. (– 347F) The event turned ZION's grand rivers and oceans into massive layers of *dry ice*. Much of the surface instantly became a desert scape with enormous canyons, volcanos and colossal jagged mountains rising high up towards the heavens. This was the birthplace of Volcanism and a gigantic hurricane still roars out from the epicentre where the disaster originated. The shockwave was so powerful it overwhelmed the sphere and it spun almost 164° ending on a wobbling axis tilt. It is now covered in layers of alien looking clouds of reflective sulphuric acid. So overwhelming was this event that it remains lodged in the subconscious memory of every soul that experienced it and has been epigenetically passed it down through their descendants. The myth of Atlantis is but a shadowy representation of what took place, yet just the mention of its name has a great emotional impact on many.

**You are your own greatest paradox and enigma!**

**WAKING ALICE UP:** ZION became known as the dreaded biblical Sheol by the Hebrews; Hades by the Greeks; Duat by the Egyptians; and Naraka by the Hindu; all meaning the realm of *Hell*. However, until recently no one could explore PAN owing to the Antarctic's high ice barriers. Ancient Sumerian, Akkadian, Assyrian, Babylonian, Egyptian, Greek, and African archives refer to a *chthonic pantheon* of deities living in a state of stasis in an abyss. The area has had many equivalent names to where the "*sleeping gods*" exist in a "*forbidden region*" such as the Greek's "*Pit of Tartarus*."

**"They were cast down into Tartarus and imprisoned in the chains of deepest darkness"**

**-2 Peter 2:4**

*Dagon* and *Enki* appear to be equivalent names for the Greek *Kronos* along with others who are imprisoned in Tartarus. They are *indeed*, buried under PAN's Antarctica ice sheets in a state of cryostasis!!! These are the "*Forgotten Fathers*" and the "*Hidden Ones*."

**"A deep sleep was brought over you. Your eye has been sealed; and your heads have been covered." -Isaiah 29:10.**

Their consciousness became sealed in an *Absalom Prison* lost to an estranged world where a Demiurge would usurp the consciousness of the following inmates. Gone were the days of the *Garden of Eden*; replaced by fear and confusion. "*The People of the Land*" foraged in groups for protection and grew into tribes ruled by the remaining higher hybrids. Blood rituals; sacrificing virgins and children along with animals were used to appease and reach the gods along with psychoactive plants. The fixed stars were no longer where they were originally due to the world being spun out of alignment.

**"The stars in the sky fell to earth, as figs drop from a fig tree when shaken by a strong wind." -Revelations 6:13**

New Star Charts became essential for navigation and triangulations on land and sea. They found the need to toil and grow food for survival due to the lack of available sustenance.

**"Barren with want and hunger, they gnawed the dry ground in the gloom of waste and desolation, disfigured with calamity and misery." -Job 30:3.**

They had to learn and understand never before experienced *Seasons* and how it affected plant growth for survival. The neo- sun was imperative for planting and harvesting.

**"To everything there is a season, and a time for every purpose under the firmament; a time to be born and a time to die, a time to plant and a time to harvest." -Ecclesiastics 3:1-2**

Pandemonium, paranoia, superstition, condemnation, carnal abuse, and fabricated gods became a way of life. Reverence for *Nature* was changed to reverence for survival. The *nightmarish* experimental warrior classes from the upper world were loosed into this world and they raped and pillaged mercilessly at will. Even though the Nephilim slew them, these creatures' DNA is part of the potpourri in the legacy left to the *human* race. Their influences are seen to this day in *low grade spirits* still operating in this simulation.

**"The precious children of Zion, once worth their weight in gold, are now considered as pots of clay...!" -Lamentations 4:2**

**Truth be Known, the Coveted drops of blood from the Super-Races dwindled eons ago into meagre reservoirs defiled by the mixing of seminal fluids corrupted by incessant interbreeding!**

The Script Writers tried in vain to escape the *DOME* in order to reach the outer continents and matrices outside of the DOME between 1958 and 1962 before they had the knowledge of how to

use the grid's ley lines and nodes for escape. The Russian and the U.S. governments, in a joint effort, sent rockets carrying W49 thermonuclear warheads and exploded them 250 miles (400 km) above the earth in an attempt to break through the "Dome." These events were called "*Operation Fishbowl*." A U.S. Government Project Officer offered this as a weak and superficial explanation: **"These nuclear tests were poorly instrumented and hastily executed. Despite thorough studies of the meagre data, present models of these bursts are sketchy and tentative."**

## **FIRE DRAGON WARS:**

**"And the huge dragon was hurled upon the earth"  
-Revelations 12:9**

The *original* Brits were Welsh that were of *Basque* descent, as were the *Celtics*. To this day, Wales displays and celebrates an unofficial secondary national flag whose origin remains sketchy at best. It depicts the "*Y Ddraig Coch*", a Red Dragon, which has been linked to Merlin and the mythical King Arthur. It was used as a war banner over the centuries by various Kings. Whether they knew the banner represented the *destructive laser-like fire-power of VRIL* (known as *Dragon Power* by the ancients), remains with them in their graves, but they certainly knew it put *fear in the hearts of all men*. This weapon was looked upon as satanic and was epitomized as extreme evil:

**"It was a weapon so powerful that it could destroy the earth in an instant." —The Ramayana**

Prehistoric hybrids harnessed the power of VRIL and when used in destructive laser warfare it became known as the terrifying breath of the "*Dragon*" because it could demolish an entire settlement and its inhabitants in the blink of an eye!

**"All points of the compass were lost in darkness. Fierce winds began to blow upward, showering dust and gravel. Birds croaked madly... the very elements seemed disturbed. The earth shook, scorched by the terrible violent heat of this weapon. Elephants burst into flame and ran to and fro in frenzy... over a vast area, other animals crumpled to the ground and died. From all points of the compass the arrows of *flame* rained continuously and fiercely." —The Mahabharata**

During the fifties and sixties the Script Writers developed their own antigravity flying machines within a secret space program and now stealthily dominates the skies and more recently armed with VRIL laser technology.

**"The US Navy has already deployed laser weapons... The military see a new generation of weapons leading to radical changes in the way wars are fought... It has 'unprecedented power'..." "The Congressional Budget estimates the cost at \$348 billion, up to a trillion..."**  
-Undersecretary of Defence

**"Have you forgotten the wickedness committed by your ancestors?" -Jeri 44:9**

Antigravity flying machines, known as *Vimānas* in Hindi, were used by the ancients to deliver VRIL's laser power. An incalculable number of people have witnessed these ships over the Ages making their existence hard to be denied by wanton governments, even to a gullible public. The Archons also have a similar technology that allows them to move between the spectrums

within this portion of the matrix and the astral planes. They have been seen in the skies *under* the DOME for centuries and became common in many paintings. After the last *Great Deluge*, centuries were spent searching for the *Hermetic* records, esoteric artefacts, and anti-gravity technology. To the Elite's inner-world governments, "*information*" is as valuable as finding sustenance. In 1946 a secret joint military operation called *High Jump* attempted to attack an underground ice base belonging to the NASA's on Antarctica. It was

commanded by *Admiral Byrd*. It turned into a *spectacular failure* and many lives, airplanes, along with a battle ship, were lost via *Vimānas* that had incredible speed and laser weaponry.

**"In case of a new war the US would be attacked by fighters that are able to fly from one pole to the other with incredible speed."** –Admiral R. E. Byrd

All cultures have ancient legends and myths about previous world wars that devastated the surface of the earth and caused humankind to start over and rebuild their civilizations! Many went *underground* and today there are civilizations upon civilizations built upon the dust of one another! All living organisms, on the lands and below the sea, became denser and more *compacted* as their stature and DNA continued to diminish and the hybrids became all but *shadows* of their powerful forerunners.

**"No one remembers the former generations, there is no remembrance of former things; neither shall there be any remembrance of the things that are to come."** –Ecclesiastic 1:11

**GAME OF THRONES:** As the language of DNA was changed, so were the ensuing homosapiens: **"These dreamers defiled their flesh, rejected authority, and revile angelic majesties."** –Jude 1:7 **"Their lives were full of wickedness, murder, immorality, depravity, hate, greed, and gossip."** Roman 1:29

The Great Cataclysm opened dark corridors to the Archons who eventually created monocratic religious orders ruled over by the Demiurge. He became the face of war eventuating into the New World Order. Theological slaughter started over political games of thrones in the name of God! These wars were not about religion, they were about power, rulership, land, tithing and taxes! The slumbering gods, and the Logos, have been deceptively woven throughout the bible in the name of the Demiurge/God and His counterpart; the 'light of the world.'

**"Oh what a tangled web we weave, when first we practice to deceive" –Sir W. Scott**

Unfortunately, the U.S. Constitution has become a farce and relic in the museum of higher dreams. **"They knew that to put God in the Constitution was to put man out. They knew that the recognition of a Deity would be seized upon by fanatics and zealots as a pretext for destroying the liberty of thought. They knew the terrible history of The Church too well to place in her keeping or in the keeping of her God the sacred rights of man..."** –Robert G. Ingersoll

**CRYOGENICS:** The Script Writers discovered where Tartarus and the hybrid Elder gods laid flash-frozen in Antarctica, which accounts for high profiled visitations. Have no doubt, they will be cashing in on any viable DNA for their master race programs! However, before they can resurrect the dead they have to complete terraforming the present matrix via their chemtrail aerosol spraying agenda. {Ra} They need the right atmospheric conditions to support their neo-master race which the present atmosphere cannot do for the neo-planned hybrids. The hydrogen levels are still too low for their great stature and the present atmospheric density could possibly crush their cells! Terraforming is the cryptic meaning behind the *"Rise of Atlantis"* and the reinstating of DNA is the *"Rise of the Phoenix."*

The thought that there are still viable living Beings entombed under the ice may sound like madness, but there are presently 100's of contemporary cryogenically frozen people, who have been placed inside thermal sleeping bags immersed in liquid nitrogen and an aluminium pod within a giant vacuum flask. This has been taking place in the U.S. and Russia for several years. Experiments have shown that cryogenically frozen rabbit brains, when thawed had all of their synapses, cell membranes, and intracellular structures intact. This demonstrates cryogenics may be valid and those flash-frozen under the ice may also still be viable or at the least, their DNA.

**"Ever since the fathers fell asleep, the world hasn't changed at all."** –2 Peter 3:4

**GEOENGINEERING:** Script Writers have been manifesting a highly technological program they call “*Stratospheric Aerosol Injection*” (SAI) for over twenty years that has been coined “*Chemtrails*.” They are attempting a stabilized version of what the Elder gods attempted that caused the *Great Cataclysm*.

Hydrogen and Helium are the most abundant elements in the Universe, yet they are rare in the earth's atmosphere and science gives no acceptable explanation. What they are attempting to do is rectify the problem by increasing the depleted hydrogen in the atmosphere to allow for greater DNA support for stature! In other words, they want their genetically inspired *Brood Stock's* “*Junk DNA*” to stay activated when they bring them into the new matrix! At the same time, they added a new concoction to the aerosol spray that serves as a *world depopulation program*.

In 1996 the *United States Air Force* published a report on their activity involving weather modification. Soon afterwards, people started becoming aware of strange patterns in the sky. Governments *ludicrously* assert they are “natural *contrails* from commercial aircraft!” The USAF has been globally accused of “spraying the populations with mysterious substances from commercial looking, but unmarked aircraft that are generating unusual patterns in the sky.” Unlike contrail, chemtrails do not dissipate, but keep on spreading out. Many have found residue from them on their vehicles, foliage and personal property. Private testing began with startling results; they definitely didn't come from the *contrails* governments have been claiming them to be. Independent tests showed Chemtrails to contain Carbon Monoxide, Hydrochloric Acid, two parts Hydrogen and one part Oxygen!! This would be the ingredients needed; however they also allege they contain a toxic brew of chemicals including barium, aluminium coated fiberglass, radioactive thorium, cadmium, nickel; chromium, desiccated blood, mould spore, yellow fungal mycotoxins, ethylene dibromide, sulphur dioxide, polymer fibres and nano-technology! These inhaled and ingested ingredients are affecting sleep, behaviour patterns and health on a global level! Nano-technology is known to work in union with VRIL's electromagnetic conductors for mind control.

**END GAME:** HAARP–*High Frequency Active Auroral Research Program* was the re-establishment of VRIL combined with Tesla technology. CERN–*Conseil Européen pour la Recherche Nucléaire*, now the *European Organization for Nuclear Research*, developed a particle accelerator called the Large Hadron Collider–LHC. {Ra} VRIL-HAARP & CERN have been designed to work in conjunction for hidden agendas: 1. Take control of the consciousness within the present matrix. 2. Depopulate the consciousness within the present matrix. 3. Create a new consciousness to support a unified perpetual and stabilised matrix for the neo-hybrid race!

In 1993, the U.S. Government established the first research site in Alaska to learn how to harness the power of VRIL through high-tech conductors. They achieved this after spending *billions* of tax dollars under false pretences. Script Writers now *control* global weather patterns and temperatures along with targeted human behaviour patterns. They can also disrupt global communication systems at will. Whoever is in control of the geomagnetic frequency fields are also in

control of the population's health and behaviour patterns! There have been more facilities developed since these maps were created and they do not take into account the *thousands* of HAARP receiving *antennas* ubiquitously located around the matrix. The worldwide phenomenon of loud “earth booms, trumpeting and humming sounds” are being created via HAARP and wireless testing programs. A new toy of destruction called “G5” is the latest and most perilous *microwave wireless technology* being established as the final touch of the “*End Game!*” Like HAARP and CERN, G5 is a controlled military weapon grade assault frequency technology. It will be found in the up-to-the minute mechanisms in computers, light bulbs, smart phones, televisions, smart meters and many other new technologies being offered to ignorant asleep populations.

**THE “AWAKE PROJECT”** is the advanced proton driven plasma Wakefield Acceleration development that is taking place at CERN. To be “awake” is to be consciously aware of your surround-

ings; physically *and* ethereally. The god “Shiva: is the most feared deity in Hinduism and adorns the entry to CERN’s Hadron Collider facility in Geneva, the largest *particle physics* laboratory in the world. Shiva is the god of “destruction and rebirth” and is depicted here standing on a newborn child. He adorns the courtyard and lobby of the Geneva facility, but also adorns the *Vatican* along with many other NWO sites. Today there are *more than 30,000 particle accelerators* in operation; all of their facilities are interconnected with HAARP!

**“The worst case scenario” for particle accelerators is that they could mean the end of Earth as we know it.” –Professor Lord Martin Rees**

“*Sky Towers*”, built over 690m (2,000 ft.) high, are popping up all over the world in every major city. Has anyone noticed they are all *similar* in design no matter where they are found? They are disguised as “*tourist attraction observation towers*” when in fact the antennas on top of these *are not* for air traffic safety control but HAARP *wireless microwave* receiving antennas!

**“Absence of evidence is not evidence of absence.” –Carl Sagan**

**ELF:** The matrices are created out of “frequency wave-forms” that your brain is interpreting. All human brainwaves will mirror the *strongest* frequency in proximity to it along with every cell in your body. *Extremely Low Frequencies* –ELF frequencies range from 3 to 30 Hz with corresponding wavelengths of 10,000 to 100,000 kilometres respectively. It is an undisputed fact that acute exposures to ELF’s affect the function of the nervous system with powerful influences over emotional stability, the brain and consequently the mind! The earth’s electromagnetic spectrum resonance has been recorded over the years at a steady 7.83Hz; however around 2014-16 it began to accelerate between 15 to 25Hz with spikes as high as 36 Hz! This has been affecting everyone’s neurobiology and mental health. Statistics now show a record number of people seeking help from *Mental Health* services for insomnia and mental disorders. ELF signals are picked up and carried by FM broadcasting frequencies and these unhealthy frequencies are now ubiquitous throughout the global atmosphere due to wireless (3 kHz to 300 GHz) and microwaves. (300 MHz to 300 GHz)

**“3 things cannot be long hidden: the sun, the moon, and the truth” –Buddha**

All these *End Game* tools are just the beginnings of the IAO rituals: Isis/Kali - the destroyer of evil via Apophis/Shiva’s chaos, so that Osiris/Shiva can start the resurrection and rebirth of the new matrix. Everything taking place within the Script Writers covert technologies is moving them closer towards this *End Game*! The Elite’s newly fashioned *Master Race* may experience this as a blessing and the Demiurge’s *chosen* people may also see it as a blessing; however for others, not so much; unless they understand how to escape both.

**This is not a doomsday scenario, if you can comprehend and embrace the information herein, you will see that it may also be your blessing by opening the door to your freedom out of this matrix at the moment of expiry! “For whosoever will save his life shall lose it, and whosoever loses his life shall find it.” –Matthew 16:25**

You may have figured out by now that DNA *is the program* that is hardwired into the main-frame running it. This is why the Script Writers are emphatically attempting to upgrade and change the DNA: *Change the DNA - Change the program!* Nevertheless, this experience isn’t just

about who we think we are or where we came from because it is still a part of our consciousness, awake or dreaming. What is important is what we are becoming and where we are going after the experience of death in the program! Even when we *wake-up*, we will still have to deal with our own consciousness before continuing on our journey up through the genuine sphere-worlds. Conversely, if you are not able to wake-up while in corporeality, you need to know that your consciousness will not cease or change at the moment of your withdrawal and if you take this information to heart, you can be liberated during that experience! This is why secret societies teach people how to 'prepare for death and the all-important moments afterwards! If you *cling to this world*, and its *contents* or *anyone* in it, you will be recycled and reincarnated or placed in an astral plane of existence, depending on the 'path' or 'who' you follow.

It is important to mentally prepare for this change-over so you don't fall prey to your own fears or the unscrupulous! When you become aware of the illusory nature of death you will not fear it or allow fear to influence you. You will be able to keep dominion over the experience, which is why this information is so important to embrace! People who erroneously believe they are their material body and brain functions have a great fear of death because they are terrified of losing themselves. However, whatever you see, hear, and feel at any given time after departure is a continuance taking place within your OWN subconscious mind! You will carry on hypostatizing what you have been led to believe or whatever you fear the most in the unknown. This is why so many cling to their bodies and suffer during withdrawal and attract negative phantasm. There are not only *charlatans* in this world, but also entities on the lower illusory astral planes that will attempt to lead you astray. These are not to be feared or taken seriously or you will give them power to misdirect you as you have been afore.

Our next journey is predicated on the *Law of Resonance* and the level we have achieved in our consciousness. If you remain asleep, your consciousness will find its way back into another corporeal world that will mirror your personal frequency; be it higher or lower than this world! Those who achieve states of awareness have a choice between following the "*bright path of the sun*" leading them back *towards* their Logoi, or the "*dark path of the moon*." The moon path will lead into the realms of the *ancestors* on the astral realms. Those belonging to the Demiurge will serve Him and those belonging to the Elite Script Writers will incarnate back through their Master Race in the hopes of finding absolution for what they did to Venus and ascension out of their self-created Absalom. Those unwittingly caught in the transhumanization program will remain trapped into hypostatizing the "*new earth and heaven*!"

**"Don't depend on death to liberate you from your imperfections. You are exactly the same after death as you were before. Nothing changes; you only give up the body. If you are a thief or a liar or a cheater before death, you don't become an angel merely by dying. If such were possible, then let us all go and jump in the ocean now and become angels at once! Whatever you have made of yourself thus far, so will you be hereafter. And when you reincarnate, you will bring that same nature with you. To change, you have to make the effort."**  
-Paramahansa Yogananda

**Smooth and inviting run waters deep where silent riptides might keep  
The hunted who tarry know not they be quarry  
With the sense to take flight, Alas till after the moment of strike**

**WANDERERS:** The term Wanderer was originally used to define Beings that entered into the matrix for direct purposes of "*Divine Intervention* after agreeing to go under a '*veil of forgetfulness*.' Over the Ages there have been *Wanderers* who have become ensnared in the dramas of the matrix and became the basis for many a heroic legend. The ethereal light they carry is reflective and shines on things wished to be kept secret or hidden. Their energy field may manifest as an overwhelming '*mirror*' to lower grade spirits that will unwittingly project their own negativity on to these beings when in close proximity.

**"You are from below; I am from above. You are from this world; I am not from this world." -John 8:23**

**WATCHERS:** In Hebrew, Aramaic and Greek, "Watchers" is a term meaning "awake"; "guard"; and "watch," It was ascribed to just that... *Watchers!* They were those who acted like guardians, a sort of cosmic referee over the war games. They made sure the *Rules of Engagement* were followed. This was done via banks of computers connected to the mainframe of the original matrix. There are 3D primeval Shamanic drawings that look like banks of computer screens depicted on cave walls. Genuine *Wanderers* entering into this matrix are still kept under 24 hour surveillance via highly sophisticated small bank of computers with the matrix mainframe.

**INTROSPECTION:**                      **From the darkest dung a Rose can come forth**  
   **Oh, so Beautiful and Sublime**  
   **So too it could be for Humankind**  
   **If only they had the Courage to Seek and Find**

"I was standing in a shadowy cloud. My body began to feel itchy and it became increasingly uncomfortable. Upon investigating the source of my discomfort, I became aware that I was wearing an extremely old worn filthy, smelly, heavy black overcoat. The smell of the thing was vile. I tried desperately to take it off, but it was too heavy. No matter how hard I struggled with it, I could not get the revolting thing off me. It seemed futile and as I became weary of battle, I began to ask Spirit, "What have I done to deserve this terrible thing?" As I began to quieten down what felt like Heavenly Hands started to unbutton the loathsome overcoat. With the opening of each button a blazing golden white light came piercing outward from within the coat. Nonetheless, even after every single button was unbuttoned, I still could not get the wretched thing off. I was astonished to see how something as beautiful and glowing as this golden light could possibly be coming out of this filthy overcoat.

I could not understand why I could not take it off. As I focused more closely on the coat, scrutinizing every aspect of it, I started to feel that it must be some part of me. With that, I suddenly knew the coat's name: "*Vanity*"! In a flash, I understood that *all thoughts* of separation from one's Source and Spiritus are vanity! My self-image, judgments of self and others, self-doubt, self-denial, self-righteousness, self-obsessions and fear carried the name of vanity. It had been fashioned since childhood through the development of my egoic mind within the delusion of the duality that had created this abomination over my soul.

My first reaction was guilt; I began to loathe myself and struggled harder against it, which made the coat heavier and heavier as I irrationally moved further into vanity! When I could bear it no more, I collapsed in the grace of an inexplicable feeling of remorse, an overwhelming sad, yet glad excited feeling; yet, I still could not get the thing off of me. I cried out in anguish, "I cannot suffer this weight any longer!" In that moment, I felt a deep surrender come over me as I heard a voice say to me, "There is only one way to remove this blight. You must embrace it and see it is a fragment of you. Do not continue to do battle with it, for that will only make it heavier; just allow it to be in order to serve you. Stay aware of its folly, so when it raises itself against your heart, you will know it for what it is: *Vanity*! Give it no power and it will be dissipated along with the overcoat. This will happen when you learn to discern your head from your true heart and understand Love and ALL That Which You Be. Have patience and understanding for YOU are not the coat, nor are you the vanity, you are My Beloved Child."

With these words, the coat was lifted from me. My spirit soared like an eagle free from its bondage and when the coat was gently placed back on my shoulders; there was no more weight, only the light shining from within, enveloping everything from without. I had learned the power of the indwelling Divine Lumen Ra: Love is the antidote, the healing of our Spirit, for of ourselves we can do nothing. In Spirit

all things are possible. ॐ You will only Know *True Love* at the Moment of Self-Realization, for then you will Be Love; And Know *All That Which You Be!*

**SOUL HARVEST:** By now you realise this oeuvre is about *debunking* elements that have a hold on our *subconscious* and that keep harvesting our souls back into this subterranean virtual-reality. Endless searching for the truth or *fascinating* information on the net has become a mind trap that keeps your focus here. Most do not have the ability to escape whilst in a physical vessel; however everyone has this *ability* upon their use by date, if they have the unsullied information! The quintessential wisdom of Gnosticism is to have enough information to release your mind from this *virtual-Absalom*. The one thing certain is that one day your body will expire and it doesn't matter how or when, but what is in your consciousness at the time!

There are two major Factions of Script Writers; one is working on the same problem as you in attempting to escape the matrix. The other is working on entrapping you further in order to create new matrices. Both are "harvesting your energy!" Thought is energy, emotions and feelings boost energy whether it be fear, love, hate, passion; whatever, all create forms of energy whether positive or negative. The more you can calm your mind and become *unattached* to the negativity transpiring in this world, the less energy you will expend and give to the forces that are siphoning it from you for their personal agendas. It doesn't matter who or what they are, it only matters that you renounce all of it! You cannot do that by continuing to feed your mind's curiosity with inconsequential information with no regards for true liberation. It is all up to you and your choices no matter how bizarre your surroundings.

**SUMMARY:** "We know we are of the gods, And that the whole world is under the power of evil." -1 John 5:19

I have attempted to bring heaven down to earth and create a portal in *your* consciousness for awakening. Everything is upside down; lawyers rot justice, educational systems rot knowledge, doctors torture and prescribe poisons, governments crush freedom, monarchies feed off the poor, media lie, and religions butcher spirituality. Embrace this Gnosis; discern and choose a new Awareness. Use your *own intuition* instead of your intellect, *feel* the deep buried truth within *your own* heart! Acceptance that you are in a dreamscape and belong to a different world is the first step along with the *Faith* that you are much more than you perhaps know. If you can comprehend and understand what is being given herein, you may escape the entire illusion of physical death, quit this body and simply "wake up!"

**Our Genuine Primordial History is a Vast Halo of Divine Emanations and Embodiments encompassing far beyond the Planes and Galaxies of your imagination and the Matrices. They are the Pleroma of Glory that still Reigns unencumbered in the Eternal unfading Grandeur that awaits you... Wake Up**

- ✚ Eras are event-timelines
- ✚ Event-timelines are Matrices
- ✚ Matrices are frequencies
- ✚ Frequencies are waveforms you are interpreting in a Program
